

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

NOTE.—In the above classification those roads whose statements are grouped under the head of Class 1 comprise all lines that may be designated "common carrier railroads" in the full sense of the expression; Class 2 is made up of railroads that are engaged in carrying passengers only; and Class 3 those exclusively engaged in the transportation of freight; Class 4 comprises switching, belt, terminal, connecting, and toll railroads; Class 5 consists of private, logging, ore, and other railroads used in conjunction with the enterprises with which they are connected; and Class 6 includes roads not fully brought into operation, and those whose operations have not been fully reported. Class 4 is omitted because the traffic operations of these switching and transfer railroads are merely a duplication of figures contained in Class 1; omitting these transportation statistics necessitates the omission of all returns responsive thereto.

NOTE A.—*Freight Train Mileage*: The Penna. RR. Co.'s returns for 1899 decreased 11,777,156 miles from the figures of 1898. "Train mileage represents mileage of freight and passenger trains only—all helping, or work-train mileage, and mileage made by engines and cabooses without cars being excluded."

NOTE B.—*Miscellaneous Rentals*: Miscellaneous rentals include terminal and station facilities, right of way, payments to railroads in Canada, payments distribution unknown, surplus of leased lines.

mileage operated in 1897, 1898 and 1899 as above, is exclusive of switching railroads which in 1897 was, in 1898, 338.85 miles and in 1899, 310.61 miles ; these roads not reporting details of passenger traffic. For the same reason the mileage of switching railroads is omitted from the group tables.

The railway, as was natural, was an invention of our Mother Country which at the time, led the world in her skill in what may be termed the useful machine. It was there that the power of steam was first utilized. In 1826 its first successful application to locomotion was made upon the Stockton and Darling Railway. The subject, however, of improved highways and canals had long engaged the attention of our people, the great bulk of whom were to be found upon a narrow belt of territory stretching along the Atlantic Coast, and in which were the markets for the people inland. The immigrants naturally followed the lines of water courses, to a greater or less extent navigable for small vessels. It is a singular fact, amounting almost to an oversight of nature, that of the great rivers draining the interior of the continent, one of them finds its outlet under the burning sun of the tropics, the other in a region of polar cold. When the summit of the mountain range which separates the great interior basin of the continent from the Atlantic Coast was reached, the importance of uniting the two by the only works suited to commercial purposes and known at the time, canals, was fully appreciated, and as they grew in strength the States of New York, Pennsylvania, and Maryland, each on its own account, undertook its own proper line. Of these only that of the State of New York, the Erie Canal, was carried to completion, being opened Nov. 4, 1825. The accomplishment of this work formed an era in the history of the nation, as, from the facilities it supplied, both in the transportation of persons and merchandise, it gave a predomance to the Northern States, particularly New York, that has since been maintained. The State of Pennsylvania succeeded in constructing a composite line, partly canal and partly railroad put in at a later date, the railroad portion being that between Philadelphia and Columbia, 82 miles, and the Portage Railroad across the summit of the Alleghanies, 36 miles. The canals have been long since abandoned, the railroads becoming a part of the Pennsylvania System. The State of Maryland pushed her water line from Georgetown, in the District of Columbia, to Cumberland, 184 miles. When means becoming exhausted, no further attempts were made for its extension to the Ohio River, its ultimate goal. Of these works, the Erie Canal is the only one now in use.

The railroad system of this country had its birth in 1828, when the construction of the Baltimore and Ohio Railroad was inaugurated. The day was appropriate to the occasion. It was July 4th, and the ceremony of breaking ground was performed by the venerable Charles Carroll, of Carrollton, the only surviving signer of the Declaration of Independence.

The Baltimore and Ohio Railroad when it was first opened for traffic was operated by horse-power, but steam locomotive traction was speedily substituted.

In 1835, seven years after the commencement of construction on the Baltimore and Ohio Railroad, there were in operation in the United States 1,000 miles of railroad, of which nearly all were in the States bordering on the Atlantic Ocean. Five years later the system had nearly trebled in extent, the lines beginning to head toward the interior.

In 1848 a continuous line of railway was formed between Boston and New York city by the completion of the New York and New Haven Railroad, formal opening occurring on the first day of January, 1849,

country. They entered very slowly, however, upon this new field. The future success of the trunk lines from the lakes and the Ohio to the East was due to the extension of these lines, by other railroads, into the interior of the country. The tendency of freight coming from the West to go by the lake was almost irresistibly to the canal—the boats serving as houses for their freight both at Buffalo and New York. At that time there were no elevators, nor any adequate provision for the handling of railroad cars at all comparable with those enjoyed by the water-lines. It was consequently not until railroad communication could be had with the interior that ground for a successful competition was fully laid. The tendency of both goods and provisions, when once loaded upon a car, was to remain in the car till the market was reached. The business of the trunk lines, consequently, grew in ratio to the progress of the railroads in the great interior basin of the country.

No sooner was the superiority of railroads over the ordinary highway fully demonstrated both in this country and in England, than a great many schemes were immediately set on foot. A great stimulus was supplied by our peculiar local organization. Each State is a sort of miniature sovereignty, with local interests and ambitions which are often encouraged by it, in its corporate or executive capacity. The same may be said of the numerous municipal organizations into which each State is divided. As the State of New York constructed the Erie Canal, the pioneer work of the kind, so similar movements in other States were more or less assisted and controlled by them. It was the only mode in which, at that time, the means for works of any considerable magnitude could be provided. The credit of the States, as well as of municipal bodies, stood for any sums they might wish to borrow. Local pride, and the advantages

the history of the railroads of this country, as it was the first in which began to move merchandise on any considerable scale. The total number of miles in operation that year equalled 8,876. Their gross earnings equaled \$39,566,358.\* Their gross tonnage equalled 5,672,762 tons, assuming the tonnage of all to equal the average of those of the State of New York, which carried that year 1,093,381 tons, their mileage equalling 1,705 miles.

Up to 1848 the progress made in railroad construction was slow and unpromising, the total mileage of lines completed at the end of that year being only 5,996 miles, of which 1,225 were in New England, 2,350 in the Middle States, and 1,415 in the Southern States. Pennsylvania led the States with 1,048 miles, New York following with 869 miles, and Massachusetts coming third with 790.

During this period the construction, maintenance, and improvement of railroads had absorbed all the floating capital of the country. Small as was the progress made, it imposed too heavy a burden on the financial machinery of the nation; for so rudimentary was the industry of the country, and so slow the rates of increase, that the best located lines, instead of creating, as they do now, an annual traffic much exceeding their cost, were a heavy charge upon the promoters and stockholders.

the great Chinese Empire whose population makes up more than one-third of the human race, and which, with all the fabulous wealth of the Indies, was to be brought into immediate connection with our own country. Our new possession, whose area exceeded that of some of the most powerful empires of the Old World, and whose wealth of minerals and soil was generally known open to the enterprising and adventurous of all nations, became instantly—by magic, as it were—a State of first-rate magnitude and importance.

The first great movement in the construction of railways dates from the discovery of gold in California. The effect upon the industries and commerce of the country, of the sudden addition of more than \$50,000,000, annually, to the circulating medium, was prodigious. It had no precedent in history. The discovery of California was equivalent to the acquisition of half a continent. A new field was opened, which absorbed no inconsiderable portion of the labor of the country at most remunerative rates. All sections were proportionally benefited. The wealth drawn so copiously from the Western part of the continent stimulated to an extraordinary degree the commerce, manufactures, and agriculture of the Eastern. For the increased wealth and newly created enterprise of the nation, the railway offered the most attractive and appropriate field. Citizens shared fully with ourselves in the enthusiasm which prevailed, and contributed almost unlimited sums for the prosecution of our public works. From 1857, 17,138 miles of railway were constructed. Then came a great commercial revulsion, which, commencing in the United States, swept around the world. But the nation had grown too strong to suffer anything more than a temporary check. The lines of railroad which had been constructed penetrated every important portion of the country, and gave a high commercial

to private undertakings, a large number of the States entered upon the construction of elaborate systems of internal improvements, nearly all of which, with the private enterprises, were suddenly overwhelmed in a common ruin. Not a tithe of what was undertaken was accomplished. For the want of means of communication the products of the interior, such as they then were, possessed very little commercial value. At that time only a very few of the mechanical contrivances existed which have since abridged labor to such an extent that the productive capacity of society, in proportion to its number, has been quadrupled within the last thirty years. The means for a speedy recuperation had not then been created. Years, consequently, were required to repair the waste and loss that had been suffered. After resuming from the suspension of 1837, the great majority of the banks of the country again suspended payment in 1842. The period from 1837 to 1844 may be set down as one of the most gloomy and disastrous in the history of the country.

The works first built were cheap and rude structures, adapted neither to high speeds nor heavy trains, and formed a most striking contrast to the almost perfect works of the present day. The estimated cost of many of the most important lines in the country did not equal one-half their annual receipts at the present day. That of the Erie Railroad was \$6,000,000. A revised estimate made as late as 1841, after considerable progress had been made with the work, put the cost of the road at only \$9,000,000. The inadequate estimates made in almost every case were a fruitful source of future embarrassment, while the imperfect structure of most of the roads not only greatly restricted their traffic, but involved heavy losses from the reconstruction, which was in almost every case rendered necessary.

The earlier roads, instead of possessing, as at present, an annual traffic exceeding in value many fold their cost, were a heavy burden upon the capital and industry of the country. In many of the States, particularly in the Western and Southern, large sums were expended upon lines which were wholly abandoned. Still larger sums were wasted in attempts to construct canals and in extensive systems of banking, which were set on foot in nearly all the States. The railroads constructed were mostly short passenger lines, and contributed little toward the development of the material interests of the country. So excessive were the losses, and so complete had been the disorganization of the industries of the country in the great revulsion that followed, that years were required to restore the waste and exhaustion that had been suffered.

From the opening of the first railroad in 1830 to 1848, inclusive, a period of nineteen years, 5,996 miles of line had been completed, being an average of 316 miles annually.

The following statement exhibits the progress made annually in railroad construction in the whole country from 1849 to 1860 :

and Lake Erie was reached, the next great step was the extension of the railroad system of railroads to Chicago by the completion, in 1853, of the line from Toledo (now a part of the Lake Shore and Michigan Southern) to Chicago. The Michigan Central and Michigan Southern, extending from Detroit to Chicago, were opened in 1852, ten years after the opening of the line of the New York Central from Albany to Buffalo.

The construction of the Pennsylvania Railroad, now one of the most important of our public works, was begun in 1847. It was opened for business in 1854. This line was extended to Chicago by the Pittsburgh, Fort Wayne and Chicago, which was completed in 1858. The Baltimore and Ohio Railroad, the first undertaken in the United States, was opened on the 12th of January, 1827, at Ohio, at Wheeling.

In the preceding sketch we have briefly recapitulated the works first undertaken and have traced the progress westward of the great trunk lines based at Boston, New York, Philadelphia, and Baltimore. Some progress had, however, been made in the Valley of the Mississippi before either of those lines reached that valley or Lake Erie. The first line of railroad undertaken in the great interior basin of the country was the Mad River and Lake Erie of Ohio, afterward a part of the Cincinnati, Sandusky and Cleveland Railway, which line was purchased in November, 1890, by the Cleveland, Cincinnati, and St. Louis Railway Co. Its construction from Sandusky to Dayton, 100 miles, was begun in 1835, a portion of it being opened in 1838. In connection with the Little Miami, which was opened from Cincinnati to Springfield in 1837, it formed, in 1848, a part of the first through line from Lake Erie to the Gulf.

A second line between the lakes and river was formed by the Little Miami and the Cleveland, Columbus and Cincinnati, which was completed between Cleveland and Columbus, 135 miles, in 1851. The Cleveland and

its Parkersburg branch ; and two years later a branch of the Marietta and Cincinnati was built to meet the latter line, thus forming a through line from Baltimore and Washington to Cincinnati. In 1858 the Pittsburgh, Fort Wayne and Chicago Railroad Company opened its important line from Pittsburgh to Chicago, a distance of 468 miles, completing the second great trunk line from New York to Chicago.

As in Ohio there were no railroads of importance constructed in the Western States of the Union previous to 1849. In Indiana the Madison and Indianapolis (now a part of the Jeffersonville, Madison and Indianapolis), one of the roads first constructed in the West, was opened in 1847. This line was originally begun by the State, and 26 miles of it were opened in 1841. It was transferred to a private corporation in 1843, and completed between Madison and Indianapolis in 1847. The first line running east and west through Indiana State, made up of the Indiana Central, and the Indianapolis and Terre Haute, was opened in 1853. The next line, having a similar direction, was the Ohio and Mississippi, opened in 1857. The New Albany and Salem, now the Louisville, New Albany and Chicago, the first line connecting Lake Michigan with the Ohio, and lying wholly in Indiana, was opened in 1854.

In Illinois the first line undertaken was the Sangamon and Morgan, a portion of which was opened as a State work in 1839. This road now forms a part of the Wabash line. The second line opened in Illinois was the Galena and Chicago Union, which was commenced in 1849, and opened for a distance of 10 miles in June, 1850. The railway first opened in this State from Lake Michigan to the Mississippi River was the Chicago and Rock Island, in February, 1854. This connection marked a very important extension of the railway system of the country. The second line to the Mississippi, made up of the Galena and Chicago and the Illinois Central, was opened early in 1855. The Chicago and Alton was opened in 1855 ; the Chicago, Burlington and Quincy to the Mississippi River in 1856 ; the Milwaukee and St. Paul in 1858, and the Western Union in 1862. Both of the latter now form part of the Chicago, Milwaukee and St. Paul system. The Chicago branch of the Illinois Central was opened from Chicago to Cairo in 1856. At this time the Illinois Central, with its 70 miles of road, was considered the most stupendous undertaking in the world.

The next important extension westward was the Hannibal and St. Joseph, which carried the railway system to the Missouri River in 1859.

Of the lines constructed through Central and Southern Illinois, the Terre Haute and Alton was opened in 1854, and the Ohio and Mississippi in 1857. From St. Louis westward, the Pacific Railroad of Missouri, the beginning of the present Missouri Pacific system, was completed to Sedalia, 189 miles, in 1861—before the outbreak of the war.

The railroads whose progress has been here sketched formed at this date geographically and commercially, one system, of which the Baltimore and Ohio Railroad and its connecting lines may be said to constitute the southern boundary or member. South of Baltimore there was no important commercial city upon the Atlantic coast, and the trade of all the interior north of a line with the lower Ohio naturally sought eastern outlets through the railways that

ned. In consequence, the railroad development of the Southern States the earlier periods was slow and of local importance only.

eral railroads were constructed at an early day in Virginia, the more nt of which were those now forming the line traversing the State from south, and made up of the Richmond, Fredericksburg and Potomac, ed from Richmond to Fredericksburg in 1837, and to the Potomac in he Richmond and Petersburg, opened in 1838; and the Petersburg and e, in 1843. But the great line of Virginia, prior to the Civil War, was way traversing the State diagonally from Alexandria to the boundary Tennessee, 382 miles, made up of the Orange and Alexandria and the and Tennessee Railroads. The former of these roads was opened in d the latter in 1856. At the boundary this line connected with the East ee and Virginia, extending to Knoxville, Tenn., which was opened in From Knoxville this line was extended to Dalton, on the line of the and Atlantic Railroad, by the East Tennessee and Georgia Railroad, in 1856.

om Weldon the Virginia system was extended to Wilmington, N. C., by ing of the Wilmington and Weldon Railroad, in 1840. It was not till at a connection was formed with the system of South Carolina by the of the Wilmington and Manchester Railroad. The South Carolina d, as before remarked, was opened to Augusta, Ga., in 1833. From s the Georgia Railroad was opened to Atlanta in 1839. The Central d of the same State was opened from Savannah to Macon in 1840. From the railway systems of South Carolina and Georgia were extended to nessee River at Chattanooga, Tenn., by the completion of the Western antic Railroad of Georgia, a State work, in 1850. From Atlanta a line ray was opened to Montgomery, Ala., in 1853, and from Montgomery ile, in the same State, in 1862.

om Chattanooga to Nashville the Nashville and Chattanooga was opened e, and the Memphis and Charleston in 1857. The Mobile and Ohio d was opened to Columbus, on the Mississippi River, near the mouth of io River, in 1859. The line from New Orleans, made up of the New s, Jackson and Great Northern, and the Mississippi Central, was opened anection with the Mobile and Ohio, at Jackson, Tenn., the same year. misville and Nashville was opened to a connection with the roads last in 1861, and with Nashville in 1859.

age quadrupled in eight years, and it is now thirty-nine times as much. In the gold-producing States the railroad system was slow to start development. Till 1855 there were no railroads in the Pacific States. During the succeeding eight years there were less than 30 miles built, and the cost of transportation was enormous.

From 1865 until 1873 the construction of new lines of railroad progressed with unusual vigor, due in a measure to the great abundance of capital, but chiefly to the undertaking of the Pacific lines of railroad under the stimulus of government aid. In this period no less than 36,359 miles were added to the country's railway ramifications, being an increase of nearly 107 per cent. In other words, more railroads were built in these nine years than in the preceding four years.

Of the lines constructed in these years, 1,521 miles were located in New England, 5,448 in the Middle States, 9,604—more than one-fourth—in the five Eastern States, north of the Ohio River and east of the Missouri, while no less than 15,578 miles were opened in the three groups of States west of the Mississippi and Missouri Rivers, the remaining 4,208 miles being distributed throughout the Southern States.

The completion of the Union Pacific Railroad on the 8th of May, 1869, and the opening of the first through transcontinental route formed thereby, has deservedly classed as among the most potent factors in the extraordinary development of the great West, as well as one of the strongest ties which bound the growing communities of the Pacific slope with our firmly established East of the Mississippi River.\*

The disasters of 1873, resulting from the financial revulsion of that year, were followed by a long period of depression in all the industries of the country.

Statement showing by States and Groups of States, the mileage of railroads in 1864 and 1873, and the increase between those periods; also mileage in 1879 with the increase over 1873.

depression that followed the panic of 1873 extended through the years 3. During 1879 matters began to improve throughout the country, feeling soon became reflected through the railroads. In that year con- increased nearly 100 per cent. over the preceding year. following statement shows the total mileage of railroads in operation se of each year from 1874 to 1888, with the annual increase in mileage:

ing these fifteen years there were built 85,846 miles of new railroad, an of over 122 per cent.; that is, in these fifteen years were built 15,578 railroad more than were built in the preceding forty-five years. The e of these fifteen comprised a period of depression, the next four years ears of unexampled activity, while the three years of 1883; 1884, and ere years of hesitancy, in which no new railroad enterprise of great tude was begun, as was natural, after the completion in a single year of 11,600 miles of road. In 1886 there were added 8,113 miles, and in 12,982 miles, the latter surpassing the record of any previous year; and 88, 7,056 miles. In the three years the new construction aggregated 1 miles, or only 45 miles less than the extraordinary record of the three 1881-1883, in which period 28,196 miles of new main track was built. Since 1888 there has been a steady decline in railway construction, as shown e appended tables, embracing all the United States. The following statements show the distribution by geographical divisions e railroad construction during the eighteen years from 1880 to 1897 :

The increase in mileage during the ten years from 1840 to 1850 was 6,200 miles, or 210 per cent. The average mileage constructed per year in this decade equalled 620.3 miles. In the succeeding decade, 1850 to 1860, 21,605 miles were added, an average of 2,160.5 miles per year, the increase equalling nearly 240 per cent. The next ten years, 1860 to 1870, showed an increase of only 7 per cent., or 22,296 miles, the falling off from previous records being due to the outbreak of the war. Between 1870 and 1880, 40,374 miles were added, an increase of 76 per cent.

In 1840 the ratio of mileage of railroads to population was one mile of road to every 7,415 inhabitants ; in 1850 it was one mile to every 3,298 ; in 1860, one mile to 1,027 ; in 1870 one mile to 729 ; in 1880 one mile to 538 ; in 1890 one mile to 376 ; in 1895 one mile to 390, and in 1898 one mile to 401. The advance in number of inhabitants to each mile of road since 1890 is accounted for by the cessation of construction.

In a country like our own the reaction following a protracted period of depression, such as existed in the years 1873-78, is accompanied by a constantly increasing demand for desirable corporate securities, to such an extent that the ordinary channels of investment are speedily choked to overflowing. The superabundant capital of such periods naturally seeks those fields offering the best return, and of these none is so popular with the majority of investors as the securities of railway companies. When such securities of the established corporations are practically all absorbed, then capital seeks permanency in new ventures.

The unparalleled impetus given to business enterprises of all kinds by the resumption of specie payments January 1, 1879, gave an impulse to the construction of railroads in this country such as has never been experienced in any country since that system of transportation was inaugurated. In the ten years beginning with 1881 there were added to the mileage of the country no less than 73,392 miles of railroad, at a cost for construction and equipment of \$4,500,000,000—this sum including, of course, the cost of betterments to old lines. The average annual expenditures on railways in this period equalled \$450,000,000.

During these ten years, between the close of the years 1880 and 1890, the country and the world at large witnessed one of the most extraordinary achievements of our people in the unprecedented extension of our great transportation system, accompanied by a corresponding development in the perfection of the details of working, as well as a steady decrease in the charges for the transportation of freight and passengers.

The expansion of the railway system of the country in this period from total length in 1880 of 93,262 miles to 166,654 miles in 1890, representing

Chicago, Milwaukee and St. Paul, the Atchison, Topeka and Santa Fé, and Chicago, St. Paul and Kansas City Railroad Companies.

These facts are presented to show with what eagerness the great rail corporations sought entrance into new and, in most cases, comparatively undeveloped territory. The decade, 1880 to 1891, marks an epoch in the history of our railways, in which was waged the greatest contest of capital against capital that this century has witnessed. It was a battle of mighty giants for strategic position and ultimate supremacy. In the heat of the battle existing conditions were ignored or forgotten, and the future alone was contemplated.

South of the Ohio River the construction of railroads was also vigorously prosecuted, the more important lines being named below :

Atlantic and Danville—Danville, Va., to Portsmouth, Va., and branches.....	28
Atlanta and Florida—Atlanta to Fort Valley, Ga.....	10
Augusta, Gibson and Sandersville—Augusta to Sandersville, Ga.....	8
Cape Fear and Yadkin Valley—Wilmington, N. C., to Mt. Airy, N. C., and branches	32
Chattanooga, Rome and Columbus—Chattanooga, Tenn., to Carrolton, Ga., & branches	15
Florida Southern—Palatka, Fla., to Brooksville, and branches, etc.....	30
Georgia Midland and Gulf—Columbus to McDonough, Ga.....	9
Georgia Southern and Florida—Macon, Ga., to Palatka, Fla.....	28
Jacksonville, Tampa and Key West—Jacksonville, Fla., to Sanford, and branches..	16
Marietta and North Georgia—Marietta, Ga., to Murphy, and branch.....	11
Macon and Northern—Macon to Athens.....	10
Pensacola and Atlantic—Pensacola, Fla., to River Junction.....	16
Savannah, Americus and Montgomery—Lyons, Ga., to Hartsboro' and from Hillsboro' west.....	22
Savannah and Western—Americus, Ga., to Birmingham, Ala., and branches.....	36
South Atlantic and Ohio—Bristol, Tenn., to Big Stone Gap, Va.....	7
Western North Carolina—Salisbury, N. C., to Paint Rock, Tenn., and branches....	32

In this section, also, the older corporations were not to be distanced by the younger competitors in the race for territorial expansion, and in consequence many important extensions of their lines were built. A notable feature of the latter half of the decade was the surprising activity displayed in Georgia and the mineral regions of Alabama.

The great event in the Northwest in the early part of the decade was the completion of the main line of the Northern Pacific Railroad, that colossal enterprise which had been begun thirteen years previously, and whose financial lapse was one of the primary causes of the great revulsion of 1873.

Important as was this event, it was overshadowed by the completion in 1883, of three other transcontinental routes in different sections of the country. While the year was yet in its infancy, the Southern Pacific and the Galveston, Harrisburg and San Antonio railroads formed a junction at El Paso, and established a route running westwardly and northwestwardly from New Orleans through the States of Louisiana, Texas, New Mexico, Arizona, and California to San Francisco.

The opening of the Northern Pacific Railroad attracted widespread attention, not only on account of the elaboration of details attending it, but for the final completion of one of the most stupendous works ever undertaken.

incumbent to the inevitable. In the succeeding years it was sold and  
zed; and when the financial storm had spent its force and the energies  
people once more asserted themselves, the Northern Pacific Railroad Com-  
gan active arrangements towards the completion of its colossal enter-  
In the spring of 1879 construction was resumed on the west bank of the  
River, opposite Bismarck, and several months later, on the western divi-  
the line at the confluence of the Columbia and Snake Rivers, in Wash-  
Territory. The intervening gap between those points was 1,222 miles,  
until complete success was achieved by the driving of the golden spike, on  
ber 8, 1883, the work progressed without serious interruption.

Following closely on the opening of the Northern Pacific came the an-  
nouncement of the completion of the Western Division of the Atlantic and  
Railroad to the Needles, on the Colorado River, where connection is  
with the Southern Pacific Railroad of California, and forming, in connec-  
with that line and the Atchison, Topeka and Santa Fé, with which con-  
n is made at Albuquerque, New Mexico, the fourth transcontinental  
Public interest was largely centred in the accomplishment of these  
works, and the full measure of success with which all were attended was  
sufficiently responsive to justify it.

Besides these lines the other important extensions in the section of the coun-  
t of the Mississippi and east of the Rocky Mountains were by the St. Paul,  
apolis and Manitoba, now the Great Northern System, which extended  
westward to Helena. The Chicago and Northwestern was equally active  
warding its western extension to Fort Caspar, Wyoming, the Burlington  
ending its line to Denver, and more recently in a northwesterly direction,  
rino, Wyoming, and the St. Paul in securing a line to Kansas City. All  
se lines added considerably to their mileage in the way of branches, etc..

The increase of 100,226 miles in the eighteen years from the end of 1880 to the first of January, 1899, is 9,525 miles greater than the aggregate mileage in operation in 1898, in Great Britain and Ireland (21,277 miles), France (22,656 miles), all Germany (28,071 miles), and Austria-Hungary (19,697 miles). It is significant as showing the wonderful activity of the people, as well as the unbounded faith of capitalists in the resources of the country.

A striking feature of the railroad building in the decade, 1880-1890, was the large number of speculative and parallel lines which were put under way, many of them completed, notably the West Shore Railroad, which parallels the New York Central line for its whole length from New York to Buffalo; the "Nickel-Plate" line, which parallels the Lake Shore in like manner from Buffalo to Chicago; and the South Pennsylvania, projected to parallel the Pennsylvania Railroad between Philadelphia and Pittsburgh, upon which a large sum was expended. In some instances such lines were perhaps undertaken with a view to forcing their subsequent purchase by the older companies whose lines they sought to parallel; and in the case of the two roads first mentioned these plans met with eminent success. But their fulfilment was the main cause of the depression which existed during the years 1885, 1886, and 1887.

The construction of railroads in this country in the past seems to have proceeded in great waves. In recurring periods it became the absorbing passion of our people. All this is very natural. No enterprise is so seductive as a railroad for the influence it exerts, the power it gives and the hope of gain it offers. Every community, no matter how well supplied, eagerly welcomes a new line for the money its cost brings it, and the promise it offers of lower rates of transportation. When there has been a considerable pause in the construction of railroads, and the traffic of old lines, which, without rivals, keeps pace with the progress of the country, their success is predicated of every new line wherever situated, no matter how wanting in real merit it may be. In a state of excited state of the public mind the promoters of new enterprises have their own time, everything their own way; for the argument on the other side can hardly be presented by the result itself. There never was a period in our history in which, in the construction and consolidation of railroads, the good sense of the people was so thoroughly at fault as in the period from 1879 up to and including 1892. There can be no doubt that the country is vastly richer and stronger than at any other period of its existence, and that there is no reason to apprehend the terrible disasters that followed the year 1892; but confidence in the vast strength led to excesses wholly disproportionate to our needs or means.

Taught by the disasters of the past, we are entering upon a more sober period in railroad construction. It is now seen that in such States as Ohio, even in the State of New York, no extent of additional mileage, which is undertaken for its object the development of a particular interest, will add materially to the amount of earnings in such States, the existing mileage in these supplying *the means and facilities wanted*. In such States, consequently, with the *improvements made, no new mileage of any considerable extent can be constructed*.

at all compensating for the unproductive outlay. The same may  
r lines built nominally to serve as carriers between the West and  
ie existing lines are capable of transporting twice or thrice the  
offering or that is likely to offer itself. The result of all such  
ll be to divide business with, and thus weaken, the old ; or,  
pete, their stocks and bonds must remain comparatively valueless.  
f success will serve to check the further construction of all  
of the kind. Indeed, the uncertainty which prevails as to the  
enormous mass of stocks and bonds which has been put upon  
the past years is exerting a very salutary influence in checking  
g new enterprises till the results of the past can be more clearly

RAILROAD CONSOLIDATIONS.

On Dec. 31, 1880, there were 1,085 railroad corporations in the United States, this number including companies whose lines were at that time operated by other corporations under lease or other agreement. The total length of lines on that date was 93,262 miles. In the seventeen years from 1881 to 1898 inclusive, there were added by construction 93,548 miles, an increase of 100 per cent., nearly all of which were built by new corporations, either independently organized in the interest of the larger systems. The number of corporations in existence Jan. 1, 1899, was 1,732 (not including private railroads, nor those existing but a nominal existence), of which 906 companies were those conducting the traffic operations of the entire railroad system of the country, the remainder 826 being the number of companies whose lines were leased to the others.

The net increase in the number of corporations Jan. 1, 1899, over Jan. 1, 1881, as shown by these figures, is 647, of which 15 are in New England, 21 in the Middle States, 101 in the Central Northern group, 152 in the South Atlantic group, 76 in the Gulf and Mississippi Valley group, 121 in the Southwestern States, 41 in the Northwestern States and 54 in the Pacific States.

Notwithstanding this increase in the total number of corporations during the years from 1880 to 1897, the tendency to consolidation of lines is

re marked than at any time previous thereto, as will be seen by the following statement.

showing the number and mileage of all lines consolidated with, or purchased by, other corporations during the nineteen years from Dec. 31, 1879, to Dec. 31, 1898, inclusive :

observed that the tendency to the absorption by consolidation, purchase of railways seems to move in waves similar to, but not coinciding to, the waves of construction that have been so marked in the railway development of this country. An examination of the movement shows that in this respect the movement corresponds rather to periods of activity and depression in railroad business. Thus, preceding the panic of 1884, the movement in the direction of reducing the number of lines with the idea of unifying systems is decidedly marked. From 1884 to the Interstate Commerce Act became a law there was a falling off in activity and uncertainty as to the future. In the three years following the passage of this act great activity was displayed, and since then, with the exception of the prosperous year, 1893, hesitancy that was noted during the previous depression is discernible. The total of 1,785 railroads, with an aggregate mileage of 142,177 miles, that have passed out of legal existence during the period covered by the preceding table, through these methods of absorption, are, in themselves, at least, impressive and worthy of careful consideration.

FORMATION OF RAILWAY SYSTEMS.

A comparison of 53 leading railroads in the United States shows that since 1880 there has been an increase in mileage owned and operated under lease or other contract of 2,368.91 miles, or 122 p. c.—in other words, from 59,428.85 in 1880 to 61,797.76 in 1898. Of the mileage operated in 1880 the operating companies owned 46,343 miles and leased 13,086 miles. To this there were added

between 1880 and 1899, 30,371 miles by construction of new lines by the operating companies; 17,492 miles by consolidation, and 23,676 miles by lease. On the 1st of Jan., 1899, therefore, the mileage owned by the operating companies was 95,947.56 miles, and the mileage leased 35,850.20, making 131,797.76 miles. Perhaps in no better way is the tendency to centralization of management shown than by this statement, details of which follow.

marvellous facts brought forth in the preceding tabular statement the increase in railroad mileage of fifty-three leading systems between December 31, 1880, and December 31, 1899, is fully supported by the comparable on the next page, which is designed to show the statistics of the of sixty of the great systems and lines from 1890 to 1898, inclusive, not to mileage and capitalization, but also in regard to traffic, earnings, and dividend payments, etc., etc., with many deductions from the main In connection with these two tables it may be explained that while the on page xlviii covers fifty-three systems, whereas that on page l cov- y, in the later years, this difference is due to the manner of treating the Pennsylvania RR. System—East and West of Pittsburgh—which represents only systems in the table on page xlviii, whereas in the table on page l, the e, traffic, and other statistics of the several operating companies are sep- reported, thus increasing the number of systems to sixty as against fifty-

between 1880 and 1899, 30,371 miles by construction of new lines by the operating companies; 17,492 miles by consolidation, and 23,676 miles by lease. On the 1st of Jan., 1899, therefore, the mileage owned by the operating companies was 95,947.56 miles, and the mileage leased 35,850.20, making a total of 131,797.76 miles. Perhaps in no better way is the tendency to centralization of management shown than by this statement, details of which follow.

first of the preceding comparative statements (p. xlix), comprising, in 1870, twenty-eight (28) lines of railroad, and, in 1880 and 1890, thirty (30) lines, the important systems named below in the last two years, the Chicago, Minneapolis and Omaha and the Northern Pacific Railroads not having been brought into operation in 1870, this accounting for the increase in the number of corporations. The list arranged by geographical divisions of the country is as follows :

*Lines East of Chicago:* Boston and Albany; Lake Shore and Michigan Southern; Michigan Central; New York Central; New York, Lake Erie and Western; Pennsylvania; Pittsburgh, Ft. Wayne and Chicago.

*Lines between Chicago and the Northwest:* Chicago and Northwestern; Chicago, Rock Island and Quincy; Chicago, Milwaukee and St. Paul; Chicago, Rock Island and Pacific; Chicago, St. Paul, Minneapolis and Omaha; St. Paul, Minneapolis and Manitoba.

*Western Lines:* Atchison, Topeka and Santa Fe; Chicago and Alton; Kansas and Texas; Missouri Pacific; St. Louis and San Francisco; Union Pacific; Iron Mountain and Southern.

*Southern Lines:* Chesapeake and Ohio; East Tennessee, Virginia and Georgia RR. and Banking Co.; Illinois Central; Louisville and Nashville; Norfolk and Western; Richmond and Danville; Nashville, Chattanooga and Georgia.

*Intercontinental Lines:* Northern Pacific; Southern Pacific System; Union Pacific.

It will be observed that between 1870 and 1880 the length of main lines increased from 13,863 miles to 28,949 miles, the increase of 15,086 miles decade representing extensions or absorptions equivalent to 109 per cent. Corresponding pace the length of lines operated by the several systems (which includes lines leased or controlled with lines owned) increased from 15,501 miles to 32,230 miles in 1880, or 108 per cent. In the meantime the average cost of stock and bonds outstanding increased from \$61,629 per mile in 1870 to \$76,515 per mile in 1880, the decade showing an increase in average bonded cost of \$14,886 per mile, whereas the average share capital decreased \$1,000 per mile. Earnings, however, failed to respond to the expansion of capitalization, for, in 1880, passenger earnings averaged only \$2,029 per mile against \$3,409 in 1870; freight earnings \$6,636 against \$7,211 in 1870, and gross earnings were but \$9,216 per mile against \$10,620 in 1870, or \$1,404 per mile less than the average (\$12,260 per mile) in 1870. As these decreases, however, is especially notable that in 1880 the expenses of operating and maintaining the lines absorbed a much less than normal share of the earnings, the percentage in 1880 being but 55.49 per cent., against 61.5 per cent. in 1870, the average net revenue per mile in 1880 equalling no less than \$4,101, which was \$216 per mile in excess of the average in 1870. It is needless to point out that this result was achieved not through any economies observed by the companies, but was attainable only be-

In this statement it appears that the 60 systems whose operations it covers  
covered, in 1899, 61 per cent. of all the railroads in operation in the country.  
In respects it shows that of the passengers carried in 1899 (537,977,301)  
the 60 systems carried 406,644,883, or 76 per cent. of the whole number, the  
distance travelled by passengers on the 60 systems being 11,740,224,313  
at an average charge of 1.964 cents per passenger per mile, against a  
general average for all the roads in the Union of 2.002 cents. Of freight ton-  
nage companies included in the table hauled 614,988,513 tons, being 62 per  
cent. of the total tonnage (975,789.941) of all the lines in the country. Their  
freight haulage equalled 98,908,695,454 tons one mile, being 78 per cent. of  
the total, while the average charge per ton per mile was 0.698 cent, or  
not less than the general average for the whole country.  
In 1890 the total of stock and bonds of 65 systems was \$5,209,431,474 ;  
the total investment increased to \$5,995,374,698, the number of systems  
that year, for the first time, 61, at which number it remained until  
when the total stock and bond investments had reached the enormous  
sum of \$6,454,864,171. It will be observed by reference to the table that  
the returns on capital invested in the companies' bonds show comparative  
stability—being 4.66 per cent. in 1890 ; 4.72 per cent. in 1891 ; 4.83 per cent.  
; 4.71 per cent. in 1893 ; 4.70 per cent. in 1894 ; 4.52 per cent. in 1895 ;  
4.68 per cent. in 1896 ; 4.68 per cent. in 1897, 4.49 per cent. in 1898, and 4.54  
per cent. in 1899—the returns on money invested in stock show a fluctuating  
downward tendency from 2.39 per cent. in 1893 to 1.62 per cent. in 1896, ad-  
justed to 1.86 per cent. in 1898, and, because of exceptional prosperity, to  
2.27 per cent. in 1899.

The continued decline in average rate of return upon railroad shares, when viewed in connection with the comparative steadiness of the return upon railway bonds, naturally suggests an inquiry as to the causes that have produced this result.

In 1855 the total capitalization and debt of 17,663 miles of railroad then in operation was \$763,678,392, as shown on page xxxiii.

Upon that extent of mileage there was earned gross \$84,250,190, or 11 per cent., and net, \$41,448,218, or 5.5 per cent., the ratio of operating expenses to earnings being only slightly over 50 per cent.

The capitalization at this date averaged \$41,000 per mile throughout the whole country. In New England the average was \$40,296; in the Middle States, \$53,754; in the South, \$26,094, and in the West, \$40,702 per mile.

It will be observed that at this period the share capital of the several companies exceeded their bonded debts by \$125,500,000, or about 42 per cent. This was the case in New England, in the Middle States, and in the South, but in the West the bonded debts exceeded the share capital by nearly \$18,000,000, standing \$88,703,365 share capital to \$106,995,317 bonded debt.

The roads first built in this country were constructed chiefly with the proceeds of stock issues; such bonds as were outstanding in 1855 in New

and Indianapolis R.R., whose bonds were offered in 1849 by the firm  
ow, Lanier & Co.

Between 1855 and 1865 the mileage of railroads in this country was  
although a panic (1857) and the war of the Rebellion intervened.  
Construction of this period was most active in the Western States, which  
increased from 4,567 miles in 1855 to 12,847 miles in 1865.

On the close of the Civil War the money markets of the world were  
almost unreservedly to American enterprises. The railroads built  
at that time were constructed without regard to cost—in fact, absolute  
frugality prevailed. In almost every case the gross cost of the new roads  
was covered from the sale of its mortgage bonds, and the share capital prac-  
tically represented only the prospective profits of the promoters and con-  
sultants. During the war and immediately succeeding it the earnings of the  
roads had grown with great rapidity, so much so that, basing their  
calculations upon the past history, some of the most eminent men of the times  
predicted the most wonderful achievements in the succeeding decade.

It is apparent that the cause of the financial revulsion of 1873 was the  
ordinary and unwarranted expansion of the railway system of the West.  
As has been shown, the mileage west of the Mississippi and east of the Rocky  
Mountains was nearly trebled between 1864 and 1873.

The increase of mileage in the country from 1871 to 1873 had been  
10,000 miles, and the increase of the cost of the roads, \$1,119,915,389, nomi-  
nally. One cause for the excessive mileage built within a few years was the  
ordinary effort to complete roads, in order to save from lapsing the vast  
amount of land made by Congress, on condition that the roads should be built  
within a certain time. But the increase was far beyond the possibility of  
adequate returns for the capital invested. That much land could be found

pay 7 per cent. on such debts, and the surplus left for dividends, rent, taxes, and other charges in 1873 :

One of the earliest disasters of this period was the failure of the firm of J. Cooke & Co., and the consequent collapse of the Northern Pacific Railroad enterprise. Thereafter default followed default, until finally it began to appear as though no railroad in the country was in sound financial condition.

In December, 1874, a compilation of railroad bonds then in default was made, and this table, though partial, inasmuch as it included only bonds publicly known to be in default, showed the enormous aggregate of \$529,224,800 of bonds upon which interest was then in arrears.

The Act of January 14, 1875, popularly known as the Resumption Act, went into effect on the first of January, 1879, in the respect that on that date its provisions for the redemption of greenbacks in coin became operative.

Although the probable effects of this Act, hampered as it was by the (Bland) Act of February 28, 1878, directing the coinage of silver legal-tender dollars to the amount of from \$2,000,000 to \$4,000,000 per month, were viewed with grave concern by experienced financiers, the general public accepted the Act of May 3, 1878, prohibiting the further retirement of greenbacks as a measure that effectually removed all elements of doubt in respect to the success of the experiment.

With the public in this frame of mind, eager for the stimulus of advancing prices and aided by such coincident occurrences as the gradual decline of the premium on gold until toward the end of 1878 it sold at par ; an enormous increase in the excess value of exports over imports ; and an abundance of money at low rates which enabled the Secretary of the Treasury to sell large amounts of 4 per cent. and 4½ per cent. bonds for resumption and refunding purposes, it is within the range of ordinary comprehension to understand the reasons that occasioned the great advance in the market prices of railway shares during 1878.

But apart from these unusual events, affairs were shaping in the railway world that would ordinarily have had a decided effect in causing an improved tone in the securities markets, the most important of which was the election of Mr. William H. Vanderbilt as President of the Michigan Central Railroad, this office securing to the interests that controlled the New York Central, the Lake Shore and Michigan Southern and the Canada Southern railroad lines, a comprehensive system of roads covering every line from Chicago eastward in the territory north of the lines of the Pennsylvania system. By this combination all of the Canadian trunk lines were deprived of Western connections.

*What is stated here with respect to the railroads in the Vanderbilt control is equally true of other leading properties in the West, East, and in the Coast.*

the general record in advances having been well maintained, the story presenting a marked contrast to that of 1877.

Immediate effect of the Resumption Act was to inspire unlimited confidence in investors and operators in railway securities, causing a prodigious advance in the market values of shares of almost all classes. A compilation of the prices of sixty active stocks at various periods shows that the average price per share, which was \$32.95 at the end of 1878, reached \$65 in January, 1879, the advance recorded being nearly 100 per cent.

Though the stimulus given to general business in 1879 resulted in an increase in the construction of new railroads of nearly 100 per cent. as compared with the preceding year, the revival was not reflected to any appreciable extent in the operations of the railroads of the country, the increase in gross earnings for 1879, over 1878, being less than 8 per cent.

The advance in the securities markets continued without serious interruption during 1880-81; the average of the 60 selected stocks that rose to \$65 in January, 1879 reached \$92 in 1881.

The following statements show the increase in stocks and bonds by the railway companies in the country during the four periods covered by the years 1875 to 1879, 1880 to 1884, 1885 to 1889, and 1890 to 1895, respectively:

In the first period of five years covered by the preceding tables, there was an increase in share capital of \$404,649,807, and in bonded debt of \$250,255,280, making a total of \$654,905,087. In this period there were built 11,770 miles of road. Assuming that this new mileage cost \$30,000 cash per mile to build, the cost would have aggregated \$353,100,000, leaving over \$300,000,000 which, practically, at least, would represent the amount expended on the old lines in the way of double tracks, etc.

Applying the same basis of actual cost to the succeeding periods, it is found that in the five years ending with 1884 the increase in share capital was

\$1,366,969,393, and in bonded debt, \$1,349,626,600—total, \$2,716,595,993; this period there were added to the country's railway system 40,759 miles of line, costing, say, \$1,222,770,000; or, to be liberal, say, \$1,300,000,000. This would leave \$1,417,000,000 as representing the amount expended on the new lines during that period. In the next period of five years, 1885–89, the construction equalled 34,842 miles, costing not more than \$1,050,000,000, against an increased capitalization of \$1,891,732,631, while from 1890 to 1895, six years, the increase in stock (\$687,022,681) and bonds (\$812,576,631) equalled \$1,499,599,477; miles of railroad added, 198,893 miles; cost of construction at \$30,000 per mile, say, \$600,000,000; excess of capitalization, \$899,599,477. Summarizing the four periods, we find that there were built 107,264 miles of railroad, at an estimated cost of \$3,303,100,000, as follows:

Period.	Miles RR. Built.	Approximate Cost.
1875–79.....	11,770	\$353,100,000
1880–84.....	40,759	1,300,000,000
1885–89.....	34,842	1,050,000,000
1890–95.....	19,893	600,000,000
Total.....	107,264	\$3,303,100,000

The average length of old lines which would call for improvements during the period of 1875–79 would approximate 75,000 miles, and the approximate increase of capitalization thereon was, as shown above, \$300,000,000; or, \$4,000 per mile. In the next period the average mileage would be, say, 105,000 miles; the increase in capitalization, \$1,417,000,000; the average increase per mile, about \$13,500. During the five years, 1885–1889, the average mileage would be, say 145,000 miles; the increased capitalization, \$800,000,000; or, say, \$5,500 per mile. The last six years, 1890–95, covered an average mileage of 165,000 miles, upon which the capital expenditures appear to have been about \$900,000,000, or nearly \$5,500 per mile.

It is manifest from this that during the period from 1880 to 1884 there was an immense inflation in capitalization, which was wholly unwarranted by the improvements made on the existing lines of railroad. In the six years, 1880–1884, inclusive, there were listed on the New York Stock Exchange stocks and bonds of railroads aggregating \$3,361,017,293, as follows:

In 1879.....	\$698,074,074	In 1883.....	\$617,000,000
1880.....	600,270,885	1884.....	270,000,000
1881.....	763,880,151		
1882.....	411,029,325	Total.....	\$3,361,017,293

This statement shows the vast magnitude of the operations of the country in railways in the period from 1880 to 1884. A portion of these listings were the stocks and bonds of reorganized companies, such as Erie, Wabash, and others, and were so far relistings under new names and forms.

That vast amounts of fictitious capital were floated during this period is well known and universally acknowledged. Its effect was to precipitate the panic of 1884, in reference to which POOR'S MANUAL for 1885 says:

“Of the 40,000 miles of line built in the five years ending with 1883, no small part was built on speculation, and for that very reason paralleled already existing lines. The striking examples of the kind, example so often adduced, are the West Shore and ‘North Platte’ lines. The general demoralization which has prevailed in railroad circles is due to the construction of these two, and to the ill-fortune which attended them, than to any other cause, or it may be said to all other causes. The effect has been to stop altogether the payment of dividends, which had been paid for a long time at high rates, by the

and Michigan Central, and to reduce those paid on the New York Central from two per cent. quarterly to one-half one per cent. quarterly. The stoppage or reduction of dividends on the great lines created profound apprehension and distrust as to the value of all railroad securities. The earnings of other great trunk lines suffered in like manner, if not to the same extent. A general disruption of the relations previously existing between the companies was the inevitable result. They seemed to be set wholly adrift without chart or compass. In the distrust and incoherency which prevailed, the various lines, especially the trunk lines, struck out on their own account, and bid wildly for business with very little regard to rates or to the result. Pools were dissolved almost as soon as they were entered as they always will be dissolved whenever there is not enough business to go round. Although West Shore and 'Nickel Plate' seemed to be the occasion of the great catastrophe of 1883 and 1884, the real causes had been long at work in the wonderful success of a few instances of 'watering.' The real catastrophe occurred when these waterings took place. Incited by their success, our whole people became wild upon the subject of railroad speculation, believing that two or three dollars could easily be made for every dollar put out either by the success of their ventures, or by the sale of their securities. In this mania the capitalist and adventurer alike shared. The promoters of West Shore, men of capital, put up their money in good earnest under the idea that they were embarking in a noble and meritorious enterprise. The promoters of 'Nickel Plate' built their line on speculation and for the purpose of selling it, securities being issued at the rate of two or three dollars for every dollar of cash paid. No small portion of the 40,000 miles constructed in the five years ending with 1888 was built upon the same plan and with the same object. Whatever their fate, a large number of them became competitors for a business for which no provision has already been made by existing lines. Railroads, unfortunately, seem to follow the rule of 'the survival of the fittest,' to 'the survival of the unfittest.' They can be used but for one purpose, and when they go into the hands of receivers, they are to be run at a loss as the operating expenses can be paid. If the earnings are not sufficient for this purpose they are to be eked out by 'Receiver's Certificates.'"

The extent of "water" in the share capital of the railroads is hard to determine. Of the total share capital at the end of 1899, \$5,602,181,181, more than \$1,300,000,000 is duplicated. The duplication arises in this way: the paid-up stock of the St. Louis, Iron Mountain and Southern R.R. Co. amounts to \$1,763,950, but this is owned by the Missouri Pacific R.R. Co., which in 1881 issued its own stock in the proportion of three shares for four in exchange for Iron Mountain stock, and carries the latter among its treasury assets. But as each company is still a separate corporation, the capital of each is included in the summaries each year, and there is, in consequence, a duplication to the extent of the increase in Missouri Pacific stock.

The elimination of this duplicated share capital would leave the "live" stock outstanding say \$4,300,000,000, of which about \$1,200,000,000 is preferred and \$3,100,000,000 common stock.

In almost a corresponding manner there have arisen duplications in the bonded debts of the railroad companies through the issuance of collateral trust bonds secured by a deposit of bonds of subsidiary roads as security for bonds of the parent organization. In such cases each issue of bonds appears in the balance sheets of the respective companies as liabilities, and are, in consequence, included in the general summaries of all the roads.

Estimating the aggregate amount of collateral trust bonds in existence, and other bonds in the companies' treasuries, at \$400,000,000, the net bonded debt of all the roads would be reduced to, say, \$5,180,000,000.

With these changes the capitalization of the railroads may be summarized as follows:

Capital Stock—Common.....	\$3,100,000,000	
" Preferred.....	1,200,000,000	\$4,300,000,000
Bonded Debt—Mortgage Bonds.....	4,480,000,000	
Incomes and other.....	750,000,000	5,180,000,000
Total stock and bonds, less duplications....		\$9,480,000,000

Of the common stock, vast sums have only a nominal value, such as the stock of the West Shore R.R. Co. How much of the remainder was issued without cash consideration it is impossible to ascertain, but it is within the bounds of safety to say that of the \$3,100,000,000 common stock now outstanding not more than \$1,250,000,000 is full-paid stock. This item of so-called "watered" stock is the rock upon which the railroad interest of this country has frequently struck. It is the primary cause of the hostile legislation for many years so prevalent in the West.

In 1876, the gross amount of share capital of our railroads was \$2,248,358,75, of which \$937,024,872, or 41.69 per cent., earned and paid dividends. The aggregate amount of dividends paid in that year was \$68,039,668, which was equal to 3.03 per cent. on all stock in existence, or to 7.26 per cent. on the stocks upon which such dividends were paid.

In 1882, \$1,673,790,859, or 48.11 per cent. of the total, paid dividends aggregating \$101,967,560, an average of 2.93 per cent. on the whole capital stock, or 6.10 per cent. on the stock upon which paid.

In 1886, the proportion of dividend-paying stock was 41.88 per cent., or \$1,675,669,744 out of \$4,001,364,498; the amount paid in dividends, \$81,654,38; the average rate on all stocks, 2.04 per cent.; and on dividend-paying stock, 4.87 per cent.

In 1890, 62.91 per cent. of the stock failed to pay any dividends, the dividends paid on the remaining 37.09 per cent. averaging only 1.83 per cent. on the whole amount of stock, and 4.94 per cent. on the stock earning those dividends.

In 1895, the percentage of non-productive stock was 65.2; of productive 0.02; and in that year the amount of dividends paid averaged 1.58 per cent. on the total amount of stock outstanding, but equalled 5.25 per cent. upon the amount of stock upon which the dividends were paid. The largest return was in the New England States, in which the average was 6.41 per cent. upon productive stock, or 4.87 per cent. on all stocks.

The statement on page lxii shows the total amount of dividends paid on railroad capital in the United States, during the years 1882 to 1898, and the average rate per cent. of such dividends to the total share capital, had there been a distribution of the aggregate profits among all the companies. But since the greater part of the railroad capital stock failed to receive any dividends during these years, the statement has been extended to show the average rate paid by those companies on whose stocks the dividends were earned and distributed. It will be observed that the percentage of productive or dividend-paying share capital shows a steady decline, from 48.11 per cent. of the aggregate in 1882 to 33.87 per cent. in 1897, and to 33.05 in 1898. Likewise it will be observed that of the entire bonded debts of all the companies, the amount upon which interest was paid ranged from 13.16 per cent. in 1882 to 8.01 per cent. in 1893, and to 9.78 per cent. in 1898.

The record for all years from 1882 to 1898 inclusive is shown in the subjoined table, which also shows the amounts of productive and non-productive stocks, the amount of interest paid, and the relation of interest paid to dates of classes.

1884, in which year the Country experienced its first serious panic. The Resumption of Specie Payments, no less than five distinct financial panics have marked the history of our financial affairs and railroad devel-

The far-reaching results of these panics—not only in the security of this Country and Europe, but among the general business interests of the Hemispheres—placed the industrial interests of the Country on each in a condition of absolute depression.

In January, 1884, the West Shore Railroad was opened for business, and hereafter a Receiver was appointed for the North River Construction. That was the first warning of the impending financial storm, the effect of which was greatly accelerated by the progress of the work on the Pennsylvania Railroad enterprise, a scheme whose projectors contemplated a successful issue in Pennsylvania, a work similar to what the West Shore had accomplished in New York—that is, to parallel the main line Pennsylvania Railroad. These and other enterprises, possessing more or less of the same characteristics, aided by the falling off in traffic, resulting from decreased earnings in 1883, precipitated a number of rate wars which added to the complicated situation. On May 14, 1894, the failure of Grant & Ward was announced, and immediately the great financial revulsion that has since passed over us as the “Panic of 1884,” burst upon the Country with all the violence of pent-up and irresistible energy. Then followed in quick succession a series of great financial disasters that was not checked until mid-summer of the year 1885, when the West Shore road having been sold under foreclosure (in August) by the New York Central and Hudson River Railroad Company—an announcement having also been made, in the same month, of the failure of the negotiations for the acquirement of the South Pennsylvania Railroad enterprise by persons associated with, or acting in the interests of, the Pennsylvania Railroad—a strong pool was made among the Trunk Lines for the maintenance of rates, which resulted in enormous increases in earnings in 1886 and 1897.

The following from POOR'S MANUAL OF RAILROADS for 1885, gives a summary of the railroad situation in 1884–85 :

The amount received per passenger per mile equalled 2.356 cents in 1884, against 2.422 cents in 1883. Had the passenger rates for 1883 been maintained for 1884, the earnings from passengers would have equalled \$212,617,233, a sum \$5,826,532 greater than that actually received. The number of tons of freight transported on our railroads in 1884 equalled 899,074, against 400,453,439 tons in 1883, the falling off equalling 10,878,690 tons, the rate of reduction being about 2½ per cent. The value of the tonnage moved in 1884, estimating its value at \$25 the ton, equalled \$9,751,868,725. The number of tons transported one mile in 1884 equalled 44,725,207,677, against 3,445 tons moved one mile in 1883, the increase of service performed for the year equalled 660,284,232 tons moved one mile, the rate of increase being about 1½ per cent. The rates per ton per mile for 1884 of freight transported equalled 1.124 cents, against 1.12 cents for 1883, the falling off equalling 1.12 mills per ton per mile. Had the rates for 1883 been maintained for 1884, the earnings from freight would have been \$553,694,042 against \$502,869,901, the amount actually received. Had the rates of 1883 for the transportation of passengers and freight been maintained for 1884, the gross earnings of all the railroads would have been \$827,525,371, exceeding by \$56,840,463 the amount actually received and greater by \$3,752,447 than the earnings for 1883. It will thus be seen that the reduction in the earnings for the past year was due wholly to the reduction in rates charged.

" Notwithstanding the great prostration of business which prevailed, the tonnage of merchandise distributed in 1884 fell very little short of that of 1883, while it exceeded the tonnage moved in 1882 by 29,583,374 tons. The service performed in 1884 in the transportation of freight was greater than that performed in 1882 by 5,422,998,428 tons moved per mile.

" The falling off of the earnings of the railroads of the country is something phenomenal, so far, at least, as their recent history is concerned. The total earnings of all the roads in operation in 1877 equalled \$472,909,272; in 1878, \$490,108,351; in 1879, \$525,000,000; in 1880, \$613,733,610; in 1881, \$701,680,982; in 1882, \$770,209,899; in 1883, \$823,700,000; the increase in the period of six years equalling \$350,863,652; the ratio of increase in the same period being nearly 75 per cent. In four years, ending December 31, 1883, the increase of earnings of all the roads equalled \$298,152,347, the average rate of increase over \$75,000,000 annually. This vast increase was due very largely to the enormous expenditure in the period of five years ending with 1883 in the construction of railroads, of which about 40,000 miles of line were constructed at a cash cost of at least \$1,200,000,000. The expenditure was well distributed throughout the country, and gave an extraordinary impulse to trade and production of every kind. In 1884, only about 4,000 miles of new line were constructed, the cost of which did not exceed \$20,000 per mile, and perhaps not more than \$15,000 per mile, or a gross sum of from \$60,000,000 to \$75,000,000. From such a decrease in an expenditure which in a single year, 1882, reached \$350,000,000 it was inevitable that a violent shock should be given to all the great interests of the country.

" In a country like our own a check has frequently all the effect of a great disaster. The tonnage moved in 1883 by the railroads exceeded that of 1882 by 40,000,000 tons. At the rate of the ton, the increase of value in one year of the tonnage moved equalled \$1,000,000,000. The great interests of the country had not only extended their operations in like ratio, but in a far greater ratio, under the expectation that 1884 would show an addition of 40,000,000 tons, having a value of \$1,000,000,000, to that moved the previous year. Instead of an increase in 1844 there was a falling off of 10,000,000 tons, having a value of over \$250,000,000. In consequence, almost every branch of production and trade was brought to what seemed a complete standstill. Such, really, was by no means the case. The volume of merchandise moved and distributed in 1884 very nearly equalled that of 1883, while consumption was very nearly at the rate of the previous year. As provision had been made for an increase in 1884 equal to that of 1883—the result was a complete glut of every kind of products, having any one of which could be sold at a price that left any satisfactory profit to the producer.

. . . . .

" The country is now at about its lowest depth so far as railroads are concerned. The evil done, the remedy has now to be applied. It is not the case for the sponge. Non-competing lines must await the steady and certain increase of the general business of the country; the competing ones must be taken up by the lines they parallel, and used as side tracks or made serviceable in some other manner as best they may. The process of recovery is already going on. We cannot long remain as we are. It is not consistent with the disposition or genius of our people to be always under the harrow. They have the gift of working their way out of the difficulties that surround them, no matter what these may be, and, from long experience, they are well trained in the very matter in hand. All that is wanting to a vigorous and widely extended movement in the right direction is some striking example of success—a satisfactory solution of some one of the most knotty problems that beset them. Such an example seems likely to be set them in the speedy adjustment of the West Shore imbroglio. It now seems probable that this line must fall into the hands of the New York Central, in which it will at least be impotent for mischief as a rival. With that disturbing element out of the way, the Central could well hope to resume its dividends, certainly not on the scale of the past, but upon a scale satisfactory to the shareholders who will feel a much keener delight in receiving dividends at the rate of five or six per cent. than they ever felt in receiving them at the rate of eight or ten per cent. The solution of the West Shore problem means peace between the Central and the Pennsylvania companies. When these two great companies are on amicable terms, real and substantial progress will have been made toward a restoration of rates that will give to capital not what it once received, but a fair and satisfactory return. A composition between the Central and West Shore will soon be followed by compositions similar in kind between other great lines and their rivals that are now competent only for mischief. The weak will be disarmed, the strong lines, left masters of the field, will gradually work out of their embarrassments and difficulties. If they cannot, in the rates of their dividends, repeat the past they will be able to pay as much as money is likely to yield in the general investments of the country. It is to be remembered that the rates of interest paid by the railroad companies on their bonds equal 6, 7 and 8 per cent., 7 per cent. being a very common rate. These bonds are now rapidly falling due. They will be replaced by bonds bearing interest at the rate of 4 or 5 per cent., the reduction in rates inuring wholly to the benefit of shareholders. The chief sufferers by the recent decline of earnings have been the great trans-

between Chicago and the seaboard, the decline with these being in part due to the large falling off in our exports of breadstuffs and provisions; the Union and Central Pacific, and lines traversing the mining States and Territories. The volume of tonnage of the Union Pacific has been well maintained, but its great apparent success for a time was due to monopoly of the business of its route which enabled it to charge nearly twice the average rates for the country. That monopoly is now well-nigh lost, and with it the rates once maintained. The managers of Central Pacific have destroyed the monopoly it once enjoyed on its through route, by constructing a rival line of their own in which their interests are now mainly concentrated. Mining, particularly of gold and silver, is at best a very uncertain business, and the railroads built to accommodate it are subject to similar extreme fluctuations.

"The general volume of business in 1884 very nearly equalled that of 1883. In extensive sections, mainly free from the influences which have affected the lines described, earnings in 1884 compare favorably with those for 1883. The earnings of the railroads of the New England Group in 1884 were \$58,558,913, against \$59,155,763 for 1883, the falling off being only \$596,850. The earnings of the ten States comprising the Southern Group were \$71,861,795 in 1884 against \$69,844,273 for 1883, the increase for the year being \$2,017,522. The earnings of the six great lines within the territory lying to the south and west of Lake Michigan were, in 1884, \$74,253,296, against \$75,564,744 in 1883, the decrease for the year being only \$1,211,448. The number of tons moved by these lines in 1884 was 82,575,518 against 81,663,979 in 1883. The rate per mile was 1.251 cents in 1884 against 1.308 cents in 1883. These lines were mainly free from the competition which so disastrously affected many Eastern ones, each of the former having a large local business of its own. With the exception of the class of roads referred to in the preceding paragraph, which embrace a comparatively limited number of lines, rates and business for 1883 were fairly maintained. With the recovery by the Trunk lines of their business—a slow but certain process—which is not to be relatively on the scale of the past, our whole system will again assume something of its wonted prosperity. It is not to be forgotten that a great change has taken place all over the world in the abundance of capital compared with that of former years. The rates of money, in this country at least, are to be very much less in the future than they have been in the past, so that a 5 per cent. investment will be looked upon as quite as desirable as what was an 8 per cent. a few years ago. We give in this connection, to illustrate the general progress of the country and of the business of railroads, a series of Tabular Statements showing the freight movements, and the earnings from that source, from 1870 to 1884, inclusive, of the great lines entering Chicago from the West and Southwest. During this whole period their mileage has been greatly increased, but the increase of mileage was very slight from 1883 to 1884.

"The cause of the recent falling off in the earnings of our railways was a reduction of rates equal to only a little over one mill per ton per mile. An increase of net earnings equal to only one mill per ton on the freight moved by the New York Central would have added \$1,970,037 to the net earnings of that line. An additional charge equal in the average to one mill per ton per mile on all the tonnage transported by the railroads of the country for 1884 would have added \$44,000,000 to their net earnings.

"It would seem natural, when the tide turned, that the expenditure of \$1,200,000, upon 40,000 miles of new line, in the period of five years, ending with 1883, would have been followed by an extraordinary monetary stringency similar to that which followed the great movement in the five years ending with 1873, during which fully 27,000 miles of new line were constructed. At the close of the five years, ending with 1873, the condition of the country was only a little short of bankruptcy, in which the banks and the great productive and commercial interests were alike involved. The earnings of our railroads which, in 1873, equalled \$526,419,935, fell off in 1874 to \$520,466,016; in 1875 to \$503,065,505; in 1876 to \$497,257,959, and in 1877 to \$472,909,272. It was not until 1878 that there was any indication of recovery, the railroad earnings for that year being \$490,103,351, an increase of \$17,194,079 from the previous one, the gross amount still being \$36,316,584 below those of 1873.

"It is not necessary here to enter upon the causes of the long period of depression which followed 1873. Its most striking feature was the lack of money—of capital for carrying on the ordinary operations of the country. The most striking feature which so far followed the period ending with 1883 has been the abundance of money—of capital. The railway movement ending with 1873 was a most exhaustive one. The labor of years on our people was then required to restore the waste and exhaustion that had been suffered. In the period which followed 1883, in the face of a recent expenditure of \$1,200,000,000 on new lines, capital has been far more abundant than at any previous period in our history, showing how much stronger is the ground upon which the country now stands than that which it stood in the period following 1873. For the period of five years, ending with 1883, the earnings of railroads were excessively stimulated by the extraordinary expenditure that had been made upon new lines. When this stimulus was withdrawn there followed a successive falling off of earnings, the falling off in 1884 equalling \$52,988,016, or

rate of 6.5 per cent. From 1873 to 1874, however, the earnings, which then had received such extraordinary impulse, fell off to the extent of only \$5,953,919, or at the rate 1.1 per cent. The decline in earnings from 1874 to 1875 was \$17,400,511, or nearly three fold greater than for the previous year, showing a much greater degree of depression in 1875 than for 1874. The earnings of the railroads for 1885 will not be much below those of 1884. There is every reason to believe that in 1885 railway earnings will reach their lowest ebb, and that in 1886 they will show a decided increase over those for the current year, or even over those for 1884. The periods preceding and following 1873 and 1874 have many similar features, but they are wholly unlike in this, that in the period which preceded 1873 the capital of the country was thoroughly exhausted in the construction of 27,000 miles, and that the losses sustained had to be restored in the period that followed, which was one of great commercial and industrial depression and distress; while in the period which preceded 1883, capital steadily increased in abundance in face of the enormous expenditures that had been made, so that the period when it closed, instead of ending as did that closing in 1873 in a great crisis in which all interests were alike disastrously involved, closed with a capital greater in abundance than when it was entered upon. The evil, they can be called such, under which the country now apparently labors, is a plethora, not an absence, of capital. The problem now before the people is not a restoration of the wealth of the past, but some disposition of its vast accumulations.

“A striking feature in the results of the operation of the railroads of the country the past two years is the increase, shown in the following tables, of the tonnage traffic and earnings of the three great trunk lines—the New York Central, including the West Shore and the Erie, including the New York, Pennsylvania and Ohio, and the Pennsylvania, Pennsylvania Division.

mileage of the above lines in 1886 equalled 8.6 per cent. of the total mileage of the United States the past year; their tonnage equalled 11.9 per cent. of the increase of their tonnage equalled 17.6 per cent. of the increase for all the roads. The increase of their earnings equalled 23.6 per cent. of the whole increase that year. In 1887 their mileage equalled 8.8 per cent. of the total mileage of the United States, and their tonnage equalled 11.8 per cent. of the whole. The increase of their tonnage equalled 10.7 per cent. of the increase for all the roads. The increase of their earnings equalled 9.7 per cent. of the whole increase."

RECEIVERSHIPS AND FORECLOSURE SALES.

In a view to ascertaining the effect of the foreclosures of railroads resulting from these panics, an investigation has been made into the mileage, tonnage, fixed charges, etc., of the railroads foreclosed between 1884 and 1899, and comparative tables of these statistics, before and after reorganization, are appended.

In reference to Table 1 (page lxxii) it will be seen that in the 16 years from 1884 to 1899, inclusive, there were placed in the hands of receivers the assets of a number of 521 railroad corporations, representing railways (owned) amounting to 78,582 miles, and a capitalization of \$5,353,869,099, consisting of \$2,157 share capital and \$2,891,876,942 funded debts.

It will be observed that in this period the most disastrous year in respect to railroad insolvencies was 1893, the year generally known as the Cleveland-Messager-Panic Year. In that year no less than 119 companies, representing 27,883 miles of road, \$835,768,845 share capital, and \$1,160,426,166 funded debt, were forced under the protection of the Courts, and the movement of the movement of investors' interests continued during the next two years, 1894 and 1895, far above the average; but since the receiverships of 1892 were so numerous that of any year from 1886 to 1891, it would appear as though the year 1890—usually referred to as the Baring panic, from the fact that the failure of that firm's commencement is generally placed at the day of that firm's failure—was the primary cause of the disturbance, which received accentuation on the occasion of the President's Message to Congress relating to the boundary dispute between Venezuela and Great Britain.

be observed by examination of the "General Summary" (page lxxiv) is investigation it was only possible to secure *complete* returns from nies, whose properties had been sold under foreclosure and reorganized period from 1884 to 1899 ; and 25 companies that were reorganized iving gone through receiverships. Examination of the comparative en in this General Summary, shows as follows :

pect to length of lines owned, there was an increase of 1,658 miles, as increase in share capital of \$454,407,316, while in bonded debts there y marked reduction of \$277,259,978, so that on the basis of mileage owned, the reorganized companies are capitalized for \$38,006 per ck, against \$31,711 before reorganization, and \$34,227 per mile of nst \$39,599 under the old organizations.

right particular feature of this comparison is the reduction in bonded ss, not only in the aggregate but in the average per mile, for that is idence that can be produced of the successful efforts made during the nization Era to bring the fixed charges of the companies within the wers of the roads affected, and thereby assure them against renewed ribulations.

subject of fixed charges and the extent to which their readjustment, ie reorganizations of the past 16 years, may have affected the financial nd prospects of our railroads has received attention, but the difficulties ere so great that it was found impossible to obtain complete data for 59 companies, full details of whose reorganization plans will be found 1 to 5, printed on pp. lxxxix to xcvi following. Deductions from s here follow :

RELATION OF FIXED CHARGES TO CAPITALIZATION.\*

nvestigation into the relative capitalization and fixed charges of fifty- the leading companies included in the list of railroads sold under re (Tables 1 to 5, pp. lxxxix to xcvi) shows that the several plans of ation called for an aggregate of new securities of \$2,897,316,670, as

*Atchison, Topeka and Santa Fe RR.*—The amount \$71,728,311 appearing under income bonds in above table represents "adjustment mtge. bonds," interest on which is payable only if earned, and is non-cumulative up to July 1, 1900, when it becomes cumulative at the rate of 4 p. c. per annum. Throughout these tables the amount appearing under income bonds are adjustment mtge. bonds herein described. Annual interest charge (\$6,619,623) is the possible maximum annual fixed charge. The amount levied by assessment (\$13,567,644) was disposed of in payment of receivers' and secured debt, floating debt, capital expenditure, etc.

*Allegheny Valley RR.*—The cash received from assessment (\$1,108,998) was expended: \$190,000 paid to the Commonwealth loan since date of agreement; \$74,736 expenditures of purchasing committee; balance in treasury, \$884,264.

*Central Iowa Ry.*—The plan of May 12, 1887, was declared operative after slight modifications. "Assessment called for" under "Bonds" (\$15,725) represents 24 p. c. assessment on \$629,000 coupon debt certificate. The amount raised by assessment was expended in paying off secured floating pay-rolls, and other immediate requirements.

*Central RR. and Banking Co. of Ga.*—The plan of reorganization includes the five following companies: Central RR. and Banking Co. of Ga. (\$12 m.); Macon and Northern RR. Co. (106 m.); Mobile and Girard RR. Co. (122 m.); Montgomery and Eufaula RR. Co. (80 m.); Savannah and Atlantic RR. Co. (18 m.), and the Savannah and Western RR. Co. (482 m.). For purposes of comparison, the totals of the mileage and securities of the constituent companies are treated as of one company throughout these tables.

*Central Vermont RR.*—The total amount of 4 p. c. bonds authorized and issued under the agreement of Sept. 29, 1898, is \$12,000,000, of which \$1,000,000 are left in the hands of the trustees to be used only under certain restrictions, and for the improvement of the property; of the remaining \$11,000,000, \$7,000,000 were used to retire an

ed to pay the assessment.

*York, Chicago and St. Louis Ry.*—Preferred stock in above table consists of \$5,000,000 1st preferred  
000 2d preferred—total, \$16,000,000. Under the plan, stockholders of the old company were assessed  
eiving therefore, dollar for dollar, in new first preferred stock, and in exchange for their holdings,  
ew 2d preferred for old preferred and 50 p. c. in new common stock for old common.

*York, Lake Erie and Western RR.*—Preferred stock in above table consists of \$30,000,000 1st preferred  
000 2d preferred—total, \$46,000,000. In calculating the "Annual Interest Charge" in above table, the  
ate per cent. of interest is calculated on the total issue of \$175,000,000. The amounts of new securities  
under the plan of reorganization were as follows: (a) \$35,000,000 prior lien 4 p. c. bonds; (b) \$140,000,000  
bonds, of which \$29,433,000 bear 3 p. c. per annum for two years from July 1, 1898, and 4 p. c. per  
reafter, and the remainder (\$110,567,000) bear 4 p. c. interest; (c) \$30,000,000 1st preferred stock; (d)  
ed preferred stock, and (e) \$100,000,000 common stock. Subsequently, on March 11, 1898, the stock-  
thorized the issue of \$13,000,000 additional 1st preferred stock and \$13,000,000 additional common stock  
the means for the acquisition of the stock of the New York, Susquehanna and Western RR. Co. Of this  
stock, \$12,860,100 1st preferred and \$12,240,700 common stock had been issued to Jan. 1, 1900. Inas-  
ese additional issues of stock were not authorized under the plan of reorganization, they do not figure  
e or succeeding tables.

*York, West Shore and Buffalo Ry.*—Authorized issues under plan of July 25, 1885: \$50,000,000 1st mtge.  
ds and \$10,000,000 capital stock. The old mortgage bonds of the N. Y., W. S. & B., were retired by ex-  
\$25,000,000 of the new bonds, at the rate of \$2,000 of the old for \$1,000 of the new bonds, and the pro-  
e remainder were applied to the expenses of reorganization, the retirement of receiver's certificates, and  
prior to the old 1st mtge., the settlement with the North River Construction Co., the purchase of roll-  
eviously covered by car trusts, and the acquirement of the terminal property at Weehawken. The  
surrendered to the lessee as a consideration for the lease and guarantee. The plan of reorganization  
ned the provision that the old capital stock should be provided for at the rate of \$3 per share.

*York and Western RR.*—The Lynchburg and Durham and the Roanoke and Southern Ry. Cos., were in-  
the reorganization of the Norfolk and Western RR. Co., consequently their securities and mileage are  
n all of these tables.

*ern Pacific RR.*—Prior to the reorganization the N. P. RR. was composed of the main line proper and  
of branch roads organized as separate companies. For some of these roads, the N. P. RR. Co. owned  
ek and bonds, while for others consolidated mortgage bonds had been issued to take up the branch  
latter being held as collateral of the consol. mtge. bonds. For other lines, the N. P. RR. Co. owned all  
the stock and some of the bonds, the remaining bonds being in the hands of the public. Previous to  
tion, the N. P. RR. Co. paid a fixed rental, whereas, for others, the rental was based on interest on the  
ag bonds. Throughout these tables, the plan of reorganization is dealt with which contemplated ac-  
l the branch roads and having them represented only by stock and bonds of the N. P. Ry. Co., the  
ad bonds and stock being deposited as mniments of title.

*ynchburg and Lake Champlain RR.*—The original plan of reorganization is dated Aug. 20, 1896, but was  
e Nov. 1, 1899. The securities shown in above table were those authorized and issued under the original

provided for the formation of two new companies, viz.: Spokane and Seattle Ry., and Seattle and I Ry. Cos., the former with an authorized capital stock of \$600,000, and 1st mtge. 4 p. c. bonds of \$1,112, latter with an authorized capital stock of \$2,400,000, and authority to issue \$4,450,000 1st mtge. 4 p. c. the above table, as in those following, the capitalization of these companies is treated as one company.

*Texas and Pacific Ry.*—Original plan of reorganization is dated April 27, 1896, but was modified ment dated Aug. 18, 1896.

*Toledo, Ann Arbor and North Michigan Ry.*—The old common stock was wiped out through The new common stock was sold, old stockholders having the option to purchase at \$10 per share.

*Union Pacific Ry.*—The plan of reorganization of Oct. 15, 1895, authorized the issue of the fol securities: \$100,000,000 1st mtge. 4 p. c. bonds, \$75,000,000 preferred, and \$61,000,000 common stock. 1899, the articles of incorporation were amended so as to authorize an increase of common stock by making total authorized issue of common stock, \$88,460,100, the increased stock to be issued in exchan amount of Oregon Short Line RR. Co.'s stock. On Oct. 9, 1899, the stockholders authorized a furt \$7,718,000 of common stock, and \$25,000,000 of preferred stock, making the total authorized amount stock, \$96,178,000, and of preferred stock, \$100,000,000. These increases were for the purposes of a exchange, the common and preferred stocks of the Oregon RR. and Navigation Co., and the income of the Oregon Short Line RR. Co. Inasmuch as these increases of both common and preferred stock authorized under the plan, they do not figure in the above table, nor in those following. The total securities outstanding and listed on the New York Stock Exchange, Jan. 1, 1900, were as follows: \$9 mtge. 4s, \$97,687,600 preferred stock, and \$93,938,200 common stock. To acquire by exchange, the 5 "A" income bonds of the Oregon Short Line RR. Co., there were issued \$6,500,000 of the 1st mtge. 4s

*Vicksburg and Meridian RR.*—The capital stock, \$5,902,713, and the 3d mtge. income bonds, \$1 the old company were entirely wiped out under the reorganization. The 2d mtge. bondholders of t RR. Co. purchased the property, issuing \$700,000 in capital stock and \$700,000 in 2d mtge. bonds, to n holdings of \$1,100,000 V. & M. 2d mtge. bonds and \$300,000 unpaid interest. The 2d mtge. bonds w bonds for the first five years, but the interest was met out of the earnings, so that they are shown in as interest-bearing bonds. The purchasers also authorized \$1,800,000 in 1st consol. 5 p. c. bonds; of t 000 were intended to replace the \$1,000,000 V. & M. 1st mtge. 6s; \$309,300 were issued to take up mtge. interest coupons outstanding, and \$490,700 were reserved for improvement. Of the amount \$279,500 had been issued to Jan. 1, 1900. The \$1,000,000 provided to replace the V. & M. 1st mtge. bo issued within the time provided, and the V. & M. 1st mtge. bonds stand undisturbed under the plan zation. For this reason, interest on the \$1,000,000 is calculated at 6 p. c. instead of 5 p. c., as contemp the plan of reorganization. 2d mtge. bonds have been reduced from \$700,000 to \$638,300 by purchas proceeds of sales of granted lands as provided for in the mortgage.

*Western New York and Pennsylvania RR.*—The plan of reorganization of Dec. 1, 1893, provided f of \$10,000,000 gen. mtge. bonds, \$10,000,000 income bonds, and \$20,000,000 common stock. The \$8,967,0 & P. RR., 1st 5s of 1887, and the \$773,000 Warren and Franklin RR. 1st 7s were left undisturbed. In t ization, \$250,000 additional W. N. Y. & P. RR. 1st mtge. 5s were issued in payment of equipment bonds, total capitalization at the completion of the reorganization on March 18, 1895: W. N. Y. & P. RR., 1 \$9,217,000; Warren and Franklin RR. 1st mtge. 7s, \$773,000; W. N. Y. & P. Ry. (gen. mtge., \$10,000, mtge., \$10,000,000), \$20,000,000 and capital stock (shares, \$50), \$20,000,000. The new gen. mtge. interest at the rate of 2 p. c. per annum for the first four years, from April 1, 1893; 3 p. c. per annum t four years, and 4 p. c. per annum thereafter. Interest on the income mortgage gold bonds is non-cum not to exceed 5 p. c. in any one year. In the foregoing table, interest on the gen. mtge. bonds is comp maximum rate of 4 p. c. per annum.

\$75,000 Ohio Land and Ry. Co. of 1914, \$82,500, and on \$300,000 Wellston and Jackson Belt 6s of 1915, total, \$100,500.

*and Rio Grande Ry.*—There were also outstanding, on Jan. 1, 1900, \$8,120,000 5 p. c. Improvement bonds due June 1, 1928. This issue was not authorized under the plan of reorganization of March 24, 1898, voting of the stockholders held May 23, 1888, by a vote of over 90 p. c. of both classes of stock. Not provided for in the plan, they do not figure in any of the above tables. Fixed charges on Jan. 1, 1900, \$6,000, being rental, equal to interest on \$100,000 1st mtge. 6 p. c. bonds of the Rio Grande Gun-

*Ry. and Navigation Co.*—See reference to this company under Table 1.

*apolis and St. Louis Ry.*—The total interest-bearing debt on Jan. 1, 1900 (including \$7,600,000 refunding bonds, \$583,000, and annual interest charge, \$818,900. The 1st preferred stock had been all retired on the 1st and the original 2d preferred (\$4,000,000) is now the preferred stock.

*York and New England RR.*—The new (reorganized) company's property is now leased to the New Haven and Hartford RR. Co. for 99 years from July 1, 1898, the lessee guaranteeing dividends of 3 p. c. on the preferred stock. Previous to reorganization the old company leased several lines at stated rentals. Rental charges are not included in calculating fixed charges previous to reorganization; inasmuch as the company is not now responsible for any of these rentals.

*and Western RR.*—Annual fixed charges previous to reorganization include \$132,050 guaranteed interest on bonds of the Columbus Connecting and Terminal RR., and the Roanoke and Southern Ry. Cos.

*an Pacific RR.*—See reference to this company under Table 1.

*urgh and Western RR.*—Of the \$10,000,000 1st mtge. 4s issued up to Jan. 1, 1900, \$9,700,000 were outstanding, the remaining \$300,000 being reserved to retire prior liens.

These amounts are not included in the "Miscellaneous Income" of the Great Northern Railway by the preceding table, but are included in amount received for dividends and stocks owned in the Account.

Duluth Terminal Ry. Co.—This company is the owner of the railways used by the Eastern Ry. to secure entrance into Duluth, and of extensive yards in Duluth. Its stock and bonds are all owned by the Eastern Ry. Under the franchise of the Duluth Terminal Ry. its earnings derived from trackage are to 6 p. c. on its stock and bonds; the interest and dividend paid, amounting to \$13,500, are set in the "Miscellaneous Income" of the Eastern Ry. as above shown.

Northern Steamship Co.—From the surplus earnings above shown, there has been repaid to Northern Railway Company the balance of the amount advanced on account of the deficits in previous years, and out of the remainder has been paid a dividend of \$150,000. This dividend is not shown in the "Miscellaneous Income" given in above table, but is included in Income Account of the Great Northern Railway as amount received for dividends on stock owned.

Great Northern Express Co.—The amount under "Operating Expenses" includes the amounts paid to express way companies for transportation.

Sand Coulee Coal Co.—Included in the amount shown under "Operating Expenses" is an additional cost of mining and marketing coal, is a charge of ten cents per ton to provide a sinking fund against the ultimate exhaustion of the property. A portion of the rental received from buildings is likewise included for their replacement. These sinking funds now amount to \$315,470.82.

Total surplus as above, \$4,512,805.88; add surplus of Minneapolis Western \$35,668.28; and of Minneapolis Union Ry. Co., \$304,505.56—total, as per general sheet, \$4,852,979.72.

It will be observed that the mileage operated in the "total" column is less than the sum of the mileage of the several railroads. This is due to the elimination from the total of Great Northern Ry. mileage operated under trackage rights by the Eastern Ry. of Minn. and by the Montana Central Co.

History.—Reorganization in 1888 of the Central Iowa Ry. Co. (See MANUAL for 1890  
512.) The line from Manly Junction to Northwood, Ia., 11.88 miles, owned by this  
pany, was leased to the Burlington, Cedar Rapids and Northern Ry. Co. until May 1  
; since then it has been operated jointly by the two companies, but the Burlington  
ar Rapids and Northern receives all of the earnings, less this company's expense o  
rating trains.

Since the close of the fiscal year an extension of the Belmond Branch, from Belmond to  
ona, Ia., a distance of 37 miles, has been completed under the charter of the Iowa Cen  
and Western Ry. Co., organized in Iowa in the interest of this company for the purpos  
building this and probably other branches. The branch from Albia to Hocking, Ia., 3.5  
es, was built during the fiscal year ending June 30, 1899.

**History**.—Reorganization, Oct. 11, 1894, of the Minneapolis and St. Louis Ry. Co. (See L for 1894, page 921.) On Feb. 20, 1889, this company purchased from the Wisconsin, Iowa and Pacific RR. Co. the line of road extending from Morton, Minn., to Watertown, a distance of 122.53 miles, and on March 1, 1899, purchased the Minneapolis, New and Southwestern RR., extending from Winthrop to New Ulm, Minn., a distance of 20.22 miles. To provide the means for the purchase of these roads, as also for the extension of the latter from New Ulm to a connection with the Illinois Central RR. at Storm Lake, Ia., a distance of about 139 miles, this company sold \$5,800,000 of the 1st and refunding bonds of the Wisconsin, Minnesota and Pacific RR. Co., the line extending from Winthrop, Minn., to Mankato, 94.07 miles, but on the date named it was surrendered to the

The statement of mileage does not include 13.09 miles, from East Minneapolis Bear Lake, Minn., owned by this company, but leased to the St. Paul and Duluth and 13 miles, from Albert Lea, Minn., to Iowa State Line, leased to the Burlington Rapids and Northern Ry. Co. The line from East Minneapolis to White Bear Lake old Minneapolis and Duluth RR. (See GENERAL INDEX.) The St. Paul and Duluth Co. pays for the use thereof a rental of 35 p. c. of the gross earnings of the line, less for taxes. The line from Albert Lea to State Line is leased for 999 years to the Burlington Cedar Rapids and Northern, that company guaranteeing \$150,000 of 7 p. c. bonds, 1, 1917. When the bonds are paid off that line will become the property of the lessee.

The company owns a one-ninth interest in the Minnesota Transfer Ry. Co. property, consisting of stockyards, depots, etc., is situated between St. Paul and Duluth. Under a contract made with the St. Paul and Duluth RR. Co. that company operates the company's freight terminals, and under one with the Northern Pacific Ry. Co., this company gets an entrance into St. Paul.

Minneapolis and Duluth bonds (a) were originally guaranteed by the M. & St. L. Ry. Co. and by date of May, 1881, became an obligation of that company. The \$455,000 7 p. c. bonds of Jan. 1, 1877, were issued at the rate of \$20,500 per mile. The total issue of 7 p. c. bonds of Feb. 1, 1877 (c), is of which \$150,000 are assumed by Burlington, Cedar Rapids and Northern RR. The Iowa Extension bonds (d) are issued at \$10,000 per mile. The Southwestern Extension bonds (e) are \$12,000 per mile. Extension bonds (f) are \$15,000 per mile.

Authorized issue of 1st consols of 1934 is \$10,000,000. They are secured upon the entire property of the company on June 30, 1898 (see Manual for 1899, page 640), but subject to the liens of the \$4,000,000 of underlying bonds. Under a provision in the first and refunding mortgage, the consol. mtge. bonds of the retirement of the divisional bonds have been cancelled. The lines of railway covered by the mortgage are as follows: Minneapolis, Minn., to Albert Lea, 108 m.; Albert Lea, Minn., to Fort Dodge, Ia., 100 m.; Fort Dodge, Ia., to Angus, Ia., 51.2 m.; Hopkins, Minn., to Winthrop, Minn., 62 m.; White Bear to Minneapolis, 15 m.; a total of 337.6 miles. They are additionally secured on stock (\$8,000) (\$95,000) of the Minnesota Transfer Ry. Co. and one-half interest in the Lake Park Hotel, Hennepin Co., Minn.

The bonds are for \$1,000 each, in coupon form, with provision for registration of principal. Interest is payable at the office of the trustee, Central Trust Co., New York. Principal and interest payable "without deduction of any tax or taxes which the railroad company may be required to pay or retain therefrom under, and in accordance with any present or future law." (See Manual for 1895; also Manual for 1894, page 923, for description of liens.)

First and Refunding Mortgage.—Secured by first mortgage on the lines from Morton to Watertown Junction, 122.537 miles, and from Winthrop to New Ulm, Minn., 20.22 miles, and on the extension from New Ulm to a connection with the Illinois Central RR. at Storm Lake, Ia. Also secured on the rest of the property, but subject to the liens of prior mortgages. The authorized issue of the bonds is \$25,000,000, unissued bonds being reserved as to \$10,000,000 of them for the retirement of the prior liens, and the remaining \$7,200,000 for future acquisitions. This last amount is to be issued under proper restrictions in the mortgage. Under a provision of the mortgage the consol. mtge. bonds which were issued for the retirement of the underlying divisional bonds have been cancelled and an equal amount of bonds secured by this mortgage substituted for them. The bonds are for \$1,000 each, in coupon form, with provision for registration as to principal alone or of both principal and interest. Principal and interest payable at the office of all taxes, at the office of the trustee under the mortgage, the Central Trust Co., New York.

## PREFACE.

The financial history of the United States naturally divides itself into three periods:—The first, the Period of Construction, the work of the Fathers; the second the Period of the attempt at Destruction of this work; the third, of its Restoration. The first period, of 40 years, extends from the formation of the Government in 1789 to the close of the administration of John Q. Adams in 1829; the second period, of 36 years, extends from the beginning of General Jackson's administration in 1829 to the restoration of peace in 1865; the third period of 22 years, extends to the end of 1887; for although the election of Mr. Cleveland nominally put an end to the period of Restoration, he so far has been unable to undo its distinctive feature—a return to the Protection policy of the Fathers. The object of this work is to display the Period of Restoration; hence its title,—“Twenty-Two Years of Protection.” To a proper understanding of this period, a competent knowledge of the events of the two preceding periods, as well as of the Colonial Period, is a necessary condition.

**CAPITAL STOCK** authorized is \$12,000,000, consisting of \$6,000,000 common stock and \$6,000,000 preferred in shares of \$100 each. The preferred stock is entitled to dividends, payable semi-annually, on the first of March and Sept., equal to the net income of the company from all sources, but such dividends are not to exceed 7 p. c. per annum. These are a first charge on the net profits of the road, and it is provided that in the event of a deficiency of such net profits to pay the stipulated 7 p. c., the net income from stumpage and land sales shall be applied to the dividend fund. Provision is also made that when not so applied the net income from stumpage and land sales each year, when equal to at least \$10,000, shall be used in the purchase of preferred stock, if said stock is below par in the market, and to be drawn as in the operation of the sinking fund above par. In addition to this provision for its gradual reduction, preferred stock is receivable for lands sold. Common stock is entitled to dividends from the earnings of the railroad, limited to 6 p. c. in any one year after the payment of preferred stock dividends, any surplus then remaining to be applied to purchase of preferred stock. The power of casting one vote at all meetings of the company is vested in each share of preferred stock and in every three shares of common stock. In Sept., 1899, preferred stock to the amount of \$19,000 was retired from land and stumpage income, leaving outstanding on Dec. 31, 1899, \$3,884,954.

**RAILROAD OWNED OR OPERATED BY THE ST. PAUL AND DULUTH RR. CO.**

**Minneapolis and Duluth RR.**—M. & D. R. R. to Sec. 13, East Minneapolis, 12.30 miles. The construction of this road was originally authorized by the charter granted to the Minnesota Western R. R. Co., dated March 3, 1857. By act of Feb. 4, 1870, the company was empowered to divide into separate companies and to adopt different names. The road was commenced in April and the road was completed Aug. 15, 1871. On its completion it was leased to the Lake Superior and Mississippi R. R. Co., but on default of that company it reverted to the control of its stockholders, who subsequently leased it to the Minneapolis and St. Louis Co. In May, 1880, it was merged into the latter corporation, and shortly thereafter the St. Paul and Duluth acquired control of it under the term of a lease by which the road is a percentage of gross earnings on local business.

History.—Chartered July 1, 1897, under the laws of Utah, as successor to the Union Pacific Ry. Co. (See MANUAL for 1898, page 844.) The Kearney and Black Hills and Republican Valley, and Union Pacific, Lincoln and Colorado Rys. were absorbed Nov. 1, 1898 ; the Junction City and Fort Kearney Ry., on June 1, 1899, and the Julesburg Branch of the Union Pacific, Denver and Gulf Ry., on Feb. 25, 1899. (See MANUAL for 1899, page 658.)

The company owns about 99 p. c. of the capital stock of the Oregon Short Line and owns or controls more than 99 p. c. of the capital stock of the Oregon RR. & Navigation Co. (See page 591 ; also, separate statements for the companies named.)

Under a trackage contract, effective Oct. 15, 1899, the company uses the tracks of the Chicago, St. Paul, Minneapolis and Omaha Ry., from Norfolk, Neb., to Sioux City, Ia., a distance of 75.53 miles.

Statement showing the relationship of the four railroad companies mentioned in the foregoing table to the Union Pacific RR. Co. on June 30, 1899 :

mon.....	56.83	

Merged into Union Pacific RR. Co. on Dec. 31, 1899.

In addition to interests in the lines above referred to, this company has acquired and owns interests in certain companies and properties, as follows :

1. All of the stock and securities of the Leavenworth, Kansas and Western Ry. Co. (See General Index.)
2. All of the stock and bonds of the Green River Waterworks Co. The property of the company consists of waterworks which supply water for the use of the railroad and coal properties, and to the towns of Green River and Rock Springs, Wyo.
3. A majority of the stock and bonds of the Rattlesnake Creek Water Co. The property of the company consists of waterworks which supply water for the use of the railroad and coal properties, and to the towns of Carbon and Hanna, Wyo.
4. All of the stock and bonds of the Union Pacific Coal Co. The property of the company consists of extensive coal mines and coal properties in Colorado, Wyo., and Utah, and its business is profitable.
5. A majority of the stock of the Bozeman Coal Co. The property of the company consists of coal mines in Gallatin County, Mont., which are under lease.
6. Two-fifths of the stock of the Pacific Express Co. The company operates an express business upon the lines of this company and of other extensive railway systems in the West, and its business is prosperous.
7. One-half of the stock of the Occidental and Oriental Steamship Co., the other half being held in the interest of the Southern Pacific Co. The steamship company operates a line of chartered steamships from San Francisco to the Pacific Islands and the Orient. It produces a considerable direct revenue, and its contributed business is a great benefit to the railway lines of this company.
8. In addition to its own terminals this company has acquired interests in Union Depot companies at Denver, Denver, and Kansas City, through which it is entitled to the use, for its purposes, of the terminal facilities afforded by such companies.

Co., \$300,000 capital stock of the Columbia and Palouse RR., and the ships and rolling stock of the company. Of the consols, \$5,390,000 were reserved for the retirement of these bonds (on the basis of not exceeding \$1,100 4 p. c. bonds for every \$1,000 of 1st mortgage bonds). The bonds are retired through the operation of a sinking fund of 1 p. c. per annum on the amount of \$6,000,000, and the company is authorized by the plan of reorganization to cover the amount for the sinking fund by disposal of the consols reserved as hereafter explained. Since June 30, 1899, \$511,000 of the bonds have been retired, leaving \$511,000 outstanding. Interest payable at the office of the Security and Trust Co., New York, N. Y. Trustee: Farmers' Loan and Trust Co., New York, N. Y.

**Consolidated Mortgage Bonds.**—Secured on the entire present and future property of the company subject only to the lien of the outstanding 1st mtge. bonds. Authorized amount, \$24,500,000, of which \$2,830,000 was provided to be used under the plan of reorganization, as shown in the Manual for 1898, the remaining \$21,670,000 to be issued for new construction at the rate of not over \$20,000 per mile of constructed road. The bonds are to bearer, but may be registered as to principal. No sinking fund. Interest payable in New York, N. Y., and Berlin, Germany—at the latter place at the fixed rate of twenty pfennig per dollar. The bonds are further secured by deposit with the trustee of the following stocks: Columbia and Palouse RR. Co. 1st mtge. bonds, \$2,829,000; Columbia and Palouse RR. Co. stock, \$1,000,000; Walla Walla and Columbia River RR. Co. stock, \$600,000; Mill Creek Flume and Manufacturing Co., \$200,000—total, \$4,629,000. Since June 30, 1899, there have been issued \$324,000 additional of the bonds, making a total of \$19,891,800 outstanding. Trustee of bonds: New York Security and Trust Co., New York, N. Y.

Funded debt (total, \$19,200,000), consisted, June 30, 1899, of the following :

1st trust mtge. 4. p. c. 50-yr. \$1,000, etc., gold bonds, due July 1, 1939, interest Jan. and July...  
 1st consol. mtge. Series A 4 p. c. 50-yr. \$1,000 gold bonds, due April 1, 1949, int. April and Oct..

## FURTHER PARTICULARS RESPECTING THE FUNDED DEBT.

The 1st trust mtge. bonds are secured by mortgage to the Central Trust Co., New York, of 434 m. of road owned, including 11.30 m. of tramway, but not on the Sevier Ry. and Tinto Rties, both of which are held by the State Trust Co., as security for the 1st consol. mtge. bonds. In case of default in interest on bonds, the bondholders will have the power to appoint a majority of directors. The authorized amount of this issue is \$16,000,000, of which \$800,000 held in the State Trust Co. is called in lieu of a like amount of 1st consol. mtge. bonds issued under the terms of the 1st trust mtge. (see next paragraph). Interest payable at the office of the State Trust Co., New York, Y

authorized amount of 1st consol. mtge. bonds is \$20,000 per mile. They are a first lien on the Tintic and the Sevier Rys. aggregating 110 miles, and upon all lines hereafter constructed or acquired with proceeds of these bonds. They are also a lien subject to the 1st trust mortgage on the rest of the company's property, and upon \$383,000 new equipment already provided and all equipment that may be acquired with the proceeds of any of these bonds. Besides the 25 miles of new line referred to in the Manual on page 682, the cost of which was provided by \$500,000 of these bonds, it was subsequently decided to build the Provo Canon branch to Heber, and to build another branch to an important newly developed field of coal at Sunnyside, making 25 miles additional and giving a total of 50 miles of new line. Of these that from Provo to Heber was completed in September, 1899. A further issue of \$500,000 of these will be made on the completion of the remaining 25 miles, as provided by the mortgage. Up to the close of the fiscal year \$4,000,000 of these bonds had been issued for the following purposes: To acquire the 1st mtge. bonds (being the entire issue) and all other securities of the Tintic Range and Sevier Rys. aggregating 110 miles at \$20,000 per mile (formerly in the company's treasury reserve), \$2,200,000; to retire the amount of old 1st mtge. main line bonds held in the company's treasury as a capital reserve (see page 680,000; to provide additional equipment and to discharge car trusts and other indebtedness for equipment to pay for certain additions to the property, \$1,000,000—total, \$4,000,000. Additional bonds to the amount of \$500,000 are issuable on the 25 miles of road completed since June 30, 1899, as stated above, making a total of \$4,500,000, of which there have been sold \$1,500,000, leaving in the treasury reserve of consolidated bonds \$3,000,000. The bonds are in coupon form, but may be converted into registered certificates of \$1,000 each and multiples thereof. Interest payable at the office of the trustee, State Trust Co., New York, N. Y.

**FURTHER PARTICULARS RESPECTING OTHER GENERAL BALANCE SHEET ITEMS.**

Equipment trust notes, amounting to \$40,879.30, as shown in the balance sheet, have been cancelled at the close of the fiscal year from the proceeds of sale of consol. mtge. bonds. (See Manual for 1899, page 682.) "Other Securities Owned" consists of stock of the Utah Central RR. Co. (par, \$250,000) and stock of the Utah Eastern Ry. Co. (par, \$250,000), at cost to date, \$2,745.72; stock of the Duchesne Ry. Co. in the treasury (par, \$51,000) at cost to date, \$5,110.20; stock of the Western Express Co. in the treasury (par, \$1,000, nominal value, \$20,000—total, \$27,855.92. The securities of the Tintic Range and the Sevier Ry. Cos., aggregating \$3,376,666.47, as shown in the balance sheet, as also the stocks of the Utah Central RR. and Utah Eastern Ry. Cos., are deposited with the State Trust Co., trustee, as collateral for 1st consolidated mtge. bonds issued in accordance with the terms of the consolidated mortgage.

**SOUTHERN PACIFIC COMPANY.**

(For maps of this company's systems, see pages 614 and 615.)

**History.**—Chartered under the laws of the State of Kentucky. Company organized Jan. 14, 1884. Capital stock authorized, \$150,000,000.

**ORGANIZATION.**—The Southern Pacific Co. is a corporation created by special charter of the State of Kentucky, authorizing it, among other things, to contract for and acquire by purchase or otherwise, stocks, bonds, or securities of any company, corporation, or association, and to enter into contracts in respect to the construction, establishment, acquisition

owning, equipment, leasing, maintenance, or operation of any railroads, telegraph lines, or any public or private improvements, and to buy, hold, sell, and dispose of private and public stocks, bonds, and securities.

"The capital fixed by the charter was \$1,000,000, with power to increase from time to time, as might be determined by the board of directors, with the least two-thirds in interest of the stockholders. In 1884 the original amount was paid in cash, and the authorized capital was increased to \$100,000,000. Of \$87,076,200 of this new stock, the greater part of the capital stock was a proprietary lines included in the Omnibus lease. For the purpose of acquisition of additional lines, the authorized capital was fixed in 1888 at \$150,000,000.

"The practical operations of the company commenced March 1, 1885, on the Omnibus lease went into effect. On April 1 following, the lease of the Central Pacific went into operation. The leasehold terms are hereinafter stated."

The Southern Pacific Co. acquired control of the Southern Pacific RR. and its subsidiaries, 1,354.80 miles, on March 1, 1885; of the Atlantic System (excepting Texas and Mexican), 1,600.87 miles, on March 31, 1885; of the Central Pacific lines, 1,649.86 miles, on April 1, 1885; of the New York, Texas and Mexican Ry., 104 miles, on July 1, 1887; of the California RR., 474.80 miles, on July 1, 1887; of the Northern California Ry. on June 1, 1889; of the Oregonian RR., 57.50 miles, in Dec., 1890; of the Willamette Valley Ry. (now the Portland and Yamhill RR.), 28.50 miles, in Dec., 1890; of the Fort Worth and New Orleans Ry., 40.05 miles, in 1895. The steamship company were acquired through Morgan's Louisiana and Texas Co., and also by construction.

The Southern Pacific Co. acquired, by purchase, on the under-mentioned dates, the capital stock of each of the following properties: Houston, East and West Ry. Co. and Houston and Shreveport Ry. Co., Oct. 5, 1899; Galveston, Houston and New Orleans Ry. Co., Dec. 14, 1899; Carson and Colorado Ry. Co., March 1, 1900. For state of several companies, see GENERAL INDEX.

PROPRIETARY LINES.

The stocks of the following named companies were acquired by issuing stock of Southern Pacific Co. in exchange therefor at the rates mentioned :

Southern Pacific RR. Co. of California at.....	68 p. c.	Louisiana Western RR. Co. at.....	
Southern Pacific RR. Co. of Arizona at.....	60 "	Texas and New Orleans RR. Co. of 1874 at	
Southern Pacific RR. Co. of New Mexico at...	60 "	Galveston, Harrisburg & San Antonio Ry. Co.	
Morgan's La. & Tex. RR. & SS. Co. at about..	150 "		

The greater amount of the capital stock of the Southern Pacific Co. having been issued to acquire the stocks of proprietary lines (see MANUAL for 1898, page 751), the stock thus received stands practically in lieu of that received; and the stocks thus received represent practically all the capital stock of the several companies, the stock issued therefor by Southern Pacific Co. represents the actual ownership of the proprietary lines. To prevent against the circulation of this double capital, the stock of the proprietary lines owned by the Southern Pacific Co. has been deposited in trust with the Union Trust Co., and is "not negotiable" until the Southern Pacific stock issued therefor has been cancelled.

Since the proprietary companies comprise in effect the Southern Pacific Co., a statement of the affairs of the latter requires a consolidation of the exhibits for both the operating company and its proprietary lines. The financial affairs of the Mexican International Co. do not appear in this report, as the stock owned in that company is not a part of the whole (\$16,975,000), and as the line is not operated by the Southern Pacific Co.

TERMS OF LEASES.

**Omnibus Lease.**—The lease which has received this name includes (with the exception of the lines in the State of Texas, which are operated, under statutory requirements of the State, independently and by their own officers) the lines forming nearly all of the Southern Pacific "set" route from San Francisco to New Orleans by rail, and thence to New York by water, together with their lateral lines and branches. The Southern Pacific Company maintains said roads, to pay all fixed and other charges, including interest on bonds and other debt, and to divide the surplus net profit between the parties to the agreement in the following proportions:

Southern Pacific RR. Co. of California.....	44 p. c.	Louisiana Western RR. Co.....	
Southern Pacific RR. Co. of Arizona.....	10 "	Morgan's Louisiana & Texas RR. & SS. Co.	
Southern Pacific RR. Co. of New Mexico...	6 "	Southern Pacific Co.....	

Betterment and additions to leased lines and equipment are currently made by the lessees, and the payments therefore become annually a charge to the lessors, each being charged with the cost of the additions to its separate property. The lease is for 99 years.

Under date of July 1, 1889, in conformity with a statute of the State of Texas, all leases of railroads in that State were cancelled, and the properties have since been operated by their own officers. The following comprise the lines in Texas controlled by the Southern Pacific Co.:

**Oxas and New Orleans RR., Galveston, Harrisburg and San Antonio Ry., Gulf, Texas and Pacific Ry. and New York, Texas and Mexican Ry.**

April 14, 1898, the California Pacific RR. Co., the Northern Ry. Co. and the North California Ry. Co., were merged into the Southern Pacific RR. Co. of California, but the consolidation did not annul the separate leases of their properties to the Southern Pacific Co. Terms of those separate leases are outlined in the following paragraphs:

**California Pacific RR.**—Leased for 50 years from Nov. 1, 1886, at a yearly rental of \$100,000. Lease modified Nov. 1, 1896. Under the terms of modification the Southern Pacific Co. pays over to the lessor 80 p. c. of the earnings remaining after the payment of operating expenses, taxes and rentals. The terms of the agreement, including the amount of rental, are subject to change every five years, if wished for, and any revision proposed is determined by arbitration.

**Northern Ry. Co.**—A new lease was made with this company July 1, 1888, to run for 90 years from that date, covering all of the company's lines as consolidated, and which now are and hereafter may be constructed. The lessee pays from net earnings of the property interest on bonded and floating debt, the surplus up to 6 p. c. on its capital stock going to lessor, the lessee retaining all over that amount. Betterments are made by lessee and charged annually to lessor. Lessee guarantees principal and interest of bonds.

**Northern California Ry. Co.**—Leased for 40 years from June 1, 1889. Lessee pays from net earnings all fixed and other charges, including interest on bonded and floating debt, and charges for betterments and additions. Any balance is retained by or charged to the lessee.

**Central Pacific RR. Co.**—Leased Feb. 17, 1885, and lease modified Jan. 1, 1888. On Jan. 1, 1888, the old lease was cancelled, and a new one, to run 90 years, entered into. By its terms the Southern Pacific Co. is to pay from the net earnings of the road all expenses of operation, fixed and other charges, including sinking fund and United States requirements, and \$10,000 for organization expenses. Any surplus up to 6 p. c. on the capital stock of the Central Pacific is to be paid over to that company, but the lessee will retain one-half of any surplus in excess of such 6 p. c. on stock.

**Oregon and California RR. Co.**—Lease is for 40 years, from July 1, 1887, at a rental of \$100,000. Lessee pays from net earnings all fixed and other charges, including interest on bonds and all current fixed charges, and dividends up to 6 p. c. on common stock and 7 p. c. on preferred stock, any surplus over dividends being retained by lessee. Betterments and additions are made by the lessee for account of lessor.

**South Pacific Coast Ry. Co.**—Lease is for 55 years, from July 1, 1887. Lessee pays from net earnings all fixed and other charges, including interest on bonded and floating debt, and charges for betterments and additions and any balance is retained by or charged to the lessee.

**NEW MEXICO AND ARIZONA RR. Co. AND SONORA RY. Co.**—The lease of these lines (referred to in the MANUAL for 1898, page 276) was concluded July 15, 1898. Under the terms of the agreement the line of railway of the New Mexico and Arizona RR. Co., from Benson to Nogales (88.10 miles), and the line of railway of the Sonora Ry. Co., in the Republic of Mexico, from Nogales to Guaymas (a distance of 262.60 miles), a total distance of 350.70 miles, are leased until Sept. 1, 1979, to the Southern Pacific Co., which is to pay all taxes and expenses incurred in the operation and maintenance of these properties, and an annual rental of \$54,646.86 in U. S. gold coin for the property leased from the New Mexico and Arizona RR. Co., and \$163,486.14 in like gold coin for the property leased from the Sonora Ry. Co.

ripts and disbursements for the year 1899 do not include the earnings and disbursements of the Houston and Texas Central RR., Austin and Northwestern RR., Central

and Northwestern Ry., and Fort Worth and New Orleans Ry. Cos., the receipts and disbursements of which are included in the corresponding statement for 1898. The operations of these lines for the year (1898-99) have been as follows: Gross receipts, \$4,300,000; operating expenses, \$2,815,521.78; net earnings, \$1,578,068.22. Interest on funded debt and other fixed charges, \$1,094,536.16. Surplus, \$483,532.06. Betterments and additions, \$183,854.48. Surplus over all disbursements, \$299,677.58.

The disbursements for betterments and additions and new equipment of all proprietary companies, amounting to \$2,577,331.11, have been charged against "Income" by the respective companies. The disbursements include \$566,836.89 advanced by the Southern Pacific Co. to the Oregon and California RR. Co. for operations, betterments, and additions, and other purposes, which amount still remains due to the last-named company. The Southern Pacific Co. also advanced \$403,990.87 to June 30, 1899, to the Antonio and Aransas Pass Ry. Co., which is not included in the above disbursements. Excluding the earnings and expenses of the Houston and Texas Central RR. and Texas lines thereto from the operations of the year 1897-1898, and comparing the results of the two years on the lines operated in the year 1898-1899, gross transportation receipts increased \$3,241,009.28, or 6.15 p. c.; other receipts increased \$8,022.85, making a total increase in gross receipts of \$3,249,032.13, or 6.05 p. c. Operating expenses increased \$3,370,082.97, or 10.34 p. c. Taxes and all other fixed charges increased \$431,712.93, or 2.87 p. c. which \$403,445.64 was for account of the Central Pacific RR. Co. Betterments and additions, including rolling stock for account of both proprietary companies and leased lines, increased \$1,639,142.11. Disbursements for account of the New Mexico and Arizona RR. and Sonora Ry. include \$123,691.74 expense for betterments and additions.

**CAPITAL STOCK.**—The capital stock of the Southern Pacific Company outstanding July 1, 1899, amounted to \$121,055,170. This was increased during the year by \$5,552,940 issued against stock of the Southern Pacific RR. Co. (of California) deposited with the Union Trust Co., making total outstanding stock of the Southern Pacific Company at the close of the year, of \$126,608,114. On Oct. 2, 1899, there were listed on the New York Stock Exchange \$67,274,200 additional stock against Central Pacific Ry. Co. stock deposited with Union Trust Co. under Southern Pacific Co. 4 p. c. mortgage of Aug. 1, 1899, and on April 1, 1900, an additional amount of \$4,030,000 stock against stock of the Southern Pacific RR. (of Cal.), making the total amount of stock listed to date, \$197,832,100.

**BONDED DEBT, SOUTHERN PACIFIC COMPANY, June 30, 1899.**—The steamship bonds originally \$3,000,000 in amount, were issued in 1891 and mature Jan. 1, 1911, interest (6 p. c.) payable Jan. and July, at 23 Broad St., New York, N. Y. In 1892, 1893, 1894, 1896, and 1897 the amount of bonds out-standing was reduced by \$71,000 each year, and by \$72,000 each year in 1895, 1897, and 1899.

**Four per cent. Gold Bonds.**—Since the close of the fiscal year, this company has executed a mortgage to the Union Trust Co., New York, N. Y., to secure an issue of \$36,819,000 4 p. c. collateral trust gold bonds, due Aug. 1, 1949, interest June 1 and Dec. 1, of which \$2,118,500 have been issued to date. These bonds may be redeemed at any time at par and interest, at the option of the railway company upon due notice being given. They are secured by mortgage covering the \$12,000,000 of preferred stock of the Central Pacific RR. Co. now issued, and the additional authorized \$8,000,000 of such preferred stock, as and when the same shall be issued, and also all the common stock of the railway company, purchased by the Southern Pacific Co., aggregating \$67,274,200.

**ADDITIONAL PARTICULARS REGARDING THE COLLATERAL TRUST BONDS.**

The mortgage provides that the trustee (upon request of the holders of one-fourth in amount of the bonds) may sell the pledged stocks covered thereby, in case of six months' default in the payment of principal or interest on the 4 p. c. bonds, and, upon the like default and request, it is provided that the trustee may also sell the bonds of the Southern Pacific Co. and the bonds of the Central Pacific Ry. Co. and the bonds of the Direct Navigation Co. and the bonds of the Louisiana Western Railroad Co. and the bonds of the Morgan's Louisiana and Texas RR. and the bonds of the Austin and Northwestern RR. Co. and the bonds of the Wells, Fargo & Co. Contract.

the trustee shall declare the principal of the bonds to be due, but this declaration may be rescinded or annulled at any time prior to the sale of the pledged stocks by the holders of a majority in amount of the outstanding bonds. The mortgage also provides that, while said 4 p. c. bonds remain outstanding, no new preferred nor the common stock of the Central Pacific Ry. Co. shall be increased beyond the amount authorized; viz., \$20,000,000 preferred and \$67,275,500 common, unless arrangements have been made for depositing under said collateral trust mortgage (simultaneously with the issue of such increase of stock) the same proportionate part of such increase of each class of stock, as the stock of such class then covered by said mortgage was of the whole outstanding stock of such class as the same existed before such increase; and also that the Central Pacific Ry. Co. shall not be merged or consolidated with any other road company without the consent of the holders of a majority in amount of the 4 p. c. gold bonds of the Southern Pacific Co. then outstanding.

The mortgage also provides that, while the 4 p. c. bonds are outstanding, no new mortgages (except the 1st refunding mortgage and 3½ p. c. mtge. of the Central Pacific Ry. Co., dated Aug. 1, 1899) shall be made of the properties covered by such refunding and 3½ p. c. mortgages except to refund the bonds thereby, or either of such issues.

The mortgage provides that the total amount of bonds outstanding thereunder shall not exceed at any time \$36,819,000. Of such bonds \$8,000,000 are to be reserved and applied as follows: (1) \$3,000,000 of the 3½ p. c. bonds are reserved to be used to provide additional funds, if required, for the payment from time to time of the 3½ p. c. bonds given by the Central Pacific RR. Co. to the U. S. Government, in the settlement of the debt pursuant to the Settlement Agreement of Feb. 1, 1899, or, when such notes have been paid, to be applied at their market value to provide for payment for, or the reimbursement of, the cost of betterments and additions to the properties of the Central Pacific Ry. Co., covered by the 1st refunding and 3½ p. c. bonds; (2) \$5,000,000 face value of such bonds are reserved to be applied at their market value to provide for, or reimbursement of, the cost of betterments and additions to the properties of the Central Pacific Ry. Co. The amount of such additional \$5,000,000 bonds, so to be applied, is not, however, to exceed \$200,000 from the date of the mortgage. When and as any of such reserved bonds are issued by the Southern Pacific Co., the like amounts at par value of Central Pacific Ry. Co. preferred stock are to be forthwith sold by the trustee under the mortgage, to be held as collateral security in the same manner as the preferred common stock now pledged thereunder.

#### FURTHER PARTICULARS RESPECTING THE BONDED DEBT.

**Southern Pacific RR. 1st Mtge. Bonds.**—Secured on the land grant and on 1,044.99 miles of road as follows: San Francisco to Tres Pinos, 100.49 m.; Huron to east bank of Colorado River, near Yuma, 530.79 m.; Santa Fe to San Pedro, 24.65 m.; Carnadero to San Miguel, 125.99 m.; Mojave to Needles, 242.51 m.; Huron to Yuma, 20.56 miles. The bonds are in six classes, A to F, but all are equally secured. There is a sinking fund of \$100,000 a year for the redemption of bonds at or under par, but if they cannot be got at that price the interest is invested. The gross receipts from land sales are also applied to the purchase of bonds at not less than par. Interest payable at the offices of the company in San Francisco, Cal., and in New York, N. Y.

Trustees: D. O. Mills and Gerrit L. Lansing.

**Southern Pacific Branch Bonds.**—Secured on the property formerly of the Southern Pacific Branch RR. (See Manual for 1888, page 1105.) The bonds are for \$1,000 gold each, in coupon form. Interest payable at New York and in San Francisco. There is a sinking fund of \$50,000 per annum, but bonds can not be drawn. Trustees: Wm. E. Brown and Gerrit L. Lansing.

**Stockton and Copperopolis RR. Bonds.**—Secured on the line from Stockton to Copperopolis, 32.65 m., and on the branch from Peters to Milton, 11.99 miles. The bonds are for \$500 gold each. (See Manual for 1888, page 1105.) Interest payable in New York and in San Francisco. Trustees: D. D. Colton and J. L. Willcutt.

**Southern Pacific RR. Consol. Mtge. Bonds.**—Limited in amount to \$38,000,000, of which \$12,982,000 is outstanding, but all except \$2,000 retired by issue of 1st consol. mtge. bonds. Secured by a lien, subject to the mortgages, on the entire property owned by the company at the time of executing the 1st consolidated mortgage except the Mojave Division. Trustee: Central Trust Co., New York, N. Y.

**Southern Pacific RR. 1st Consol. Mtge. Bonds.**—Authorized to the amount of \$30,000 per mile of road now or hereafter acquired, including \$7,500 per mile for double tracks, equipment and improvements. Secured on the entire property of the company, except the Mojave Division, but subject to the liens of the mortgages, for the satisfaction of which a sufficient amount of these bonds is provided. If payment is not received under the contract for sale of the Mojave Division to the Atchison, Topeka and Santa Fe Ry. Co., the bonds received is to be applied to purchase of bonds under this mortgage; but if the Atchison, Topeka and Santa Fe Ry. defaults in its obligations under the contract and the contract of sale thereby terminate, the mortgage shall also cover the Mojave Division. It is provided that no prior mortgages shall be valid beyond their maturity, so that these bonds will eventually become a first lien upon the company's property. All prior lien bonds exchanged for these shall be held in trust as collateral security for this mortgage. All the outstanding bonds issued under each of the prior mortgages shall have been retired. As to the mortgage limits the issue of bonds to \$30,000,000, exclusive of the bonds to be issued against the securities, and provides that of this \$30,000,000 not more than \$26,000,000 shall be issued prior to the completion of the Coast Line from Surf to Elwood. Other provisions of the supplemental mortgage are as follows:

(a) that the company will keep with the trustee of the mortgage a register of the rolling stock subject to the mortgage, and will so mark the equipment as to identify the same; (b) that the sinking fund appropriations under the mortgage shall be used only to redeem bonds issued thereunder, and that such redemption shall be provided in the mortgage; (c) that the company will not increase its mortgage indebtedness under the mortgages of the Northern Ry. Co., the Northern California Ry. Co. and the California Pacific RR. Co. in consolidation whereof with the former Southern Pacific RR. Co. the present Southern Pacific RR. Co. was formed; (d) that in case by the execution of any additional mortgage it shall increase the aggregate of its mortgage indebtedness, except for newly acquired property, the bonds made redeemable at 107½ p. c. and interest on and after April 1, 1905, shall be included among the bonds secured by such additional mortgage, and will be entitled to participate pro rata in the security given by the additional mortgage, in determining the amount of mortgage indebtedness, any mortgage indebtedness held as security for the mortgage indebtedness shall not be counted.

(e) that in agreement with the holders thereof a majority of the bonds outstanding are stamped with a notice to the effect that the coupons thereof, in addition to being payable in United States gold coin in New York, are also payable in Berlin and Frankfurt-on-the-Main at the rate of M. 4.20 per dollar, and that the Southern Pacific RR. Co. reserves the right to redeem the principal at 107½ p. c. and accrued interest on or after April 1, 1905, on four weeks' prior notice. The amount of bonds now outstanding is \$24,770,000, of which \$19,064,000 is secured as above. The bonds are issued in denominations of \$500 and \$1,000. They are in coupon form, and are payable on registration as to principal or of conversion into fully registered bonds. Principal and interest are payable in gold, free of all taxes. Trustee: Central Trust Co., New York, N. Y.

**Northern Ry. Bonds.**—The sinking fund for Northern Ry. 30-yr. bonds of 1877 commenced in 1886 at \$20,000 per annum; for 50-yr. bonds of 1888 commenced in 1898 at \$20,000 per annum. The 1st mtge. bonds were issued for the purpose of retiring divisional bonds and to pay for constructed or contemplated lines. They are secured on 148 miles of road. (See Manual for 1888, page 947.) The 5 p. c. bonds

authorized to the amount of \$21,000,000. They are a first lien on 231 miles of road and a second lien on the remaining 148 miles of road formerly of the Northern Ry. Co. (See Manual for 1896.) They are in coupon and registered forms; coupon bonds may be registered as to principal or fully registered bonds. Trustees: 1st mtge. 6 p. c. bonds, Henry B. Laidlaw, surviving; 1st mtge. bonds, Union Trust Co., New York, N. Y. Interest payable in New York or in San Francisco.

**Financial Statement, Central Pacific Ry. Co., June 1, 1900.**—Capital stock (\$100 par value), authorized, and issued, \$67,275,500; preferred, authorized, \$20,000,000; issued, \$12,000,000—total, \$79,275,500. Funded debt outstanding: 1st refunding mortgage bonds, \$54,650,500; 3½ p. c. bonds, \$23,595,000—total, \$78,254,500. Total stock and bonds outstanding, \$157,530,000.

**CAPITAL STOCK.**—The preferred stock will be entitled to cumulative dividends up to 4 p. c. in gold, payable semi-annually, beginning from Aug. 1, 1899, before payment of any dividend on the common stock. Thereafter, dividends up to 4 p. c. per annum to be paid on the common stock, and the dividends to be paid *pro rata* upon preferred and common stock. The preferred stock will be paid to capital towards the common stock on any liquidation or dissolution of the company. It is provided that no additional mortgage shall be put upon the property and that no increase in the amount of the common stock authorized under the plan shall be made except in each instance after obtaining the consent of the holders of 75 p. c. of the whole amount of preferred stock and a majority of the whole amount of common stock at the time outstanding.

**FIRST REFUNDING MORTGAGE GOLD BONDS.**—These bonds mature Aug. 1, 1949, bear interest at 4 p. c. in gold, payable Feb. 1 and Aug. 1, and are payable, principal and interest, in gold coin of the present standard of weight and fineness. They are secured by a mortgage to the Central Trust Co. of New York, as trustee, covering all the railroads, terminals, and equipment formerly owned by the Central Pacific RR. Co., including about 1,349 miles of first track and about 358 miles of 2d track and sidings, and are guaranteed unconditionally, principal and interest, by the Southern Pacific Co., by guaranty endorsed upon each bond. Of these bonds, \$47,056,000 (Nos. 21,801 to 68,856 inclusive) are to be held by the U. S. Trust Co. of New York as collateral security for \$47,050,172.48 of the 3 p. c. notes of the Central Pacific RR. Co., being the amount still held by the United States of the total of \$58,812,715.48 of such notes, which were given in payment of the indebtedness of the Central Pacific RR. Co. to the United States, in pursuance of the Settlement Act, dated Feb. 1, 1899. As these notes (which are issued for the sum of \$2,940,635 1/2 each and mature in six months, beginning Aug. 1, 1901, but which are payable on or before their due dates and may be redeemed at any time) are paid, an equivalent amount of these bonds will be returned to the railway company under the provisions of the mortgage they can then be reissued at the same or a lower rate of interest. The railway company shall deem it expedient to do so. In no event is the total amount of bonds of any one time under the mortgage to exceed \$100,000,000, and a sufficient amount of bonds is to be kept up the undeposited underlying bonds of the Central Pacific RR. Co., as provided in the Plan of Readjustment.

Pending the satisfaction of the underlying mortgages on the properties covered by the first mortgage, the outstanding old bonds, which have been exchanged for the 1st refunding mortgage bonds, are to be deposited under the mortgage and kept alive as additional security thereunder until the redemption of 95 p. c. of all the bonds of the same issue at any time outstanding or until not less than 95 p. c. of the outstanding old bonds have been deposited under the mortgage. Under the terms of the mortgage, the 1st refunding mtge. 4 p. c. gold bonds issuable in exchange for outstanding old bonds, at the rates provided in the Readjustment Plan, are only to be issued as such outstanding old bonds are actually deposited under the mortgage. There have already been deposited under the Plan of Readjustment and deposited with the trustee the amounts of the outstanding old bonds of the Central Pacific RR. Co. as follows in the following table:

**THREE AND ONE-HALF PER CENT. MORTGAGE GOLD BONDS.**—These bonds bear interest at 3½ p. c. in gold, payable Aug. 1, 1929, with interest payable June 1 and Dec. 1 in each year, principal payable in gold coin of the U. S. of the present standard of weight and fineness; are guaranteed unconditionally, principal and interest, by the Southern Pacific Co., by guaranty endorsed upon each bond in the same form as that upon the first refunding bonds above quoted. Said 3½ p. c. bonds are secured by a mortgage to the U. S. Trust Co. of New York, as trustee, upon all the railroads and properties covered by the first refunding mortgage above mentioned (subject, however, to the prior lien of such first refunding mortgage), and also by the deposit with the trustee under such mortgage (when released from the lien of the mortgage which they are now held) of all securities and moneys now or hereafter held in any sinking fund existing by or under any now existing mortgage of the old Central Pacific RR. Co., or any division or subsidiary company, by the consolidation whereof it was formed; and are also secured by lien upon all the properties covered by the mortgage securing the land bonds of the old Central Pacific RR. Co., dated Oct. 1, 1899 (except in so far as the same shall be released from the lien of said last mentioned mortgage, with its provisions, before such mortgage is satisfied and discharged), and also upon all notes given for lands covered by said mortgage securing said Land Bonds, which shall be outstanding at the time such last mentioned mortgage is satisfied and discharged. All income derived from said sinking fund, or from said lands, is to be applied primarily to the payment of the current interest on the 3½ p. c. mtge. gold bonds, and when such current interest shall have been paid or provided for, to the payment of any fixed charges secured by lien prior to the lien of said 3½ p. c. mortgage upon the properties of the company, or any of them (including interest on the said 3 p. c. notes in favor of the United States, as mentioned); but the railway company, at its discretion, so long as no default exists in respect to the principal or interest of said 3½ p. c. mtge. gold bonds, may at any time and from time to time sell such bonds or lands (free from the lien of the 3½ p. c. mortgage), and apply the proceeds thereof, or of any other securities held on deposit under such mortgage, and also collections on account of principal of such securities, and any moneys held as security for such 3½ p. c. mtge. gold bonds, while the same shall be outstanding, to the purchase and cancellation, at the discretion of the railway company, of bonds not above par and accrued interest, otherwise to the purchase and cancellation, at the discretion of the railway company, either of the 3½ p. c. mtge. gold bonds, or of the 1st refunding mtge. 4 p. c. bonds secured by prior lien upon any of its properties. The sinking fund securities above mentioned are the following securities, viz.:

ing are \$4,000 called for redemption Oct. 29, 1897, on which interest ceased Jan. 1, 1898, and \$173,000 for redemption April 25, 1899, on which interest ceased July 1, 1899. Trustee: Central Trust Co., N. Y. The consol. mtge. bonds are part of an issue of \$5,068,000 of coupon bonds. Of the remainder, \$1,149,000 are held as collateral security for the benefit and protection of the holders of the gen. m. bonds, but the consol. mtge. bonds so held by the Central Trust Co. do not draw interest and are not subject to redemption from proceeds of land sales, unless there should be a default on the other bonds issued under the consolidated mortgage. Trustee: Farmers' Loan and Trust Co., New York. The general mtge. bonds cover the entire property of the company, subject to liens of prior mortgages. They are additionally secured by the proceeds of consol. mtge. bonds as stated above. Trustee: Metropolitan Trust Co., New York, N. Y. The m. bonds, the consols, and the general mtge. bonds are further secured by a trust indenture between Erick P. Olcott, the Southern Pacific Co., and the trustee under each mortgage, dated April 1, 1890, relating to certain lands described therein. All bonds are in coupon form, with privilege of registration. Interest on the mtge. bonds and principal and interest of debentures are guaranteed (by endorsement) by the Southern Pacific Co. Interest payable at the Central Trust Co., New York. The 1st mtge. bonds and consols may be called for redemption at 110 with proceeds of land sales.

**History.**—Incorporated under the laws of Illinois, April 2, 1900, and on April 11, 1900, leased the property of the Chicago and Alton RR. Co. (see statement following) for a term of 99 years. This lease provides that the lessee shall pay as rental (1) the interest on outstanding bonds of the lessor and the new refunding 3 p. c. bonds of the lessor issued or authorized in the mortgage; (2) any rental payable by the lessor under the terms of the lease received by it from the Joliet and Chicago, Kansas City, St. Louis and Chicago, and Louisiana and Missouri River RR. Cos., excluding, however, the proportion of such rentals or any dividends which the lessor may receive as the owner of stock in these companies; (3) taxes, and an amount equal to the net earnings of the railroad. The capital stock of the Chicago and Alton RR. Co. is practically all owned by this company.

The new company has purchased that portion of the St. Louis, Peoria and Northern Ry. (see MANUAL for 1890, page 1422), extending from Springfield to Grove, Ill., a distance of 57.43 miles; the remainder of that road, from Springfield to East St. Louis, Ill., a distance of 10.57 miles, has been operated by the Illinois Central RR. since Dec. 1, 1899 (see page 288).

History.—Organized Feb. 16, 1861, and in 1862 purchased at foreclosure sale the St. Alton and Chicago RR. The Coal City Branch, built by the Chicago and Illinois RR. Co. was purchased in 1879. The St. Louis, Jacksonville and Chicago RR. Co. was purchased April 14, 1884. (See MANUAL for 1884 page 664.) On April 29, 1895, the property of the Mississippi River Bridge Co. was purchased.

Under a contract which went into effect Sept. 29, 1895, this company runs trains daily between Chicago and Peoria—over its own road between Chicago and Washington, 143.4 miles, and over the Toledo, Peoria and Western RR., between Washington and Peoria, 12

On April 3, 1900, the property of this company was leased to the Chicago and Alton Ry. for a term of 99 years, on terms given in that company's statement preceding.

sinking fund 6 p. c. bonds of 1878 (\$3,000,000 originally) are coupon bonds of \$1,000 each, with registration. A sinking fund of \$120,000 half-yearly, less the semi-annual interest on the bonds pending, is payable to the United States Trust Co., trustee, on May 1 and Nov. 1, each year, beginning, 1880, to be applied to the purchase of these bonds, if they can be obtained at not exceeding 105¢. They are not secured by a mortgage, but will be should the mortgage indebtedness on lines be increased above \$8,000,000. Seven p. c. bonds of the Kansas City, St. Louis and Chicago RR. (of the construction of whose lines these bonds were issued) to the amount of \$3,000,000 are with the United States Trust Co. as additional security. Interest payable at the company's New York office, 120 Broadway.

Consol. 6 p. c. sterling bonds (authorized £1,600,000, or \$8,000,000) are secured on main line and a Branch, 323.30 miles. They are coupon bonds of £200 each, and are redeemable in 1903. Principal and interest, free of all taxes, payable in London by J. S. Morgan & Co. Trustee: United States Trust Co., New York, N. Y.

L. & M. R. RR. Co.'s bonds are secured in the order of their priority on the railroad and property in Louisiana and Missouri River RR. Co. (See appended statement for that company.) They are \$1,000 bonds. The payment of both principal and interest is assumed by the C. & A. RR. Co. Trustee: United States Trust Co., New York, N. Y.

Mississippi River Bridge Co.'s bonds (authorized, \$700,000) are guaranteed principal and interest by C. & A. RR. Co., which purchased the property of the Miss. River Bridge Co. (formerly leased) on Feb. 1, 1895, and now owns it subject to these bonds. The interest and sinking fund amount to \$50,000 per year on the stock (\$300,000) and \$136,000 of the bonds are held by the C. & A. RR. Co. as an investment. Interest payable at the company's New York office, 120 Broadway.

Refunding 3 p. c. bonds are secured by mortgage to the Illinois Trust and Savings Bank, Chicago, Ill., on the entire corporate property and franchises of the company, subject to prior liens. They are authorized to provide for improvements and betterments, including the rebuilding of bridges, track elevation of grades, acquisition of new locomotive engines, and other equipment, etc. The issue is to the amount of \$40,000,000, but power is reserved in the mortgage to issue additional bonds, if duly authorized by the stockholders in interest of the stockholders, for the following purposes; viz. (a) For building, completing, or extending the company's railroad—such additional issue not to exceed the rate of \$20,000 p. m. mile, excluding sidings or switches, and to apply to not exceeding 500 miles of such additional main line for the purpose of funding the rental obligations of the company upon its leased lines, and (c) for improvements not exceeding \$5,000,000, such issue to be at the rate of not exceeding \$1,000,000 per annum, after Jan. 1, 1900. The mortgage securing the bonds will become an absolute 1st mortgage upon the property of the company existing underlying bonds of the company. The proceeds of the \$40,000,000 bonds will be distributed as follows: (1) The proceeds of about \$25,000,000 face value thereof for improvements, betterments, extensions, etc., and for such other purposes as may be authorized by law. (2) The proceeds of about \$15,000,000 face value of said bonds to be deposited and to be used as needed for the purpose of paying existing indebtedness, including the following: La. & Mo. R. RR. 1st 7s, due Aug. 1, 1900; 2d mtge. 7 p. c. bonds, due Nov. 1, 1900, \$300,000; C. & A. RR. Co. sinking fund 6s gold, due July 1, 1903, \$1,695,000; Consol. 6 p. c. sterling bonds, due July 1, 1903, £900,000, say \$4,379,850. The first \$1,000,000 of these bonds were paid for Oct. 10, 1899; payment for an additional \$22,000,000 was called for on May 7, 1900, and the remaining \$8,000,000 subscription was cancelled. The bonds are subject to interest payable at company's office, 120 Broadway, New York, N. Y.

Amount of 3 p. c. refunding bonds issued up to Aug. 13, 1900, is \$32,000,000. Annual dividends are guaranteed (7 p. c.) on \$1,500,000 Joliet and Chicago stock; ditto (7 p. c.) on Louisiana and Missouri River guaranteed preferred stock; annual dividends (6 p. c.) on \$1,750,000 L. & C. preferred stock, and annual dividends contingent upon gross earnings, but not to exceed \$271,800 K. C., St. L. & C. common stock.

Interest on consol. sterling bonds is payable at the office of J. S. Morgan & Co., London. Dividends on Chicago guaranteed stock are payable at the United States Trust Co., New York, N. Y. Interest on bonds and dividends on all other guaranteed stocks are payable at the company's office, 120 Broadway, New York, N. Y.

St. Louis Division 1st mtge. 4 p. c. 50-yr. gold bonds, bearing interest from Jan. 1, 1901, the same to be part of an issue of \$14,000,000, of which amount it is intended to reserve \$4,000,000 for future extensions, improvements, betterments, and other additions to, and equipment of, the properties. The issue of bonds may be increased by \$1,500,000 for the purpose of building new line with low grades. All bonds of the issue are to be secured either by a first lien directly on the properties acquired or by collateral trust upon securities representing the same, in either case, however, subject to the existing prior lien of \$150,000 1st mtge. 6s of the Venice and Carondelet Ry., due 1902, and to any charge on account of receiver's unmatured obligations for equipment. A sufficient amount of the new bonds is to be set aside specifically to retire such prior charges at maturity. The terms of exchange are as follows: Each \$1,000 old bond with coupons attached to receive in new Southern Ry. St. Louis Division 4 p. c. bonds—Evansville, Rockport and Eastern RR. Co., \$1,180; L., E. & St. L. RR. 1st 6s, \$1,300; L., E. & St. L. RR. 2d 6s, \$700; L., E. & St. L. Consol. RR. Co., \$750; H., T. C. & C. RR. 1st mtge. 6s, \$165; L., E. & St. L. Consol. gen. mtge. 4s, \$75. Of the \$10,000,000 bonds reserved (see above), \$1,000,000 can be issued presently and the remainder only at a rate not exceeding \$500,000 per annum, for the construction or acquisition of extensions of the properties and for betterments, improvements, etc.

**FURTHER PARTICULARS RESPECTING THE FUNDED DEBT.**

The 1st mtge. L., E. & St. L. RR. bonds are secured on the entire property of the L., E. & St. L. RR. Co. prior to the consolidation of 1889 (see Manual for 1889), subject, however, to the \$900,000 mortgage on the Evansville Division, and excepting the franchise for the extension of the road to St. Louis. The first coupon was paid in Sept., 1895; all subsequent coupons are in default. Committee: John M. Graham, Stites, Alfred D. Foster. Depositaries: International Trust Co., Boston, Mass.; Fidelity Trust and Safety Co., Louisville, Ky.

The 2d mtge. L., E. & St. L. RR. bonds are secured on the same property and franchises of the L., E. & St. L. RR. Co., subject to the aforementioned \$2,000,000 and \$900,000 first mortgages. These bonds carry no voting power at the rate of ten votes for each \$1,000 bond, if registered 60 days prior to time of voting. The first coupon was paid in Sept., 1895; all subsequent coupons are in default. Committee: Norton, J. F. Henry, Jas. W. Bryan. Depositaries: International Trust Co., Boston, Mass.; Louisville Trust Co., Louisville, Ky.

The Huntingburg, Tell City and Cannelton bonds are secured on the branch line Lincoln to Cannelton, 22.72 miles. They are guaranteed, principal and interest, by the L., E. & St. L. Con. RR. Co. Coupons including that of Oct. 1, 1894, are in default.

The Evansville, Rockport and Eastern Ry. bonds are secured only by a mortgage on the Evansville Division (Jasper to Evansville, and branch to Rockport, 70.31 m.), not being guaranteed by the consolidated company. The original (\$600,000) E., R. & E. Ry. bonds were exchanged at the time of consolidation for \$900,000 bonds of the consolidated company, issued on the E., R. & E. Div. Coupons from and including Jan. 1, 1897, are in default. Committee: Henry B. Hanson, Jas. R. Barrett, R. Montfort. Depositaries: Fidelity Trust and Safety Vault Co., Louisville, Ky.

The consol. mtge. bonds cover the following lines: New Albany to a point on the Mississippi River opposite St. Louis, 259 m.; branches from Jasper to Evansville and from Gentryville to Rockport (forming the Evansville Division), 70 m.; from last-named branch to Tell City and Cannelton, 22.72 m.; from Venice to Carondelet, 7 m. (total, 359 m.); also all lands, buildings, tracks, rolling stock, etc.

ereto, and all property that shall hereafter be acquired by this company, excepting branches or exten-  
which are not embraced in the consolidated mortgage. The bonds are for \$1,000 each, in coupon form,  
privilege of registration as to principal. Total amount authorized is \$8,000,000, of which the New York  
y and Trust Co. holds \$4,202,500 for the retirement of prior liens, as follows: L., E. & St. L. 1st mtge.  
\$2,000,000; L., E. & St. L. 2d mtge. bonds, \$670,000, at 75, \$502,500; E., R. & E. 1st mtge. bonds,  
0; H., T. C. & C. 1st mtge. bonds, \$300,000; I. & St. L. 1st mtge. bonds, \$200,000; V. & C. 1st mtge.  
\$300,000. (See Manual for 1898, page 840.) Coupons from and including that of Jan. 1, 1894, are in  
Committee: Charles S. Fairchild (*Chairman*), W. L. Bull, James Stillman, W. H. Payne, Mayer  
n, New York, N. Y. Depositary: New York Security and Trust Co., New York, N. Y.  
he gen. mtge. bonds are secured on the entire property and rights of the company now owned or which  
e acquired hereafter, subject, however, to the liens of prior mortgages. The total amount authorized  
000,000, of which \$3,450,000 have been certified by the New York Security and Trust Co., trustee under  
mortgage. Of the certified bonds, \$2,400,850 are outstanding and drawing interest, \$577,000 are pledged  
lateral, \$695,000 are held by the trustee for the retirement of preferred stock, \$20,750 for the retirement  
d scrip and \$12,000 subject to the disposition of the receiver, and the remaining \$68,000 are in the hands  
treasurer. Of the rest of the authorized issue, \$8,000,000 are held by the trustee to provide for the  
ment of the consol. mtge. bonds and \$3,550,000 are reserved, uncertified, for other purposes. The bonds  
r \$1,000 gold each, in coupon form, with privilege of registration as to principal. Coupons from and  
ling that of March 1, 1894, are in default. Trustees: New York Security and Trust Co., New York,  
and Erastus P. Huston, Evansville, Ind.

There was an increase of 53.58 m. of line and 182.33 m. of track during the year 1899. History.—Chartered April 13, 1846 ; construction begun in July, 1847 ; and from Harrisburg to Pittsburgh opened Feb. 15, 1854. Between Harrisburg and Philadelphia the line is made up of the Philadelphia and Columbia RR. (originally a State work) Harrisburg, Portsmouth, Mt. Joy and Lancaster RR., the former purchased in 1854, latter leased in 1861. (See MANUAL for 1892.)

Rolling Stock in use on all three divisions, Dec. 31, 1899.—Locomotives (passenger, 1,077 ; passenger freight, 1,155 ; switching, 231), total, 1,843. Cars (passenger, 1,077 ; passenger freight, 1,155 ; switching, 231), total, 1,843.

CAPITAL STOCK.

The amount of capital stock outstanding Dec. 31, 1899, was \$129,305,500, and of \$500, due to the conversion of that amount of the scrip dividend declared in May.

FUNDED DEBT.

The amount of funded debt, including mortgages on real estate and ground, Dec. 31, 1899, was \$88,214,910.72.

SINKING FUNDS.

Under the provisions of the consolidated mortgage of the company, the annual sum set apart out of the net income for the redemption of the outstanding bonds secured by mortgage was \$354,480. Of these securities, \$29,000 were purchased and cancelled, and the reduction in the funded debt appears in the balance sheet on page 682. The remainder of the sum was placed to the credit of the trustees for investment under the terms of the mortgage. Their report shows the amount of \$6,407,744.91, in securities and cash, in addition to the sum for the redemption of the bonds.

The trustees of the sinking fund for the redemption of the trust certificates for the purchase of the shares of the capital stock of the Philadelphia, Wilmington and Delaware RR. Co. were not able to purchase any of these certificates during the year. The amount purchased and cancelled to Dec. 31, 1899, was, therefore, \$2,298,000, leaving standing \$7,702,000.

The trustees of the sinking fund for the redemption of the 4½ p. c. collateral mortgage were not able to obtain any of these securities during the year at the limit fixed in the agreement. The amount of this loan outstanding, Dec. 31, 1899, was \$9,900,000.

Under the provisions of the 4 p. c. equipment trust gold loan, there was no purchase by the trustee during the year, for the sinking fund, the sum of \$136,400. The trustee was unable to obtain any of the bonds at the price fixed in the lease, and, in accordance with the terms thereof, the whole amount has been invested in additional equipment.

SECURITIES OF OTHER CORPORATIONS.

The entire cost of the securities of other corporations held by the company Dec. 31, 1899, was \$120,362,425.97. The direct revenue received therefrom during the year was \$506.15, which amounted to nearly 4 p. c. upon the cost thereof, and more than the interest on the funded debt.

## CAR TRUSTS.

Outstanding certificates of Series "H" and "I" of the Pennsylvania Equipment Trust, which matured during the year, were paid and cancelled. These series covered 1,050 long gondolas, and 1,000 hopper gondola cars in service on the Pennsylvania RR.: 500 cars subleased to the Pennsylvania Co.; 500 box cars subleased to the Pittsburgh, Philadelphia, Chicago and St. Louis Ry. Co.; and 140 box cars subleased to the New York, Philadelphia and Norfolk RR. Co., representing in all 3,515 cars and a total cost of \$2,000,000. These have therefore now become the property of the respective lines which contributed thereto.

Further issue of Car Trust securities was made, consisting of \$130,000 Series "D," Pennsylvania Rolling Stock Trust, bearing interest at the rate of 4 p. c. per annum; \$3,000, Series "H," "I," and "K" Pennsylvania Rolling Stock Trust, and \$2,236,000 series "A," "B," and "C" Pennsylvania Car Trust, bearing interest at the rate of 3½ p. c. per annum, an aggregate of \$5,366,000. There will thus be furnished for the main line 615 steel gondolas, 2,430 box cars, 1,910 hopper, and 594 long gondolas; Northern Central Ry. Co. 270 box cars, 100 steel gondolas, 310 box cars, 100 long gondolas, and 300 flat cars; Pennsylvania Co., 400 steel gondolas and 200 box cars; Lehigh Valley Ry. Co., 150 long gondolas; and Toledo, Peoria and Western Ry. Co., 26 stock cars, an aggregate of 8,405 cars. Of these cars, 3,000 will be subleased for equipment of 30,000 pounds or less capacity. Through this course and the curtailment of vacant numbers by standard equipment, that portion of the rolling stock system which does not carry sufficient lading to justify its retention in service will be eliminated during this and the following year.

Car Trust Series in existence at the beginning of the year were:

Pennsylvania Equipment Trust, Series H, I, and K.  
Pennsylvania Rolling Stock Trust, Series A, B, C, D, E, F, and G.

Certificates issued during the year were:

Pennsylvania Rolling Stock Trust, Series H, I, and K.  
Pennsylvania Car Trust, Series A, B, and C.

Total amount of certificates issued under the said series of the above

was ..... \$15,123,000 00

## FUNDED DEBT.

The outstanding 7 p. c. equipment bonds of the Erie and Pittsburgh RR. Co. which had matured Oct. 1, 1900, having been purchased and cancelled, the general mortgage 8½ p. c. bonds of that company bearing date July 1, 1900, now constitute the only lien upon its property.

Under the terms of the general mortgage of the Cleveland and Pittsburgh RR. Co., a new issue of \$2,000,000 will be issued by the company, bearing interest at 3½ p. c., running 50 years from Aug. 1, 1900, and designated Series "D," to be used in payment for betterments to its property and in the redemption of prior lien bonds. As the last of these prior lien securities matured Aug. 1, 1900, the general mortgage bonds will then become the only lien upon this property. As \$6,863,000 of the consolidated mortgage bonds issued by the Pittsburgh, Cincinnati and St. Louis Ry. Co. will mature Aug. 1, 1900, it was deemed wise to take advantage of the depression of the market and provide for their payment through the issue of a 3½ p. c. bond under the consolidated mortgage of the Pittsburgh, Cincinnati, Chicago and St. Louis Ry. Co. These bonds are part of a series of \$12,000,000, designated Series "E," and running fifty years from Aug. 1, 1899. Of the bonds maturing Aug. 1, \$3,841,000 were outstanding at the close of the year.

Various surrenders and conversions of the bonds issued under the consolidated mortgage of the Pittsburgh, Cincinnati, Chicago and St. Louis Ry. Co. having been made, it will be seen by reference to the general balance sheet (on page 737) that the total amount of the securities outstanding under that mortgage Dec. 31, 1899, was \$30,885,000.

The outstanding 1st mortgage 7 p. c. bonds of the Grand Rapids and Indiana Ry. Co. amounting to \$920,000, having matured Oct. 1, 1899, were, in pursuance of the agreements heretofore made with that company, guaranteed principal and interest by this company and extended at 3½ p. c. until July 1, 1941.

The Cleveland, Akron and Columbus Ry., which forms a connection between Hudson, O., on the Cleveland and Pittsburgh RR., and Columbus, O., on the Pan Handle Road, and also through its Dresden Branch with the latter road at Trinway, was purchased in the interest of this company during the past year. The traffic of this line being naturally tributary to this company's system, and its construction having for that reason been originally promoted in its interest, it was thought advisable when an opportunity offered to acquire the control of this line at a reasonable price, to do so. In order to bring it within the earning capacity of the property, and put it in condition to move it as effectively and economically, a plan of reorganization has been prepared in which the co-operation of all the shareholders has been invited.

By virtue of an agreement under date May 1, 1899, certain amendments have been made in the lease of the Little Miami RR. to the Pittsburgh, Cincinnati, and St. Louis Ry. Co., which were deemed to the interest of all parties. These amendments mainly provided for the retirement of sectional bonds that had matured, and the acceptance, in place of 7 p. c. bonds convertible into the stock of the Little Miami RR.

SINKING FUNDS.

No further redemptions could be made of the 4½ p. c. bonds secured under 1,000,000 mortgage of the Pennsylvania Co., so that the amount outstanding at the close of the year was \$19,467,000. None of the 8½ p. c. trust certificates issued by the company, with the Pittsburgh, Fort Wayne and Chicago Ry. Co. guaranteed stock thereon, could be secured under the terms of the trust. The amount thereof outstanding at the close of the year was \$4,950,000.

The report made by the trustees of the sinking funds of the 1st and 2d mortgages of the Pittsburgh, Fort Wayne and Chicago Ry. Co. shows that they redeemed during the year \$93,000 of the 1st mortgage and \$48,000 of the 2d mortgage bonds, making a total amount redeemed to Dec. 31, 1899: 1st mortgage bonds, \$2,785,500; 2d mortgage bonds, \$3,065,000. With a balance of cash in the hands of the trustees, uninvested, at Dec. 31, 1899: On account of 1st mortgage sinking fund, \$1,277,968.62; on account of 2d mortgage sinking fund, \$1,400,410.34—total, \$2,678,378.96.

The further amount of \$242,553.19 was added to the sinking fund provided for the redemption of the bonds issued under the consolidated mortgage of the Cleveland, Columbus and Cincinnati RR. Co., in addition to the amounts contributed directly to other sinking funds by the individual companies. Under the provisions of the sinking fund established by the act of March 2, 1899, providing for the redemption of the 1st mortgage 7 p. c. bonds of the Jeffersonville, Madison and Indianapolis RR. Co., one of the constituent organizations of the Pittsburgh, Fort Wayne and Chicago and St. Louis Ry. Co., \$1,527,000 of those securities have been redeemed to Dec. 31, 1899, leaving \$1,416,000 outstanding. No further redemption was made of the consolidated mortgage bonds of the Pittsburgh, Cincinnati, Chicago and St. Louis Ry. Co.

The general mtge. bonds are secured, under a deed dated July 1, 1867, by a mortgage of \$35,000,000 on the ada, real and personal estates, premises, hereditaments, etc., made to two trustees for the benefit of the ra. Denominations, \$1,000 or £200. The sterling bonds (£2,781,200) are all in coupon form. Interest eem is payable at the London Joint Stock Bank, Limited, London, Eng. The general mtge. bonds are a upon the main line between Philadelphia and Pittsburgh, while the consol. mtge. (described below) not covers the same line but also the company's leasehold interest in the United RRs. of New Jersey and some \$50,000,000 of bonds and stocks, largely connected with the company's holdings in the lines west ittsburgh.

The consol. mtge. was executed in 1873, and authorized an issue of \$100,000,000 bonds, secured on the re property and franchises of the company, including rolling stock, and also by a deposit of securities of estimated cost value of \$54,025,901.16. All consols are equally secured under the same deed of trust, though ed at different periods. The bonds maturing in 1905 were issued July 1, 1873, July 1, 1874, and June 15, . Of the amount outstanding, £4,693,200 are sterling coupon bonds of £200 each. These sterling bonds be registered as to principal at the company's London agency. Interest is payable in London, Jan. 1 and y 1; principal in London, July 1, 1905. Coupons of the currency issue are payable June 15 and Dec. 15, the registered interest March 15, June 15, Sept. 15 and Dec. 15; principal and interest payable in Phila- hia, Pa. The consol. loan of Sept. 1, 1879, is in coupon and reg. forms—coupon for \$1,500,000, with inter- payable March and Sept.; reg., for \$3,498,000, with interest payable March 1, June 1, Sept. 1 and Dec. 1. are for \$1,000 each. A sinking fund of 1 p. c. is provided, which is applied to purchase of the bonds ar or under, or is allowed to accumulate if they are not. The bonds of May 1, 1893 (\$6,000,000 in all issued), were issued to meet the cost of certain improvements. They are for \$1,000 each, in coupon form, ay be registered as to principal at the registration offices of the company in New York and Philadelphia. bonds of 1879 and those of 1893 are payable, principal and interest, in gold. Interest on the bonds of s payable at the Farmers' Loan and Trust Co., New York.

The issue of July 1, 1895-1945, is a sterling loan, issued to provide means for contemplated improvements o take up securities of other portions of the system, which bear higher rates of interest. The bonds are 200 each, in coupon form, but may be registered at the London Joint Stock Bank as to principal only or rincipal and interest; bonds registered as to principal only may be again made payable to bearer, but nce registered as to principal and interest must remain so. Principal and interest payable at the n Joint Stock Bank.

The authorized issue of the collateral trust loan was \$10,000,000, of which \$100,000 have been retired by etion of the sinking fund. The bonds are for \$1,000 each "to bearer," and are a direct obligation of the any. They are secured by deposit with the Provident Life and Trust Co. of Philadelphia, of \$13,845,000 of subsidiary lines. The bonds are not liable to be drawn or compulsorily redeemed before maturity, sinking fund of 1 p. c. and interest on bonds redeemed will be applied half-yearly to their purchase if can be obtained at or below par and interest. They may be registered with the transfer agent at Phila- ia, in which case no transfer is valid as to principal, except upon the books of the company, unless the ransfer be to bearer, which restores its transferability by delivery. The bonds are subject to successive rations and transfers to bearer at the option of each holder, but the coupons in all cases remain "to r." Interest is payable in gold, free of all taxes, at the Provident Life and Trust Co., Philadelphia, Pa.

The equipment trust gold bonds are for \$1,000 each, in coupon form, but they may be registered in adelphia, both as to principal and interest. These bonds are known as Series A, and are secured by a gage on the equipment purchased with the proceeds. There is provision made in the mortgage for a ng fund of 5 p. c. per annum, to be applied to purchase of bonds at par and accrued interest, or if bonds ot be had at that price, to the purchase of additional equipment, which will be added to the same trust. st is payable in Philadelphia, at the Girard Life Insurance, Annuity and Trust Co.

he real estate mtge. gold bonds are for \$1,000 each, in coupon form or reg. form. Coupon bonds may be ed or may be exchanged for full reg. bonds. The bonds were issued (the authorized amount is \$2 for the purpose of securing the control of the outstanding interests in piers 3, 4, and 5, on the Nor w York. Interest is payable in gold at the Farmers' Loan and Trust Co., New York.

GENERAL REMARKS.

Report of the Managers of the Trust created Oct. 9, 1878, shows that there has been paid by the company, Jan. 31, 1899, the sum of \$4,841,867.87, that on that date securities amounting at par to \$9,792,300 were in the Trust, and that the total income therefrom has been \$7,497,807.60. There was appropriated to the year 1899 the sum of \$91,437.62, and the interest received on securities held in the Trust during the year averaged about 5½ p. c. on their cost.

Dividends of the Mount Holly, Lumberton and Medford RR. Co., amounting to \$75,000, matured April 1, 1899. This company was, under the terms of the lease of the United RRs. of New Jersey, responsible for the maintenance of the road, and as the revenues of the road are not even sufficient to meet its operating expenses, these dividends were paid out of the Trust Fund and delivered to this company.

The statement of the Insurance Fund shows assets on hand at the end of the year of \$4,345,511.85, being an increase, as compared with 1898, of \$275,676.75.

The membership of the Employees' Voluntary Relief Fund of the lines east of Pittsburgh and Erie continued to increase, and aggregated 48,529 at the close of the year, being an increase of 3,368 members as compared with the previous year. The statement of the operations of the Fund shows that during the year the Fund contributed \$797,246.25, while the Pennsylvania RR. Co. and its affiliated lines, in addition to the \$114,817.31 for operating expenses, contributed \$54,353.90 for extra benefits to members whose term of service had continued for over fifty-two weeks, and who were, therefore, no longer entitled to regular benefits from the Fund. The total receipts of the Fund, including interest and other items, were \$980,997.54, and the balance on hand at the beginning of the year, made an aggregate of \$1,369,255.22, of which \$350,227.89 were distributed as death benefits (being an average in each case of about \$586.65), and \$4.96 in cases of disability arising from sickness and accident. After meeting its obligations for the year, a balance of \$371,272.93 remained to the credit of the Fund, out of which must be paid unadjusted benefits growing out of sickness or accident during the year 1899 and previous years. In addition to this balance there is a surplus which has accumulated during the life of the Fund, amounting to \$664,481.90. The statement of the Employees' Saving Fund shows that the number of employees who availed themselves of the Fund also continued to increase, there being 6,670 at the end of the year, an increase of 1,127 over the year. The amount received from depositors during 1899 was \$786,147, and the balance in the Fund, at the close of the year, was \$2,717,709.03. Of this amount, \$2,716,356.68 has been invested in securities, bearing an average rate of nearly 4 p. c. In consequence, however, of the steady decline in the rates of interest on first-class securities, it will be necessary to reduce the rate of interest paid to the depositors in this year to 3½ p. c., taking effect July 1, 1900, and notice thereof has been given.

As will be seen by reference to the income account that the revenues, after paying the regular dividends, for the Sinking Fund, defraying extraordinary expenditures of nearly \$1,000,000, and setting aside a reserve to be used for similar purposes during the current year, were sufficient to leave a surplus of more than \$1,000,000 to be carried to the credit of profit and loss account.

Charges to capital account during the year amounted to \$1,748,255.12, as follows: additional tracks, \$1,000,000; real estate, \$372,478.02; locomotives, \$678,800; car trust equipment, \$350,000.

The first item represents the expenditure upon additional third and fourth tracks between the Gap and the Sang Hollow and Conemaugh, Manor and Shafton, and at South Fork, and the practical completion of the track system over the Allegheny Mountain.

Real Estate charges represent the cost of additional property purchased mainly at terminal points.

Charges to motive power and equipment represent the cost of additional locomotives needed to move the trains, and the usual charges on account of car trust equipment.

Through the special appropriations made for extraordinary expenditures, the work of revising the alignment of the Philadelphia Division, Spruce Creek on the Middle Division, and Irwin on the New York Division, the three points referred to in the last annual report as those where the heaviest outlay was required, was steadily pushed forward, and will be completed during the present year. The pneumatic signals were also extended from Monmouth Junction to Rahway, thus completing that additional outlay on the New York Division. Additional pier and other terminal facilities were also provided at New York and Williamsburgh, and further expenditure made in equipping the freight cars with air brakes and automatic couplers in pursuance of the requirements of the Interstate Commerce legislation.

Other revisions of alignment were made, additional yard and storage tracks provided, increased facilities furnished at the piers and wharves in Philadelphia and New York Harbor, and other extraordinary expenditures made in improving the equipment and otherwise, requiring, in addition to the fund set aside for the purpose, an outlay of \$989,228.41, as heretofore stated in the income account on page 669.

A larger portion of the funds required for this class of work on the United RRs. of N. J. Div., including the completion of the passenger station at Jersey City, the improvements at Harsimus and Desbrosses Street, and the additions to the floating equipment in New York Harbor, was supplied out of its own income. As will be seen by reference to the income account of that division that the aggregate of these charges exceeded the amount charged in 1898 by over \$500,000. It is satisfactory to find the revenue of this property sufficient to meet all its liabilities but provide, to a great extent, for the requirements of its increasing traffic.

There were practically no charges to capital account on branch and auxiliary lines, with the exception of the amount invested in the purchase of additional real estate. The extraordinary expenditure was mainly in the construction of branches on the Cambria and Clearfield, Bald Eagle Valley, and South West Pennsylvania RRs., the construction of second track, yard tracks, and sidings on the Pittsburgh, Virginia and Charleston Ry., and the extension of the West Jersey and Seashore RR. by inaugurating the work of stone ballasting the track on the Atlantic City Division and equipping it with pneumatic automatic signals.

A considerable outlay will be necessary during the current year to provide for the growing traffic, through the construction of third and fourth tracks, the increase of yard and other freight facilities, the establishment of pneumatic automatic signals, and additions to power and equipment. The bridge over the Susquehanna River at Rockville needs reconstruction, and the rebuilding of the Pittsburgh Passenger Station and the readjustment of the tracks and readjustment of facilities at that point will involve a heavy expenditure. The legislation having but recently been obtained from the municipal authorities of that city, it was not possible to take up this question during the past year. On the United RRs. of New Jersey Division, the revision of the line will be necessary, and the completion of the ferry house and stone bulkhead at Jersey Street, additional tracks at Harsimus, new passenger tracks at Hackensack, and the improvement of the New York Yard will also require large disbursements, while further additions are necessary to the floating equipment.

Attention is particularly directed to the very large increase in the tonnage over that of the previous year. The increase on the three grand divisions east of Pittsburgh and Erie was nearly 16,000,000 tons, an amount which exceeds the whole tonnage moved over the same lines in 1875, or in any year previous thereto. It is gratifying to state that the traffic was moved with exceptional regularity and dispatch, and without any delay or loss of time either on the lines or at the terminals. But for the liberal and judicious expenditures made for extensions of third and fourth tracks, freight yards, and terminal facilities, as well as for

additional locomotives of greatly increased power and freight cars of enlarged capacity, it would be impossible to move the volume of traffic suddenly thrown upon the lines.

While the growth of traffic and its successful movement are subjects for congratulation, reduction in the average ton-mile rate has to be reported. For years the compensation of the trunk moving freight traffic has steadily decreased. On this road it appears that with but one exception, been in each year since 1889 a decrease in the rate from that of the preceding year, so that from per ton mile of 0.686 cent in 1889, the rate fell to 0.499 cent in 1898, and last year to 0.473 cent, point ever reached. As may be supposed, railway managers have not seen this constant reduction as a serious concern, or without making strenuous efforts to check the downward movement. These efforts met with but little success, and although no commercial necessity has recently existed for such and certainly not during the past year, when the industries of the country enjoyed a prosper unprecedented, and when the facilities of the railways were taxed to the utmost, the fall in rate continued. Had the railway companies not been able to meet the diminution in the ton-mile rate corresponding reduction in expenses, disastrous results must have followed. But there is a limit, and it is far off, to the possible lessening of the cost of movement. The only alternative is to arrest the fall in revenue, which has been largely brought about by apparently uncontrollable conflicts between the companies, and between rival communities. It must be admitted that the situation is complicated by problems involved in dealing with traffic questions covering so vast a territory, and affecting so many varied interests, are troublesome and intricate, but they are not incapable of solution, and it is believed that earnest and united effort the difficulties in the way may be met and overcome. With this end in view to establish closer relations between the managers of the trunk lines, it has seemed wise to the Board to acquire an interest in some of the railways reaching the seaboard, and to unite with the others who control those properties in supporting a conservative policy. This will, it is hoped, result in reasonable and stable rates and do away with unjust discriminations that are the inevitable result of the course that has been heretofore pursued. Aside from the indirect benefits thus sought to be gained, it is believed that these holdings will as investments be directly profitable.

The contract with the Pullman's Palace Car Co., under which its equipment was run on the trains of this company, being about to expire, a new and satisfactory agreement was concluded with that company, taking effect Jan. 1, 1900, and running for 15 years, under which a material saving will inure to this company's benefit.

The two ferry companies operating between Philadelphia and Camden were consolidated during the year into the Philadelphia and Camden Ferry Co., thus securing a more economical and effective management, further strengthening the financial condition of the property.

After careful consideration for a number of years, a Pension Department has been created, having for its object the retirement from service of all officers and employees who have attained the age of seventy or who, being between the ages of sixty-five and seventy years, shall have been thirty years in service or who are physically disqualified. The pension allowance is based upon length of service and average pay for ten years preceding retirement, and the sum of \$230,000 per annum is fixed as the maximum amount of the company's annual liability.

**United New Jersey RR. and Canal Co.**—Jersey City to Trenton, N. J., 56.54 m.; Amboy to Camden, N. J., 61.15 m.; branches, 26.15 m.—total, 143.84 m.; 2d track, 93.23 m.; 3d track, 55.85 m.; 4th track, 55.87 m.—total (steel, 312.33 miles. Canal owned: Bordentown to Brunswick, and feeder, 66 miles. The Delaware and Raritan Canal Co. and the Camden and Amboy Canal Co. were both chartered Feb. 4, 1830, to construct a canal to connect the Delaware and Raritan Rivers, and the latter to build a rail line from the Delaware River to Raritan Bay. In 1834 an act was passed authorizing the consolidation of the capital stocks of these two companies; thus practically consolidated, although nominally distinct corporations. Their affairs were managed jointly by the directors of both, and the shareholders shared equally in profits. Under this arrangement the construction of the works was completed in 1834, and the branches in 1838. In 1854 the companies acquired a controlling interest in the Philadelphia and Trenton RR. Co.

an agreement with that company for division of their joint profits. In Jan., 1871, an agreement was entered into between the U. N. J. RR. and the New Jersey RR. and Transp. Co., which owned the line between New York and Jersey City, forming a link in the New York-Philadelphia route, for a consolidation of interests; and under this agreement the profits were equally divided between the four com-

panies—the Delaware and Raritan Canal Co., the Camden and Amboy, the New Jersey, and the Philadelphia and Trenton RR. Cos. On June 30, 1871, the entire property was leased to the Penn. RR. Co. for 999 years, the lessee receiving all assets and assuming all obligations, and guaranteeing to the United Cos. an annual rental equal to 10 p. c. on the aggregate capital stock, and an equal rate of dividends to the Philadelphia and Trenton.

1st mtge. River Division bonds, all but \$5,000, were paid off to Dec. 31, 1898. Having found it le to ascertain the ownership of these five bonds, the trustee has entered satisfaction of the mortgage a the records after filing a proper bond of indemnity as security. The 1st mtge. Low Grade Division e for \$1,000 each, in coupon form; 2d mtge. bonds are registered; the gen. mtge. bonds are for \$1,000 upon or registered. Trustees: River Division bonds, Fidelity Title and Trust Co., Pittsburgh, Pa.; de lts, W. J. Howard, Philadelphia, Pa. Interest on Low Grade Division lts payable at Penn. RR. ce, Philadelphia, Pa.

2d mtge. bonds become due and are payable \$100,000 a year, from and after Jan. 1, 1875. The amount was \$3,500,000, and to Jan. 1, 1900, 25 annual payments had been made, reducing the amount 1,000. Interest payable at company's office, Pittsburgh, Pa.

gen. mtge. bonds were issued under the plan of reorganization. They are unconditionally guaranteed, to principal and interest, by the Penn. RR. Co., by endorsement on each bond. Authorized amount, 00, of which \$17,100,000 (being the principal and 8 p. c. additional of the prior liens not divested of urity) were reserved to retire the prior liens at maturity, and \$1,000,000 for improvements and better- o the property. In June, 1895, the company sold \$4,000,000 of these bonds, the proceeds of which were to the redemption of \$4,000,000 River Division 1st mtge. bonds that became due March 1, 1896. During 1,000 of these bonds were issued, \$100,000 to provide for the \$100,000 Low Grade Division 2d mtge. aturing Jan. 1, 1897, and \$1,000 for an equal amount of bond scrip converted. The increase of \$1,000 1897, was for \$1,000 of bond scrip converted, and the increase of \$100,000 each in 1898 and 1899 was de funds to retire a like amount of 2d mtge. Low Grade Division bonds, due Jan. 1, 1898 and 1899. payable at Penn. RR. Co.'s office, Philadelphia, Pa. Trustee: Fidelity Title and Trust Co., Pitts- 2.

Penn. RR. Co. agrees to purchase the interest on the 1st 7s of 1910 as it falls due, and the bonds es at maturity. During 1896 the coupons which had been purchased and were held by the Penn. RR. paid off with preferred stock. The Low Grade Division lts are a 2d mtge. on the River Division.

Scrip issues.....	8,290 07

The consol. mtge. bonds, \$1,714,000 are in the sinking fund and not included in the above list. Ref the liens of the 2d, 3d and 4th mortgages were secured from the trustees and discharged during 1893. Consol. mtge. bonds are secured by a lien on the whole road. The gen. mtge. bonds were authorized in 1891. The Series " A " bonds were issued for the following purposes: To retire 4th mtge. bonds and scrip (matured Jan. 1, 1892), \$1,100,000, to be exchanged, bond for bond, for construction and equipment bonds, as agreed by the Pa. RR. Co., \$1,010,000; to pay lessee for betterments for the years 1887 to 1891, inclusive, any further amount necessary to pay for same to be applied toward the lease the lessee on account of bonds which have been redeemed under the sinking fund clauses, \$890,000—\$13,000,000. The remainder of the authorized issue (\$7,000,000) is reserved for retirement of prior lien for betterments, etc. A second series of bonds under the provisions of this mortgage—Series " B," for \$100—was requested by the lessee, and authorized by the directors in May, 1892. The bonds of this series run for 50 years from Oct. 1, 1892, with interest, payable April and Oct., at 4½ p. c. per annum. They carry the guarantee of the Pa. RR. Co. in the same form as that placed upon the bonds of Series " A," and in all other respects the same in form as the Series " A " bonds. All the Series " B " were issued up to Dec. 31, 1898. Series " C " bonds are dated Nov. 1, 1898, and \$34,000 of them were issued up to Dec. 31, 1898, and \$25,000 additional during the past year. On March 14, 1900, there were listed on the New York Stock Exchange the entire authorized amount of Series " C " bonds, of which \$34,000 were issued to the Pennsylvania RR. Co., lessee, in accordance with the terms of the mortgage, for account of a balance due the lessee, under the provisions of the lease of this company's property to the Penn. RR. Co. for an equal number of the consol. and equipment bonds of the Cleveland and Pittsburgh RR. Co., retired in the sinking fund with the bonds furnished by the P. RR. Co., lessee. The remainder (\$2,966,000) was issued to the P. RR. Co., lessee, \$10 of which are to apply on account of betterments placed upon this company's property for 1898, and \$2,956,000 are to provide for the redemption of the consolidated and sinking fund mortgage bonds of this company, which will mature Nov. 1, 1900. Bonds of all issues are for \$1,000 gold each, in coupon form, with certificate of registration; principal and interest and installments for sinking fund guaranteed (by endorsement) by the Pa. RR. Co. A sinking fund of not less than 1 p. c. of the total amount outstanding is provided for the redemption of gen. mtge. bonds, whenever they can be purchased at or under par and accrued interest. Trustar of bonds: Winslow, Lanier & Co., New York, N. Y. By an agreement entered into with the Farmers' Loan and Trust Co., trustee of the consol. sinking fund bonds of 1900, no further issues of those bonds will be made. The lessee agrees to accept the bonds of the new gen. mtge. for all betterments hereafter to be made. Trustee of bonds: Farmers' Loan and Trust Co., New York, N. Y. Interest payable at the office of Winslow, Lanier & Co., New York, N. Y.

#### FURTHER PARTICULARS REGARDING THE FUNDED DEBT.

The consol. mtge. bonds (Series "A," "B," "C," "D," and "E") are secured on "the entire railway and estates, personal and mixed, acquired and to be acquired, also all franchises, including the right to be a corporation." Authorized issue, \$75,000,000, which may be issued in different series and at different dates, designated by the different letters of the alphabet, from time to time as the directors determine, and the different series may bear different rates of interest. The authorized amount of series "A" and "B" is \$10,000,000 each; series "C" is \$2,000,000; series "D" is \$8,000,000, and series "E" is \$5,756,000. Nos. 1 to 10,000 inclusive (series "A"), of which \$10,000,000 are outstanding, are dated Oct. 1, 1890, and run 50 years, to Oct. 1, 1940. Nos. 10,001 to 20,000 inclusive (series "B"), of which \$8,756,000 are outstanding, are dated April 1, 1892, and run to April 1, 1942. Nos. 20,001 to 22,000 inclusive (series "C"), of which \$1,379,000 are outstanding, are dated Nov. 1, 1892, and run 50 years, to Nov. 1, 1942. Nos. 22,001 to 28,000 inclusive (series "D"), of which \$4,983,000 are outstanding, are dated Nov. 1, 1895, and run 50 years, to Nov. 1, 1945. Nos. 28,001 to 40,000 inclusive (series "E"), of which \$5,737,000 were outstanding on Dec. 31, 1899, are dated Aug. 1, 1899, and run 50 years to Aug. 1, 1949. The bonds are for \$1,000 each, principal and interest payable in gold at the Farmers' Loan and Trust Co., New York, N. Y. A sinking fund of 1 per centum on the bonds outstanding is provided for the retirement of these bonds, effective on and after Jan. 1, 1895; if, however, bonds are not obtainable at par or less, the 1 p. c. lapses into the treasury. During 1896 \$137,000 of "D" bonds were retired through the operation of the sinking fund. Bonds are in coupon form, but principal may be registered at the trustees' office. Trustees: Farmers' Loan and Trust Co., New York, and William N. Jackson, Indianapolis, Ind. A sufficient number of these bonds is reserved for the payment of prior lien bonds. The Pennsylvania Co. unconditionally guarantees principal and interest on these bonds, and the guarantee is endorsed on each bond. On Feb. 28, 1900, there were listed on the New York Exchange \$5,859,000 series "E" bonds, which had been issued in exchange for the following prior lien bonds: C. & St. L. 1st consols, \$3,144,000; consols, series "B," \$1,214,000; consols, series "C," \$221,000; consols, series "D," \$880,000—total, \$5,859,000, and there still remain to be exchanged at or before maturity, \$3,719,000 1st consol. 7s of the P., C. & St. L. Ry. Co., for which there will be issued a like amount of consol. mtge. series "E" bonds. Upon the retirement of the P., C. & St. L. Ry. Co. 7s, this consol. mortgage of the P., C., C. & St. L. Ry. Co. becomes a first mortgage on the property covered by the P., C. & St. L. 7s between Pittsburgh and Steubenville, and upon the retirement of the remaining \$12,030,000 of bonds of the system (which cannot be extended) they will be a first mortgage on the entire property of the P., C., C. & St. L. Ry. Co.

The P., C. & St. L. Ry. 1st consol. mtge. bonds are secured on the main line from Pittsburgh to Newark, O., and on Bridgeville and McDonald, and New Cumberland Branches as far as constructed, Sept. 30, 1890, and undivided one-half of line from Newark to Columbus, O., in all about 215 miles. They are for \$1,000 each, coupon and registered, interest payable at the office of the Penn. RR. Co., Philadelphia. In June, 1899, the holders of these bonds were offered the privilege of refunding them at par into P., C. & St. L. Ry. consol. mtge. gold bonds, Series E, those making the exchange to receive \$24.10 in new bonds for every \$1,000 exchanged. The new bonds bear interest at the rate of 3½ p. c. per annum, and mature in 1949.

The Steubenville and Indiana RR. bonds are secured on the line from Steubenville to Newark, O., 102.22 miles. Interest payable at the National City Bank, New York, N. Y.

The C., St. L. & P. RR. consols are secured on 580.52 m. of railroad, as follows: Columbus, O., to Indianapolis, Ind., 187.13 m.; Bradford Junction, O., to Chicago, Ill., 230.98 m.; Richmond, Ind., to Ankeny, Ind., 102.22 m.; and Logansport, Ind., to Illinois State Line, 60.19 m.—total, 580.52 miles. Authorized issue, \$22,000,000. Bonds are for \$1,000 each, in coupon form, but may be exchanged for registered bonds at any time. Trustees: Union Trust Co., New York, N. Y., and Conrad Baker. Principal and interest payable in gold, at the Union Trust Co., New York, N. Y.

The Little Miami mortgage is a lien on the road from Cincinnati to Springfield; the Dayton and Western mortgage is a lien on the road from Dayton to Indiana State Line; and the Cincinnati Street Car Connection mortgage is a lien on the road from Cincinnati to the Little Miami and Columbus tracks etc. in Cincinnati. The renewal mtge. bonds were issued to take up bonds maturing in 1905 by the Little Miami and Columbus Rys.

Cincinnati Street Connection Ry. bonds were issued jointly by the Little Miami Co. and the Cincinnati and Indiana RR. Co., and were guaranteed by the two companies, but the Cincinnati, St. Louis and Chicago Ry. Co., successor to the Cincinnati and Indiana, repudiated all liability of them. The betterment mtge. bonds are to be issued to the lessee from time to time, as betterments and improvements to the property, and are convertible into common stock when the company. In Jan., 1900, it was voted to reduce the interest on these bonds from 7 p. c. to 6 p. c. (statement on page 740). Interest on renewal bonds and on Dayton and Western bonds payable to the Little Miami Co. of America, New York, N. Y.; on Cincinnati Street Connection Ry. bonds, at the company's option, O. Trustees: Renewal bonds, Julius Dexter; betterment bonds, Cincinnati Safe Deposit Co., Cincinnati, O.

**History.**—Incorporated in Michigan, July 11, 1896, and in Indiana, July 13, 1896, to take over the railroad and property of the Grand Rapids and Indiana RR. Co., which was under foreclosure on June 10, 1896, on the application of the trustee under the 2d mtg. property was transferred to the new company on Aug. 1, 1896. (See MANUAL for page 778.) The removal of the timber having made it unnecessary to operate the Lake Branch, 5.84 m., during 1899 the rails were taken up.

For traffic returns, earnings, etc., of operated lines and terms of contracts with Grand Rapids and Indiana Ry. Co., reference should be made to the statements for their respective companies. (See GENERAL INDEX.)

**History.**—For early history, see MANUAL for 1899, page 833. This comprises the St. Louis, Vandalia and Terre Haute RR., under a lease for 999 years, at rental of 80 p. c. of the gross earnings, with a guarantee, jointly with the Pittsburg, Chicago and St. Louis Ry. Co., of interest on the mortgage bonds. The Terre Haute and Logansport RR. and the Indiana and Lake Michigan Ry. were formerly operated by a separate company, but were recently reorganized—the former as the Terre Haute and Logansport RR. Co., and the latter as the St. Joseph, South Bend and Southern RR. Co.—and merged into this company's system (see GENERAL INDEX for statements of these companies). In 1893 the Pennsylvania RR. Co. purchased a controlling interest in the stock of this company. Default was made on interest Sept. 1, 1896, on the bonds of the Terre Haute and Peoria RR. Co. and a suit was brought by the bondholders of that company to secure the appointment of a receiver and compel an accounting by the lessee. As a result of this suit a receiver was appointed for the entire system on Nov. 13, 1896. (See subjoined statement.)

**Extract from the company's report for 1898-99 :**

" No decision having been reached in the litigation over the payment of the interest on the Terre Haute and Peoria bonds, the balance of rental due the T. H. & P. RR. Co. left after the payment of coupons has been held by the receiver in the Peoria Special Fund. At the close of the fiscal year seven coupons, each for \$55,750, had been defaulted, which, with interest to Oct. 31, 1899, amounted to \$3,902,500. The balance of unapplied rental was \$250,811.54, leaving a deficit of rental to be met by the lessee and guarantee should be held to be valid, of \$178,463.46.

" Since the close of the fiscal year a decision rendered by the Supreme Court of Illinois is in effect that we have not the right to use the Peoria terminal facilities of the Peoria and Pekin Union RR. Co. at a rental of \$13,000 per annum as claimed under the so-called Genis contract, and that there is no rental at the rate of \$22,500 per annum from Oct. 1, 1892. Since that date payments have been made at the smaller rental pending the determination of the litigation. On Dec. 1, 1899, there was due for balance of rental and for interest on the judgments obtained the total sum of \$72,696.22, which is \$71,612.89 in excess of the sum required to be paid if our contention had been sustained, and which is in addition to costs and legal fees. The receiver has made payment in full, and will hereafter pay rental at the increased rate.

## SEABOARD AIR-LINE RAILWAY.

(For map of this system, see between pages 760 and 761.)

—This company was organized on April 14, 1900, as successor to the Richmond, and Carolina RR. Co. The purpose of the incorporation is to affect a consolidation of all railroads embraced in the Seaboard Air-Line System with the Georgia and Ala- and the Florida Central and Peninsular RR. As stated in the MANUAL for 1899, controlling interests were acquired in the Seaboard Air-Line Companies and in Central and Peninsular RR. Co. by the principal owners of the Georgia and Ala- and steps were taken to consolidate all three systems under one corporate owner- ursuance of this object the *Richmond, Petersburg and Carolina RR.* was pur- completed from Richmond, Va., to Ridgeway, N. C., while the gap between d Air-Line and the Florida Central and Peninsular was filled by the construction *erfield and Kershaw RR.*, from Cheraw to Camden, S. C., and by the extension h Bound RR. from F. C. & P. Junction, 3 miles south of Columbia to Camden, les. Both of these lines were completed in April, 1900, and the through line burg, Va., to Tampa, Fla., was opened for business on May 10, 1900. lowing statement shows as of July 1, 1900, the mileage embraced in the Greater

e which connected the Seaboard Air-Line system with the Florida, Central and system from Cheraw, S. C., to Cayce Junction, S. C., 91 miles, was begun in of 1899, and completed and the operation of through freight trains over it began 0.

hmond extension, from Ridgeway Junction, N. C., to Richmond, Va., was com- hrown into operation for passenger trains June 8, 1900. The operation of through ns from Ridgeway Junction, via Petersburg, to Richmond, was commenced on , the date on which the Seaboard Air-Line Belt line from the Union Depot in ur miles north to the Richmond, Fredericksburg and Potomac RR. Junction was perated. The new system therefore began its new fi-cal year on July 1, 1900, iles of road in operation.

On July 1, 1900, the Seaboard Air-Line Ry. assumed the operation of the Georgia Alabama Ry., and the Florida Central and Peninsular RR. system, under an operating contract; nearly the entire capital stock of both the Georgia and Alabama Ry., and the Florida Central and Peninsular RR. being owned by the Seaboard Air-Line Ry.

The Seaboard Air-Line also owns 100 per cent. of the capital stock of twelve of the member railroad companies embraced in the consolidated system; between 98 and 100 per cent. of four more—the only road in the system in which the Seaboard Air-Line Ry. owns less than a nine-tenths of the capital stock being the Seaboard and Roanoke RR., 81 miles, in which the Seaboard Air-Line Ry. ownership is about 80 p. c., the total mileage of the Seaboard and Roanoke RR. being less than 4 p. c. of the total mileage of the system.

**GREATER SEABOARD AIR-LINE SYSTEM.**—The following is a statement of the earnings from operations of the several properties, and does not include interest on bonds and dividends on stocks, which are owned by some of the roads embraced in the following system. Such income, if included, would make a corresponding increase in earnings:

**Financial Statement, June 1, 1900.**—The authorized capital stock of the company is \$2,500,000, consisting of \$25,000,000 of preferred stock and \$37,500,000 of common stock. The plan of consolidation contemplates the issuing of \$16,000,000 of the preferred stock and \$8,000,000 of the common stock, the remaining shares of common and preferred stock being reserved for the future use of the company. On April 14, 1900, the company executed a mortgage in favor of the Continental Trust Co., of Baltimore, Md., trustee, to secure an issue of \$75,000,000 first mtge. 4 p. c. 50-yr. gold bonds, of which \$31,500,000 are to be issued at once, the residue to be held for the future use of the company.

**History.**—Organized July 29, 1895, as successor to the Savannah, Americ  
gomery Ry. (See MANUAL for 1898, page 147.)

The company leases, for 101 years from April 1, 1896, with the right of p  
newal on the same terms, the line of the Central of Georgia Ry., from Meldrim  
Ga., 58 miles, at a rental of \$43,500 per annum, being 5 p. c. on \$15,000 per  
leased. As a guarantee of the faithful compliance of this company with the t  
lease, the Guaranty Trust Co. of New York holds in trust \$135,000 of this co  
consol. mtge. bonds.

The company at the same time that the lease was made secured trackage rig  
miles of the Central of Georgia Ry., from Meldrim to Savannah, at a rental of  
annum and proportion of cost of operation and maintenance, and the use of th  
facilities of the Ocean Steamship Co. and of the Central of Georgia Ry. Co. in S  
favorable terms. (See MANUAL for 1898, page 147.) On July 1, 1900, the comp  
tinued the use of both tracks and terminals, having built its own line from  
Savannah, 17 miles, and began the use of the extensive terminals which this co  
trols through the *Georgia and Alabama Terminal Co.*, including about 1,200 ac  
on Hutchinson's Island, directly opposite the city of Savannah, on the Savannah  
including about 1½ miles of water front.

The company also abandoned, July 1, 1900, the use of the property of the M  
Terminal Co., at Montgomery, Ala., which has heretofore been used at a cost of  
annum, besides interest and taxes, and is now using its own well-located and ample  
saving thereby about \$12,000 per annum. (See MANUAL for 1898, page 147.)

The Georgia and Alabama Ry. owns, in the business section and in the suburb  
gomery, valuable terminal property, aggregating about 60 acres. This property

The \$4,500,000 4 p. c. cumulative preferred stock was issued in exchange, at par, for the 2d non-cumulative 5 p. c. stock. It has preference as to principal, and is exchangeable for bonds issued under any 1st 4 p. c. mortgage.

Funded debt outstanding, June 30, 1899, consisted of :

1st mtge. main line 5 p. c. 30-yr. \$1,000 gold coupon bonds, due July 1, 1918, int. Jan. and July.....\$3,000,000  
2d mtge. land grant extension 5 p. c. 40-yr. \$1,000 gold coupon bonds, due Jan. 1, 1930, int. J. & J. .... 415,000  
3d consolidated mtge. 5 p. c. 50-yr. \$1,000 gold coupon bonds, due Jan. 1, 1943, int. Jan. and July.... 4,372,000  
The 1st mtge. main line bonds constitute an issue of \$3,000,000 (Nos. 1 to 3,000), secured by a mortgage July 12, 1888, to the Central Trust Co. of New York, trustee. They are coupon bonds with privilege of registration; interest payable Jan. and July, at the Guaranty Trust Co., New York, N. Y. These bonds are secured on the following lines: Fernandina to Cedar Keys; Hart's Road to Jacksonville; Jacksonville to Chat-  
ahoochee River, with branches to Monticello and St. Marks; Waldo south to Plant City, with branch from  
Plant City to Tavares; and Panasoffkee Lake to Sumterville—a total length of 573.5 miles.  
The 1st mtge. land grant extension bonds are secured on the following lines: Plant City to Tampa, 22.5  
miles; Tavares to Orlando, 32 m.; Archer to the Eagle and Early Bird and other phosphate mines, 32.18 m.; Turkey  
Station to the Alafia River, 5.09 m.—total, 91.77 m., and also by 2d mtge. on the lines covered by the main  
1st mortgage. The company acquired by building to Tampa, 67,000 acres of land, valued at \$121,000,  
and entitled to receive from the State of Florida 122,880 acres of land for the line from Tavares to Orlando.  
Only 5,000 acres of the latter grant have been deeded. These lands are covered by this extension  
mortgage, and the proceeds of their sale is to be applied to the purchase, at the market price, and the  
redemption of the bonds. The amount of bonds authorized by the mortgage is \$500,000, and \$468,000 thereof  
has been issued; but of this amount \$53,000 was retired up to June 30, 1899, and \$5,000 thereafter. The remain-  
ing 2,000 of bonds authorized will not be issued. Interest payable at the Guaranty Trust Co., New York,  
N. Y. Trustee: Atlantic Trust Co., New York, N. Y.  
The 1st consol. mtge. bonds are authorized at a rate not exceeding \$10,000 per mile of completed road,  
for the purpose of retiring the 1st preferred stock (\$1,582,000), for the redemption of \$3,423,000 prior bonds,  
and for the construction and acquisition of other roads, branches, and extensions. Authorized issue, \$7,800,000.  
They are secured by 1st mtge. on the line from Hart's Road to Savannah, Ga., 113.32 m., and by 2d mtge.  
on other lines. They are for \$1,000 each, in coupon form, with privilege of registration; interest payable  
at the office of the trustee, the Guaranty Trust Co. of New York.

**Summary.**—Length of lines included in traffic returns of the company, 7,000. worked for account of owners, 732.4 m.; lines under construction, including Columbia and Western Ry. (Robson to Midway and branches) which, although practically complete, not in operation at the end of the year, 249.9 m.; lines controlled (Minneapolis, St. Paul and Sault Ste. Marie Ry., 1,245.0 m.; Duluth, South Shore and Atlantic Ry., 589.0 m.)—total length of system, 9,816.9 miles. The lines worked for account of owners are Montreal and Atlantic, 184.4 m.; the Qu'Appelle, Long Lake and Saskatchewan, 255.0 m.; the Calgary and Edmonton Rys., 294.4 m.—total, 732.4 miles. Their receipts are not included in the accounts of the Canadian Pacific Ry. Co., nor is that company liable to any rent charge in respect of them.

**History.**—Chartered Feb. 17, 1881; main line opened throughout on May 26, 1881. Branches and leased lines were built or acquired at different periods. (See MANUAL OF RAILROADS.) The company runs a line of mail steamers monthly between Vancouver and China under a contract entered into in 1890, the British and Dominion Governments combining to give the company a subsidy of £60,000 per annum for ten years in consideration of the connection made between the Pacific terminus and San Francisco by means of the Coast Steamship line.

The company owns a controlling interest in the Duluth, South Shore and Atlantic Ry., 583 m., and the Minneapolis, St. Paul and Sault Ste. Marie Ry., 1,273 miles. It owns the 4 p. c. consol. mtge. bonds, principal and interest of the former, and 4 p. c. on the bonds of the latter. (See statements for those companies.)

By an agreement dated July 26, 1892, between this company, the Grand Trunk Ry. Co. and the city of Toronto, this company secures in perpetuity land for station purposes named at a specified rental, to be increased at the end of each fifty years at the rate of 4 p. c. on each previous rent; and a second agreement, made on the same day, between the two railroad companies, provided that the Union Station should be altered and extended, the company paying for joint use of the new station a rental equivalent to an agreed percentage of the value of the properties then supplied by the Grand Trunk, and also a percentage of the cost of rebuilding the station.

The Toronto, Hamilton and Buffalo Ry. Co. is controlled by the New York Central, Canadian Southern, Michigan Central, and Canadian Pacific Cos. (see GENERAL INDEX and MANUAL OF RAILROADS for 1897, page 853). This company's joint use of the Grand Trunk Line between Toronto and Hamilton went into effect on the opening of the Toronto, Hamilton and Buffalo Ry. Co. for regular traffic.

This company has a traffic agreement with the Seattle and International Ry. Co. (see MANUAL OF RAILROADS for 1897, page 584), extending from a connection with this system at Huntington, on the International Boundary, southward through the Puget Sound country to Seattle, Wash. This involves no financial responsibility on the part of this company.

At the annual meeting, April 7, 1897, the stockholders approved the purchase of the Montreal and Western Ry., extending from St. Jerome, P. Q., to a point beyond St. Jerome, about 70 m., which line was for a number of years worked by the company for a percentage of its earnings. The agreement to purchase provides that the railway shall be the property of the Canadian Pacific Ry. Co. on the payment of thirty annual instalments of \$28,000. The stockholders also approved an arrangement for working the Qu'Appelle, Long Lake and Saskatchewan Co. for a term of five years, from Aug. 1, 1898, the

act as agent and assuming no financial responsibility. The agreement is substantially the same as that with the Calgary and Edmonton Ry. Co., which was approved at the annual meeting held in April, 1896.

In Jan., 1897, the company completed the purchase of the entire property of the Columbia and Kootenay Navigation Co., consisting of steamboats, barges, warehouses, etc., and assumed control thereof on Feb. 1, 1897. By this acquisition the Canadian Pacific Ry. Co. is enabled to reach the traffic of the mining districts of Southern British Columbia without making use of steamboat connections controlled by other companies.

By an agreement dated March 16, 1896, this company leased to the Hull Electric Co., its power branch, extending from Hull to Aylmer, about 7.5 miles. The agreement provided that the line should be equipped and ready for operation as an electric road on or before Jan. 1, 1896, whereupon a lease of the branch to the Electric Co. for the period of 35 years, at an annual rental of \$5,000, would be executed.

#### EXTRACTS FROM THE COMPANY'S REPORT FOR 1899.

The Columbia and Western Ry., from Robson to the Boundary Creek District, has been completed, and a consolidated debenture stock to the amount of £960,000, was created and sold for the purpose of securing the bonds of the Columbia and Western Ry. Co. The bonds are now in the company's treasury and are secured by the securities held against debenture stock issued.

During the past year branch lines from Deloraine to Wascada, 18 miles in length, and from La Riviere du Tonnerre to Lake, 16 miles in length, were built in Manitoba for the purpose of reaching important settlements; the extension of the Pipestone Branch, 50 miles westward from its present terminus, was commenced, to provide railway facilities for the productive country in the Moose Mountain District; a branch line, 26 miles in length, from McGregor in the direction of Varcoe, was partially constructed to protect valuable territory, and was commenced on another branch line, 24 miles in length, from Molson to Lac du Bonnet, in order to reach the timber district tributary to English River.

An arrangement was made with the Arrowhead and Kootenay Ry. Co. to build a portion of their line, 10 miles in length, in order to comply with the terms of their charter, and to serve the Trout Lake mining district in British Columbia. The arrangement contemplates a lease to this company of the line on the basis of actual cost.

At the annual meeting, April 4, 1900, the stockholders authorized the expenditure of \$1,489 for the following purposes: For improvements, etc., at Montreal and Winnipeg, \$100; for permanent wharves and other terminal works at Vancouver, \$98,817; for improvements to permanent way, \$978,744; for increased yard and other facilities at various points on the system, \$461,928; and for additional rolling stock, \$975,000. They also approved the lease of the Great North West Central Ry., extending from a point on this company's line near Brandon, Manitoba, in a northwesterly direction for a distance of 50 miles, and an extension now in course of construction, 20 miles in length.

**Rolling Stock, Dec. 31, 1899.**—Locomotives, 690. **Common Stock.**—The original share capital was \$5,000,000, issued at par, which was increased to \$20,000,000 on May 10, 1882, the \$20,000,000 new stock being sold to shareholders at 25 p. c. of par. In 1882, the capital was increased to \$100,000,000, and \$40,000,000 of the increase was sold at an advance of 52 p. c., the balance being deposited with the Dominion Government. In 1885 the \$35,000,000 of common stock was cancelled and the common stock thus reduced to \$65,000,000. All certificates of stock were stamped so as to show this reduction. (See Manual for 1896, page 993.) Outstanding shares of \$100 each may be converted, at any time, at the holders' option, into sterling ordinary shares of £100 each. The certificates are kept in London and also at the branch of the Bank of Montreal in New York. The New York register may be transferred to the London register free, and shares are also discharged from the New York register without cost; but a small fee is asked for obtaining fresh certificates from New York. Such discharged warrants, or for executing transfers on the New York register. Shares on the London register commonly pass from hand to hand as if unregistered; any person holding shares not registered in his name must claim the dividend from the person in whose name the shares stand.

**Preference Stock.**—In 1893 an act was obtained of the Dominion Parliament by which preference stock may, with the consent of the shareholders, be issued up to an amount not exceeding one-fourth of the ordinary stock outstanding, such preference stock to rank for dividends up to 4 p. c. on the ordinary stock, and to have the same voting power as the ordinary shares—one vote for every £20 or \$100. Dividends on the preference stock are cumulative.

During the past year £1,200,000 of 4 p. c. preference stock was created and sold, for the purpose of meeting expenditures for rolling stock, additions, and improvements, authorized by the shareholders.

In addition to the property represented by the cost of road, as shown in the balance sheet, the company owns 16,758,049 acres of land (see page 783), and 713 miles of track built by the Government at an expense of about \$35,000,000, and transferred to the company free of cost.

"Acquired securities held against debenture stock issued" (see balance sheet) consist of: Atlantic and Northwest Ry. 5 p. c. guaranteed stock; \$1,277,500 Columbia and Kootenay Ry. 5 p. c. 1st mtge. bonds; \$72,000 Manitoba Southwestern Colonization Ry. 5 p. c. 1st mtge. bonds; \$610,766.67 5 p. c. 1st mtge. bonds; \$29,307,000 Duluth, South Shore and Atlantic Ry. securities (\$15,107,000 5 p. c. 1st mtge., guaranteed; \$3,000,000 income certificates; \$5,100,000 preferred stock, constituting a majority); \$6,100,000 ordinary stock, constituting a majority); \$14,593,000 Minneapolis, St. Paul and Sauk Rapids Ry. securities (\$3,993,000 4 p. c. consol. mtge., guaranteed; \$8,533,400 preferred stock, constituting a majority); \$7,066,600 ordinary stock, constituting a majority); \$1,946,666.67 (£400,000) Souris Branch securities; \$3,504,000 (£720,000) Pacific Steamship 1st mtge. bonds, \$1,236,250 Montreal and Ottawa Ry. 5 p. c. 1st mtge. bonds, \$5,477,500 Columbia and Western Ry. 5 p. c. 1st mtge. bonds.

"Other acquired securities" (see balance sheet) consist of \$400,000 Montreal and Ottawa Ry. (acquired from proceeds of preference stock issued in 1893); \$302,400 Atlantic and Northwest Ry. (acquired from proceeds of preference stock); \$1,489,761.94 Montreal and Ottawa Ry. stock par, 21,600 shares, \$2,160,000 (formerly Southeastern Ry.)—total, \$2,192,161.94.

"Advances to RR. Companies" (see balance sheet) consist of the following: To Atlantic Co., secured by \$500,000 1st mtge. bonds, \$424,144.80; to Duluth, South Shore and Atlantic Ry., \$236,213.19—total, \$660,357.99.

½ p. c. Land Grant bonds, or inscribed stock, due 1938.

½ p. c. debenture stock.

mtge. bonds are in denominations of £100, £500, and £1,000, and are in coupon form, with registration; principal and interest payable at office of Baring Bros., London—principal July 1, interest Jan. and July. The Canada Central 2d mtge. bonds are due Nov. 1, 1910. The mortgages of Quebec were payable March 4, 1902-1904, interest 5 p. c. semi-annually. During 1894 it was concluded with the Quebec Government, by which these mortgages shall be paid in two instalments on March 1, 1904, and 1906, interest being reduced to an average rate of 4.05 p. c. These bonds only apply to the purchased lines they cover—the Canada Central, the North Shore and the Q., M., O. & O. Ry. are not a charge on the Canadian Pacific Ry. proper.

Land Bonds.—The company executed a mortgage and issued 5 p. c. bonds for \$25,000,000 on its grant of 25,000,000 acres. Of these bonds the Government accepted, in 1881, \$5,000,000 as security for the safe and continuous working of the railway for ten years after completion, but \$4,000,000 of them were cancelled in 1886, and were subsequently cancelled. A further \$8,996,000 of the bonds were deposited with the Government as security without interest under the Loan Act, 1884, but were cancelled under the later agreement of March 30, 1886. During the past year \$1,000,000 of these bonds held by the Dominion Government for certain works to be performed, were surrendered and destroyed. Under the terms of the mortgage the bonds to the face value of \$250,000 were called for redemption from the proceeds of land sales. These \$155,000 had been redeemed and cancelled at the end of the year. A further amount will be called for. The principal of the bonds is redeemable at Montreal, on Oct. 1, 1931, unless previously repaid by payment for lands at 110 p. c. and accrued interest, or redeemed out of the proceeds of land sales, by cash or by drawings at 10 p. c. premium. The bonds are in coupon form, interest payable in New York, or London; principal and interest payable in gold.

Perpetual 4 p. c. Consol. Debenture Stock.—Issued in amounts of £1 and multiples thereof. Interest payable Jan. 1 and July 1, by warrants from the company's London office. The stock is registered at the same office. The amount outstanding was issued, £3,912,175 for general purposes, for the purchase of three steamships built for the service to China and Japan, £1,004,000 for the Souris Branch, and for the acquisition of mortgage bonds, the principal and interest of which are guaranteed by the Canadian Pacific Ry. Co. The securities acquired are held in the treasury of the company as an additional security for the holders of this stock.

Algoma Branch 5 p. c. 1st mtge. bonds.—Secured on the Algoma Branch, from Sudbury to the bridge over Ste. Marie. There are 250 bonds of £1,000 (numbers 1 to 250), 400 of £500 (numbers 251 to 650) and 3,650 of £100 (numbers 651 to 3,650), all bearing interest from Jan. 1, 1888, payable on Jan. 1 and July 1, at Baring Bros. & Co.'s, where the principal is also redeemable on July 1, 1937. The bonds may be registered certificates at the same place. Sir Charles Tupper and Lord Revelstoke are the bondholders.

Land Bonds, or Inscribed Stock, 3½ p. c., are secured by a mortgage on the unsold Canadian Pacific land to the lien of the 5 p. c. mortgage. The interest is guaranteed by the Dominion Government, and the proceeds of the sales of land are to be deposited with the Government to constitute a sinking fund for the bonds, and to bear interest at 3½ p. c. per annum, to be applied toward satisfying the interest on the bonds when the money thus deposited with the Government, whether from land sales or other sources, is sufficient to redeem the principal of the outstanding bonds, the mortgage on the land is to be discharged, and the Dominion Government will assume and pay all the future interest as well as the principal, the company being freed of all liability in respect thereof. The inscribed stock amounts to £163,800, and will be transferable in any sum of £10. There are 800 A bonds of £1,000 (numbers 1 to 800), 2,000 B bonds of £500 (numbers 801 to 3,000), and 11,299 C bonds of £100 (numbers 5,001 to 16,299). Bonds to bearer may at any time be converted into registered stock at a fee of one-eighth p. c., but registered stock cannot be converted to bearer. Interest accrues from July 1, 1888, payable on Jan. 1 and July 1, and the principal will be payable on July 1, 1938.

Land Grant.—The company received a land grant from the Dominion Government of 19,818,506 acres, in alternate sections of 640 acres each, within 24 m. of the road on either side of the road from Winnipeg to the base of the mountains, of which 6,793,014 acres were surrendered to the Government under agreement of March 30, 1886, leaving 18,206,998 acres. Adding 1,611,506 acres earned on account of the Souris Branch, makes the total grant 19,818,506 acres. Total sales to Dec. 31, 1899, 4,248,284 acres; less 19,841 acres cancelled in 1899, leaving net sales of 4,228,443 acres. Area of land unsold, 15,590,063 acres.

The company issued \$25,000,000 1st mtge. 5 p. c. 50-yr. land grant bonds, due Oct. 1, 1931, of which, held by the Dominion Government as security for certain works to be performed, have been surrendered and destroyed; \$20,740,500 have been redeemed and cancelled; and the balance, \$3,259,500, is outstanding.

Manitoba Southwestern land grant, 1,396,800 acres. Less sales to Dec. 31, 1899, 964,194 acres; deduct cancelled in 1899, 5,084 acres, 412,606 acres. Lands unsold, 984,194 acres.

British Columbia and Kootenay land grant, 190,000 acres. Less sales to Dec. 31, 1899, 1,000 acres. Lands unsold, 188,792 acres.

Aggregate lands owned by the company, 16,758,000 acres. In addition to the foregoing the company will receive through the British Columbia Ry. about 3,350,000 acres.

Road opened as above in Oct., 1892. The company is entitled to a subsidy of \$80,000 for twenty years from July, 1891, from the Dominion Government, for hauling Government traffic, and paid direct to the London agents, as trustees for the bondholders. The company is further entitled to a grant of 2,176,000 acres, of which 1,481,046 acres have been sold, and about 407,402 acres are retained against the subsidy, and by the Canadian Pacific Ry. Co. on account of its undertaking to operate the road during the first five years. The Canadian Pacific Ry. Co. operated the road until July 1, 1896, at that date of acquiring the bonds at 110 p. c., and of having the capital stock transferred to the company. This option was not exercised, and a new agreement was entered into whereby the Canadian Pacific Ry. Co. operate the road until July 1, 1901, at actual cost, without charge for general management or for increase of value of the rolling stock used, and with certain arrangements for allowance to this company for interest on the bonds. By this agreement the total net earnings and the Government subsidy will be applicable to the interest on the bonds.

The total issue of bonds is secured upon the entire property, excluding the land grant, and the proceeds have been applied towards the construction of the line to Prince Albert. The company is entitled to an annual subsidy from the Dominion Government, for transport of Government traffic, of \$80,000 (£16,400) for 30 years. Completion (1st section, July, 1890; 2d section, Oct., 1890), which is to be paid over direct by the Government to the agents of the loan, as trustees for the bondholders. The company is further entitled to a land grant of 100,000 acres of selected lands, a portion of which has been sold, and the proceeds paid to the agents of the loan to provide the balance of the interest on the bonds until and including the coupon due Feb. 1, 1901. The Pacific Ry. Co. had the option of paying off the bonds at 110 p. c. on that date, but it was not exercised. The bonds are redeemable Aug. 1, 1911, interest payable Feb. 1 and Aug. 1; all payments made by the company on the loan—Chaplin, Milne, Grenfell & Coy, London, Eng. It is agreed that in future if any portion of the interest cannot be paid out of the net earnings and the Government subsidy, the deficiency will be paid in whole or in part out of future surplus earnings.

The M., S. S. M. & A. firsts are secured on line from Minneapolis to Sault Ste. Marie and St. Croix Falls, together about 500.33 miles. The Minneapolis and Pacific bonds are secured on the line from Minneapolis to Boynton, N. Dak., 286.59 miles.

The authorized amount of M., St. P. & S. S. M. 1st consols is \$21,000,000 for 800 miles of road and \$20,000 for each additional mile of road (a total of \$28,345,000), of which \$10,000,000 are reserved to take up a like amount of M., S. S. M. & A. 1st mtge. bonds, and \$4,200,000 to take up a like amount of M. & P. 1st mtge. bonds. The Canadian Pacific Ry. Co. guarantees interest on all these consols, and on such of the two issues of mtge. bonds as have assented to a reduction in the rate to 4 p. c. per annum. All of the M. & P. bonds and practically all of the M., S. S. M. & A. bonds have assented to the reduction. The income certificates were issued in exchange for 15 p. c. of outstanding bonds surrendered by holders. These certificates have been issued since the close of the fiscal year.

The authorized amount of M., St. P. & S. S. M. 2d mtge. bonds is \$5,000,000, of which \$3,500,000 have been issued and the proceeds expended in paying off the floating debt, purchasing terminals, and in making improvements to the property. The remainder (\$1,500,000) will be reserved for future purposes of the company. Canadian Pacific Ry. Co. guarantees the interest on these bonds.

All bonds are in coupon form, with privilege of registration. Interest on bonds payable at the office of J. P. Bliss & Co., New York. Trustee of bonds: Central Trust Co., New York, N. Y.

# GRAND TRUNK RAILWAY

## SYSTEM.

This company controls the Grand Trunk Junction, the Detroit, Grand Haven and Milwaukee, the Michigan Air Line and the Toledo, Saginaw and Muskegon Ry. Co., the ownership of the entire capital stock of each, and controls the Chicago and Grand Trunk Ry., the Cincinnati, Saginaw and Mackinaw RR., the United States and Canada Ry., the Central Vermont Ry. through ownership of a majority of their capital stocks. The Grand Trunk Ry. Co. lines, as also the Chicago, Detroit and Canada Grand Trunk Junction Ry., are operated in connection with the railroads of the Grand Trunk Ry. Co., but their operations are reported separately. See GENERAL INDEX for statements relating to those companies.

**History.**—Consolidation, Aug. 12, 1882, of a company of the same name with the Great Western Ry. Co. The company thus formed was united with the Northern Ry. Co. of Canada and its leased line, the Hamilton and Northwestern Ry., on Jan. 24, 1883, re-naming the company the Grand Trunk Ry. Co. of Canada. Full particulars of the consolidation taking the present style of the Grand Trunk Ry. Co. of Canada. Full particulars of both amalgamations were published in the MANUAL for 1892. (See also MANUAL for 1892, page 973.) In 1892 the Northern and Pacific Junc. Ry., 112 m., and in 1893 certain other lines, having an aggregate mileage of 1,157.59 m., were consolidated with the Grand Trunk Ry. (See MANUAL for 1894.)

This company owns more than \$2,000,000 (out of a total of \$3,000,000) of the stock of the Central Vermont Ry. Co., and guarantees the interest on the bonds of that company under a traffic agreement, by the terms of which this company agrees to make good any deficiency up to an amount equal to 30 p. c. of the gross receipts from both companies changed between the two companies.

# TWENTY-TWO YEARS OF PROTECTION

The financial history of the United States naturally divides itself into three periods: The first, the Period of Construction—the work of the Fathers; the second, the Period of the attempted Destruction of the Union; the third, of its Restoration. The first period, of 40 years, extends from the formation of the Government in 1789 to the close of the administration of John Quincy Adams in 1829; the second period, of 36 years, from the beginning of General Jackson's administration in 1829 to the restoration of peace in 1865; the third period, of 22 years, extends to the end of 1887; for although the election of Mr. Cleveland nominally put an end to the period of Restoration, he so far has been unable to undo its distinctive feature,—a return to the protective policy of the Fathers. The object of this work is to display the Period of Restoration; hence its title, "Twenty-Two Years of Protection." To a proper understanding of this period, a competent knowledge of the events of the two preceding periods, as well as of the Colonial Period, is a necessary condition.

. Guaranteed Stock.—Created by Act of 1884, and issued to holders of Great Western preference  
inary shares, and is entitled to a non-cumulative dividend not exceeding 4 p. c. per annum of the  
of the company. Ranks next in priority to debenture stock.

ference Stock.—Under the Acts of 1873 and 1874 this stock is now entitled to a dividend of  
num, in perpetuity, charged on the available net profits of each year after payment of dividend  
stock.

ference Stock.—Ranking next to the first preference stock and otherwise identical in security  
dividends were paid for the second half of 1863 and the first half of 1864, and a dividend of £1  
id for the first half of 1873, but no further dividend was paid till 1880, when the full dividend  
year was paid. The full dividend was also paid for the six half-years ending Dec. 31, 1883  
no distribution since, except 13s. 4d. p. c. per annum for second half of 1887.

**Third Preference Stock.**—Under Acts of 1873 and 1884 this stock is entitled to a dividend of 4 per centum, in perpetuity, out of net earnings of each separate year, subject to the priority of the first and second preference stocks. The only distributions on this stock have been as follows: 1884 (1st half), 4 p. c. (2d half), 1 p. c.; 1882 (2d half), 3½ p. c.; 1883 (2d half), 3½ p. c.

**Perpetual 5 p. c. Debenture Stock (Grand Trunk Section).**—Created under powers of the "Consolidated Debenture Stock Act, 1874," passed May 26, 1874. Secured by 1st mtge. on all the property, as also upon the company's interest in the International Bridge and in leased and open subject, however, to the priorities of all other preferential charges existing at date of issue; ranks in after the Equipment Mtge. Bonds; interest 5 p. c. per annum, in perpetuity, payable Jan. and July.

**Perpetual 5 p. c. Debenture Stock (Great Western Section).**—This stock was issued in two series, each, with half-yearly coupons attached, payable to bearer on Feb. 1 and Aug. 1; or, at the option, the stock can be registered in the books of the company. The Debenture Stock is defined by the "Co.'s Financial Act, 1871," to be, in common with the terminal bonds of that company, "a 1st mtge. upon the railway tolls, lands, and other property which are hereby pledged, and shall stand pledged for the due payment of the said bonds and the interest thereon." In 1886, £17,000 of this stock was exchanged for £21,080 4 p. c. debenture stock; in 1887, £30,190 for £37,533 4 p. c. debenture stock; and in 1888, £4,488 4 p. c. debenture stock.

**Perpetual 4 p. c. Consolidated Debenture Stock.**—By the terms of the Grand Trunk Ry. Act of 1888, securities acquired by exchange for this stock are held alive for the benefit of the holders. The conversion into this stock of the pre-preference securities (including the 5 p. c. Grand Trunk and Great Western debenture stock), and the bonds of the controlled and subsidiary lines, will, from and after the date of the issue of this stock, be proceeded with by an agreement with the holders. Interest payable Jan. 14, April 14, July 14, and Oct. 14.

quipment Mortgage Bonds.—Of these bonds, £85,700 had been acquired by the company to Dec. 31, 1899, and were held as security for the debenture stock, £82,400 having been acquired by the issue of 4 p. c. debenture stock.

Perpetual Debenture Stock (Great Western Section).—Issued in bonds of £100 each; coupon, 5 p. c. of registration; interest Feb. and Aug. In common with the terminal bonds of the company mortgage, upon the railway tolls, land and other property of this company.

5 p. c. Sterling Bonds (Northern Ry. of Canada).—These bonds are a first lien on the entire property of the Northern Ry. Co. They are for £100 and £500, and are in "bearer" or registered form. They may be registered as to principal only, and registered bonds can be exchanged back again into bearer. Under the Grand Trunk Ry. Act of 1888, £81,300 of these bonds had been converted into debenture stock to Dec. 31, 1899.

Perpetual Debenture Stock (North. Ry. of Canada).—Is entitled to privileges and priorities of the bonds, which matured Aug. 1, 1884. Issued to July, 1884, 2d preference bonds being received for £100 for £125 stock. Interest payable Feb. and Aug., in London.

Preference Irredeemable 6 p. c. Bonds, Class A (North. Ry. of Canada).—Issued under the Companies Act of 1868, and representing the third charge on the undertaking. Holders of these bonds are offered 125 of 4 p. c. debenture stock for £100 bond, and £41,000 bonds have been thus converted into debenture stock to Dec. 31, 1899.

Preference Irredeemable 6 p. c. Bonds, Class B (North. Ry. of Canada).—Issued under resolution of 1869, and powers of Companies' Act of 1868, in substitution of the arrears of interest bonds, or dividends immediately after the Class A bonds, and before the preference stock of 1876. The bonds are £125 4 p. c. debenture stock for every £100 of these bonds, and £41,900 bonds had been thus converted into debenture stock to Dec. 31, 1899.

1st Mtge. 5 p. c. Coupon Grand Trunk, Georgian Bay and Lake Erie Bonds.—Total authorized £250,000, of which £46,200 were set aside upon trust for extensions, etc., but £23,600 have been since the construction of the South Norfolk extension and for other capital purposes. Of the balance £21,300 had been already issued to the Grand Trunk Ry. Co. and others, leaving £212,700 available. The bonds are secured by a 1st mtge. deed of trust, dated April 25, 1883, on the Grand Trunk, Georgian Bay and Lake Erie, together with all its land and property of whatever kind. Redeemable at par, in London, interest payable Feb. 1 and Aug. 1. The bonds are numbered 1 to 500 of £500 each, and 1 to 100 of £100 each. Those issued by the Scottish-American Investment Co. have been endorsed by them, and are numbered 0408 of £500, and 001 to 0060 of £100 each. Under the Grand Trunk Ry. Act, 1888, £100,100 of these bonds had been, up to Dec. 31, 1899, converted into consol. debenture stock. The bonds are payable, interest, at the offices of the Grand Trunk Ry. Co. They may be registered (at the same offices) as to principal only or interest or both; bonds registered as to principal only may be exchanged back again into bearer, but bonds registered as to principal and interest must remain registered.

Consol. 5 p. c. Consol. 1st Mtge. Bonds.—By the Act of Amalgamation of the Midland Ry. Co. and the Grand Trunk Ry. Co., consol. mtge. security was created for the purpose of (1) taking up and redeeming outstanding bonds of companies then amalgamated, amounting together to £1,521,300; (2) making provision at the rate of £7 (\$25,000) per mile, for the construction and equipment of the Toronto and Ottawa Ry.; (3) £1,000 for improvements on the Grand Junction section, and (4) £351,000, to be issued as required for extensions of the consolidated company's works. The bonds taken up are to retain their character in respect of which they were issued, and be held by the trustees for the benefit of the bondholders until the existing bonds on all the sections of the Midland Ry. have been got in, when they will be cancelled, and the consolidated bonds will form the first charge upon the entire undertaking of the Grand Trunk Ry. Co. The consols are secured by a mtge. deed of trust, dated May 10, 1882, conveying to trustees all the lands, rolling stock, tolls, revenues, and all present and future real and personal property and interests of the Grand Trunk Ry. Co. of £100 each, but may be of such other sums as the directors may deem proper. Interest payable Jan. 1 and July 1, and principal payable at par, in London, on Jan. 1, 1912. Under the Grand Trunk Ry. Act, 1888, £500,400 of these bonds had been, to Dec. 31, 1899, converted into consol. debenture stock.

Consol. 5 p. c. Sterling 1st Mtge. Bonds.—Issued in 1878 by the old Midland Co., in lieu of mortgages. The bonds are to bearer, bear interest at the rate of 2½ p. c. per annum for the first five years, afterwards at the rate of 5 p. c. The coupon due May, 1878, was not paid till Nov., 1880, and the coupons were funded in 5 p. c. deferred interest certificates, which were included in the bonds issued by 1st mtge. consols. The subsequent coupons were paid at maturity. Both principal and interest payable in London, and the bonds are redeemable in May, 1908. Under the Grand Trunk Ry. Act, 1888, £71,500 of these bonds had been, to Dec. 31, 1899, converted into consolidated debenture stock.

5 p. c. Bonds (Montreal and Champlain Ry.).—Issued in Nov., 1882, by the Grand Trunk Ry. Co. for the amount already expended on the construction of the existing section from Brosses to St. Martin and to defray the cost of the remaining section, 39.5 m., from St. Martin to Dundee. They are secured by a 1st mtge. on the "railway, lands, rolling stock, tools, revenue, and present and future property and effects, and appurtenances" of the Montreal and Champlain Junc. Ry., and are redeemable at par Jan. 1, 1912, interest payable Jan. 1 and July 1. Bonds are to bearer, but may be registered. Under the Grand Trunk Ry. Act, 1888, £71,500 of these bonds had been to Dec. 31, 1899, converted into debenture stock.

Wellington, Grey and Bruce 1st Mtge. Bonds are the outstanding balance of an issue of £532,000, or having been retired either by drawings or by conversion into Grand Trunk 4 p. c. debenture stock. The bonds are a first lien on the Wellington, Grey and Bruce Ry. The line is operated by the Grand Trunk Ry. Co., which gives Wellington bonds 30 p. c. of the gross receipts as interest, and sets aside a sinking fund of extra traffic interchanged for redeeming bonds by drawings in May and Nov. The 30 p. c. of gross receipts has been insufficient to pay the full interest on the bonds, which is consequently in arrear. On the coupon due Jan. 1, 1889, besides the full amount of all subsequent coupons. All interest is made at the office of the Grand Trunk Ry. Co.

**History.**—The Chicago and Grand Trunk Ry., as now constituted, is a consolidation of various lines of railroad between Port Huron and Chicago. The line is controlled and operated in the interest of the Grand Trunk Ry. Co. of Canada, and forms the Chicago division of that company's system. (For detailed history see MANUAL for 1895.) The Grand Trunk Junction Ry., under terms as shown

statement printed below. The Chicago and Grand Trunk Ry. Co. is now (August) in receivers' hands.

Under date of Oct. 17, 1899, a plan for the reorganization of this company's finances was adopted. This plan provides for the foreclosure of the 1st mtge. of Jan. 1, 1900, and the creation of \$15,000,000 general mtge. 50-yr. 4 p. c. gold bonds and \$6,000,000 ordinary stock. Proceeds of the new bonds are to be used as follows: To be reserved for that portion of Northwestern Grand Trunk mtge. bonds of Jan. 1, 1910, which are a prior lien of the C. & G. T. mtges. on the eastern division of the road, at par, \$563,000; to be issued for the 1st mtge. bonds falling due on Jan. 1, 1900, at par (\$484 for £100 bond), \$5,437,000; to be issued to 2d mtge. bondholders at the rate of \$750 for each \$1,000 2d mtge. bond, \$4,500,000; the remainder (\$4,500,000) to be issued for capital purposes. The new stock to be issued is of the Grand Trunk Co., in repayment of its advances and in full satisfaction of the floating debt of the company. The Grand Trunk will give a traffic agreement of 30 p. c. of its gross earnings on interchanged traffic to meet the interest on the new 4s. (See GENERAL INDEX under information.)

Capital stock consists of \$100,000 ordinary stock and \$1,000,000 (\$1,500,000 auth.) preference non-cumulative stock, making total share capital paid in \$1,100,000.

Funded debt consists of \$486,667 prior lien 4 p. c. debenture stock (\$608,333 auth.), dated Dec. 10, 1895, payable at 110 p. c. until June 28, 1905, and at 105 p. c. thereafter, interest Jan. and July; \$1,216,666 debenture stock "A," dated Dec. 10, 1895, and redeemable at par at any time at three months' notice, interest Jan. and July only if earned until June 30, 1900; \$3,212,492 debenture stock "B" (\$3,650,000 auth.), dated Dec. 10, 1895, interest 5 p. c., payable in Dec. only if earned.

The Lethbridge Land Co. was organized in 1891 for the purpose of taking over the farm lands and certain other property of this company, and paying therefor in bonds, while the debenture holders of this company agreed to stop payment of their coupons in 1892, 1893, and 1894, partly in cash and partly in the bonds of the Lethbridge Land Co. This arrangement fell into default in 1893, and in 1895 the capital account was entirely reconstituted, the ordinary shares being written down by \$1,650,000, while for the old debentures, with arrears of interest reckoned at £110,000, A debenture stock and B debenture stock have been issued, and prior lien debenture stock has been issued partly to provide for floating debts. The prior lien debentures, A debentures, and B debentures are secured in the order named on the railway, land, and other real property of the company, except Dunmore-Lethbridge Line and purchase money payable for the same by the Canadian Pacific Ry. Co. and secured as a floating charge on the other assets of the company. The B debentures are redeemable as to \$300 out of any balance remaining from the sale of the Dunmore-Lethbridge line after the repayment of a sum of £113,000, and as to the balance at any time, at par, at the company's option, on three months' notice. **Attorney for debentures:** The Trustees, Executors and Securities Insurance Corporation, Limited, London, E. C.

**LETHBRIDGE LAND CO., LIMITED.**—Chartered Dec. 22, 1891, to acquire from the Alberta Ry. Co. mortgages to the amount of about \$800,000 on lands (which the Alberta Co. had sold) lying in the district of Alberta, N. W. T., Can., together with about 45,000 acres near the town of Lethbridge and 1,500 lots within that town. Capital stock (£10 shares), £100; funded debt, purchase money, 6 p. c. £50, £100 and £500 debentures, due Jan. 1, 1905, but redeemable at par on three months' notice, interest Jan. and July (£200,000 issued), £191,000. These debentures were issued to the Alberta Co. to be delivered by that company in part payment

of interest on its debentures (see statement for Alberta Ry. and Coal Co.). In the agreement with the Alberta Co. it is provided that so soon as this company's bonds shall have been redeemed, all the remaining lands and properties hypothecated as security are to be re-transferred to the Alberta Co. The company's report, dated Dec. 22, 1896, stated that negotiations were pending for the purchase outright of the major portion of the company's bonds. Interest on the bonds is payable at the company's office. The interest due July 1, 1894, and subsequently, is in arrear. **Adrian C. F. Hope, Pres.; Geo. Edwards, Sec.,** 17 Old Jewry, London, E. C.

Capital stock consists of \$100,000 ordinary stock and \$1,000,000 (\$1,500,000 auth.) preference non-cumulative stock, making total share capital paid in \$1,100,000.

Funded debt consists of \$486,667 prior lien 4 p. c. debenture stock (\$608,333 auth.), dated Dec. 10, 1895, payable at 110 p. c. until June 28, 1905, and at 105 p. c. thereafter, interest Jan. and July; \$1,216,666 debenture stock "A," dated Dec. 10, 1895, and redeemable at par at any time at three months' notice, interest payable Jan. and July only if earned until June 30, 1900; \$3,212,492 debenture stock "B" (\$3,650,000 auth.), dated Dec. 10, 1895, interest 5 p. c., payable in Dec. only if earned.

The Lethbridge Land Co. was organized in 1891 for the purpose of taking over the farm lands and certain other property of this company, and paying therefor in bonds, while the debenture holders of this company agreed to the payment of their coupons in 1892, 1893, and 1894, partly in cash and partly in the bonds of the Lethbridge Co.

This arrangement fell into default in 1893, and in 1895 the capital account was entirely reconstituted, the ordinary shares being written down by \$1,650,000, while for the old debentures, with arrears of interest reckoned at £110,000, A debenture stock and B debenture stock have been issued, and prior lien debenture stock has been issued partly to provide for floating debts. The prior lien debentures, A debentures, and B debentures are secured in the order named on the railway, land, and other real property of the company, except Dunmore-Lethbridge Line and purchase money payable for the same by the Canadian Pacific Ry. Co. and secured as a floating charge on the other assets of the company. The B debentures are redeemable as to \$100 out of any balance remaining from the sale of the Dunmore-Lethbridge line after the repayment of a sum of £113,000, and as to the balance at any time, at par, at the company's option, on three months' notice. See for debentures: The Trustees, Executors and Securities Insurance Corporation, Limited, London, E. C.

**LETHBRIDGE LAND CO., LIMITED.**—Chartered Dec. 22, 1891, to acquire from the Alberta Ry. & Coal Co. mortgages to the amount of about \$800,000 on lands (which the Alberta Co. had sold) lying in the district of Alberta, N. W. T., Can., together with about 45,000 acres near the town of Lethbridge and 1,500 lots within that town. Capital stock (£10 shares), £100; funded debt, purchase money, 6 p. c. £50, £100 and £500 debentures, due Jan. 1, 1905, but redeemable at par on three months' notice, interest Jan. and July (£200,000 issued), £191,000. These debentures were issued to the Alberta Co. to be delivered by that company in part payment

of interest on its debentures (see statement for Alberta Ry. and Coal Co.). In the agreement with the Alberta Co. it is provided that so soon as this company's bonds shall have been redeemed, all the remaining lands and properties hypothecated as security are to be re-transferred to the Alberta Co. The company's report, dated Dec. 22, 1896, stated that negotiations were pending for the purchase outright of the major portion of the company's bonds. Interest on the bonds is payable at the company's office. The interest due July 1, 1894, and subsequently, is in arrear. Adrian C. F. Hope, Pres.; Geo. Edwards, Sec., 17 Old Jewry, London, E. C.

**KINGSTON AND PEMBROKE RY.**—Kingston to Renfrew, Ont., 103.10 m.; Bedford to Zanesville, N. B., 4 m.; branches to Iron Mines and Mills, 5.75 m.—total, 112.85 m.; total track, 133.85 miles. Rail (iron, 9.75 m.), 56 lbs., and (iron, 9.75 m.), 50 to 84 lbs. Gauge, 4 ft. 8½ in. Chartered April 14, 1871; road opened April 17, 1875; extended to Renfrew in 1884. At the latter place and at Sharbot Lake connection is made with the Canadian Pacific Ry. This company has running powers over the Canadian Pacific from Renfrew to about 85 m., and from Pembroke to Nipissing, a further distance of 140 miles. It also has the right to carry traffic, with the same diligence, despatch, and care as Canadian Pacific traffic, and at arbitrary rates from Nipissing to Sault Ste. Marie, a distance of 300 miles. These privileges are granted by the Government and are settled by statute. The company received from the Dominion Government 30 acres of land in Kingston for terminal facilities, and 60 acres additional under water for docks, at nominal figures. The company owns 18 acres at Renfrew and 10 acres at Sharbot Lake. It is exempt from taxation for 20 years in the Province of Ontario. The Bay of Quinte Ry. Co. (see GENERAL INDEX) uses this company's line between Kingston and Renfrew, 19 miles.
